To the student

English Pronunciation in Use is a book to help students of English to work on pronunciation, for both speaking and understanding. It is written mainly for students of intermediate level.

What will I need?

You will need a cassette or CD player to listen to the recorded material that goes with this book. It will be very useful if you have equipment to record your own voice, so that you can hear your own progress. This symbol  indicates the track number for recorded material i.e. CD or cassette A, track 1.

Also, when you are studying individual sounds, it is sometimes useful if you have a mirror. With this, you can compare the shape of your own mouth to the mouth in diagrams like this one from Unit 8.

See page 163 for a labelled diagram of the mouth and throat.

How is *English Pronunciation in Use* organised?

There are 60 units in the book. Each unit looks at a different point of pronunciation. Each unit has two pages. The page on the left has explanations and examples, and the page on the right has exercises. The 60 units are divided into three sections of 20 units each. Section A is about how to say and spell individual sounds. Section B is about joining sounds to make words and sentences. Section C is about pronunciation in conversation.

After the 60 units, there is a fourth section, Section D, which contains the following:

- Introduction to phonemic symbols
- Pronunciation test
- Guide for speakers of specific languages
- Sound pairs
- Sentence stress phrasebook
- Glossary

At the end of the book there is a Key with answers.

With the book, there is also a set of four cassettes or CDs, one for each section of the book.

What order shall I do the units in?

It is better if you balance the work that you do from the three sections: first, do a unit from Section A, then a unit from Section B, then a unit from Section C, then another unit from Section A, and so on.

So, for example, you could begin like this:

Unit 1, then Unit 21, then Unit 41, then Unit 2, etc. At the end of each unit, you will find a note telling you where to go next.

If you have problems in hearing the difference between individual sounds in Section A of the book, you will be directed to one of the exercises in Section D4 *Sound pairs*.

You may want to focus your work more closely. If so, here are more ideas:

- Do the *Pronunciation test* in Section D. Count your score for each section. If you did specially well in any one of the sections, then you may want to miss the units in that section of the book.
- Look at Section D3 *Guide for speakers of specific languages*. Find your own language (the languages are in alphabetical order). The notes there will tell you which units are less important for speakers of your language and which sound pairs in section D4 are recommended.

Do I need to know the phonemic symbols?

It is possible to use this book without knowing phonemic symbols. However, it is useful to learn them because they make it easier to analyse the pronunciation of words. Also, many dictionaries use phonemic symbols to show pronunciation. In Section D1 *Introduction to phonemic symbols*, you will find a table of the phonemic symbols, plus a set of puzzles to help you learn them.

Is this book only about pronunciation in speaking?

No, it isn't. Pronunciation is important for both listening and speaking. In many of the units, especially in Sections B and C, the pronunciation point is more important for listening than speaking. For example, when they are speaking fast, many native speakers join words together in certain ways. You need to be able to understand this when you hear it, but it does not matter if you do not speak in this way. People will still understand you. Pronunciation points like this are shown with a grey background and this sign:

Important
for listening

It is your choice whether you want to just focus on listening, or whether you want to try to speak that way too.

What accent of English is used in this book?

For a model for you to copy when speaking, we have used only one accent, a Southern British accent. But when you are listening to people speaking English, you will hear many different accents. If you are not used to these, it can be very difficult to understand what is being said. For this reason, you will hear a variety of accents in some parts of the listening material for this book.

What is the *Sentence stress phrasebook*?

It can help you to speak more fluently if you say some very common expressions with a fixed pronunciation, like a single word. In Section D5 *Sentence stress phrasebook*, some common expressions are given, and they are grouped together by the way they sound: by their *sentence stress* or *rhythm*. You can practise listening and repeating these to improve your fluency.

What is in the *Glossary*?

In this book, there are some words which are specific to the subject of pronunciation. You can find an explanation of the meaning of these words in Section D6 *Glossary*.

How should I use the recordings?

When you are working with the recording, you should replay a track as often as you need to. When you are doing an exercise you may also need to pause the recording after each sentence to give you time to think or to write your answers. When you are instructed to repeat single words there is a space on the recording for you to do so, but if you are repeating whole sentences you will have to pause the recording each time.

To the teacher

Although *English Pronunciation in Use* has been written so that it can be used for self-study, it will work equally well in a class situation. In a classroom context, the learners can get immediate guidance and feedback from the teacher. Also, they can practise some of the dialogues and other exercises in pairs. You can direct students with particular pronunciation difficulties to do specific units on their own.

In order to simplify the jargon in the book, many of the terms you may be familiar with are not used. For example, the term *initial consonant cluster* is not used. The unit on initial consonant clusters is called *Unit 24 Oh, no snow!: Consonants at the start of syllables*. The following is an explanation of how the book is organised, ending with the map of contents described in phonological terms.

Section A aims to cover the sounds of English and their main spellings. The units are organised by letters rather than sounds. The intention is that this would be a more intuitive route in for non-specialist users. At the same time, this organisation helps to highlight sound-spelling regularities in English.

The vowels are covered first via the five vowel letters of the alphabet, and their 'long' and 'short' pronunciations, for example the letter A as in *tape* or *tap*. The remaining vowel sounds are presented as vowels which typically occur before a letter R. The consonant sounds are presented through either their most common spelt letter, or by one of their main spellings. The ordering of these units is more or less alphabetical.

The units in Section A are not presented as minimal pairs. Vowels are paired according to their spelling, not their potential for being confused with one another. Consonants are paired mainly where they share the same place of articulation. The units were not organised as minimal pairs for two reasons:

- Any sound can form a minimal pair with a number of other sounds, not just one. Organising units according to minimal pairs would therefore lead to a huge number of units and a lot of duplication.
- Many minimal pairs will be redundant for any given learner, so learners need to be selective. Potentially confusing minimal pairs are gathered together in Section D4 *Sound pairs*. Learners are encouraged to select from these according to their own needs.

Alternatives are included for those areas of pronunciation which are especially susceptible to variation across different varieties of English. For example, where there is a letter R with no vowel after it, many speakers do not pronounce the R and many other speakers do pronounce it, and both varieties are presented.

Many vowel sounds are treated as local variants of vowel + R. For instance, the diphthong /ɪə/ is initially presented not as a sound in itself, but as a variant of /i:/ when it occurs before R or L.

Some of the pronunciation points in the book are potentially irrelevant to some learners. For instance, for learners whose aim is mainly to communicate with other non-native speakers of English, accurate production of the sounds /θ/ and /ð/ is probably not necessary. Research suggests that where speakers substitute these sounds with other approximations such as /t/ and /d/, communication is not impeded (Jennifer Jenkins: 2000)*. In many such cases, readers are advised of this fact in the units. These pronunciation points are nevertheless included. My feeling is that a distinction can be drawn between what we *aim* for and what we *settle* for. Thus, a learner might *aim* for /θ/ and *settle* for /t/ (or /s/).

Similarly, even in cases where a learner does aspire to communicate with native speakers, there are many pronunciation features where receptive competence would be sufficient. For instance, such a learner would need to understand speech with weak forms, but not necessarily produce it. This is indicated in the units by a grey background shade and the sign 'Important for listening'. Nevertheless, there may be exercises which ask the learner to produce such features. I have observed that in many cases, there is no better awareness-raiser than to *attempt* to produce, even if the aim is receptive competence.

Section B focuses on pronunciation units which are bigger than individual sounds. The units are in three blocks, dealing in turn with syllables, word stress and sentence stress. As the title of the section suggests, these features are looked at more or less in isolation from a communicative context. For instance, in the case of word stress, it is the form as it may appear in a dictionary that is dealt with here. Similarly, in the case of sentence stress, we focus on an unmarked form in Section B. For example, 'What do you think?' is presented with the stress pattern OooO. In a specific conversational context, this same sentence could be said with the stress pattern ooOo, but sentences in conversational context are dealt with in Section C rather than Section B.

Section C focuses on pronunciation features which emerge in the context of conversation. These include discourse organisation, prominence and tone. Note that there is a lot of grey shading in this section, indicating material that is more important for listening than for production. It is felt that while productive mastery of many features of intonation will be beyond the reach of many learners, they may nevertheless benefit from a receptive awareness of them.

Note: The material in Section D3 *Guide for speakers of specific languages* is based on the pronunciation notes in *Learner English* (Michael Swan and Bernard Smith: 2001)**. Nevertheless, I have had to extrapolate from the information presented there, as many of the minimal pairs presented in this book are not specifically mentioned in the pronunciation notes in that book.

Introducing letters and sounds

A

In writing, words are made of letters. In speech, words are made of sounds. Letters are not always the same as sounds. For example, the words *key* and *car* begin with the same sound, but the letters are different. We can see this clearly if we read the two words in phonemic symbols: /ki:/, /ka:/. In the examples below, word pairs have the same pronunciation but different spelling:

buy	bye	sun	son
weak	week	weigh	way
too	two	write	right

Note: There are some exercises to help you learn the phonemic symbols in Section D1.

B

There are two kinds of sounds: consonant sounds (C) and vowel sounds (V). For example, in *duck*, there are three sounds, consonant–vowel–consonant (CVC). The number of sounds in a word is not usually the same as the number of letters. We can see this if we write the word using phonemic symbols (see Section D1). For example, *duck* is /dʌk/.

C

Writers often play with the sounds in words. For example, if they are finding a name for a cartoon character, they might:

- repeat the first sound, for example **D**onald **D**uck.
- repeat the final sound or sounds (this is called rhyme), for example **R**onald **McD**onald.

Listen to these examples of names and expressions with sound-play. Notice that the writer is playing with the *sound*, not the spelling. For example, in **Dennis the Menace**, the last three sounds of the words are the same, but the spelling is completely different.

Mickey Mouse
 Rudolf the red-nosed reindeer
 Dennis the Menace
 Bugs Bunny
 news and views
 rock and roll
 wine and dine
 While the cat's away, the mice will play.

D

There are probably some sounds in English which do not exist in your language, and others which are similar but not exactly the same. This can make it difficult to hear and make the distinction between two similar words in English.

Listen to these pairs. Are any of them difficult for you?

boat – vote hit – heat so – show sung – sun wine – vine wet – wait

Note: To find out which sounds are usually easy or difficult for speakers of your language, see Section D3 *Guide for speakers of specific languages*.

Exercises

- 1.1 In this story, there are 12 incorrect words. The correct word is pronounced the same as the incorrect one, but the spelling is different. Correct them using words from the box.

son some meat way threw pears sent ~~week~~ buy piece road two

^{week}
Last ~~week~~, I sent my son Jamie to the shops to buy some food. He got a piece of meat and two pairs. On the way home, the bag broke. The food fell onto the road and got dirty. In the end, Jamie threw the food in the bin.

- 1.2 How many sounds are there in each word? Write the order of consonant sounds (C) and vowel sounds (V).

EXAMPLE

night CVC (three sounds: first a consonant, then a vowel and finally another consonant)

- | | |
|----------------|-----------------|
| 1 dog _____ | 4 gorilla _____ |
| 2 rabbit _____ | 5 snake _____ |
| 3 frog _____ | 6 bee _____ |

- 1.3 Listen to these possible names of cartoon animals. Do they have the same first sounds? (Write A.)

A3 Do they rhyme? (Write B.)

EXAMPLE Sam the lamb B

- | | |
|-------------------------|---------------------------|
| 1 Phil the fox _____ | 5 Polly the parrot _____ |
| 2 Mary the canary _____ | 6 Deborah the zebra _____ |
| 3 Ida the spider _____ | 7 Myrtle the turtle _____ |
| 4 Claire the bear _____ | 8 Kitty the cat _____ |

- 1.4 Listen to these sounds. Do you have a similar sound in your language? If you do, write a tick (✓).

- | | |
|------------------------------|---------------------|
| A4 1 /ʃ/ (shoe) _____ | 5 /dʒ/ (June) _____ |
| 2 /ɜ:/ (girl) _____ | 6 /əʊ/ (soap) _____ |
| 3 /æ/ (hat) _____ | 7 /θ/ (thing) _____ |
| 4 /z/ (zoo) _____ | 8 /l/ (life) _____ |

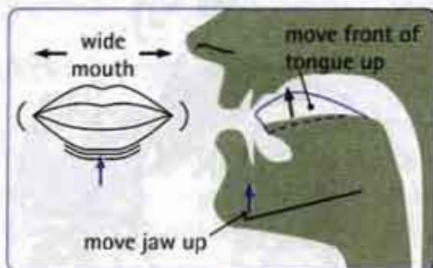

Now go to Unit 21

Plane, plan

The vowel sounds /eɪ/ and /æ/

When you say the letters of the alphabet, A has the long vowel sound /eɪ/. You hear this sound in the word *plane*. But the letter A is also pronounced as the short vowel sound /æ/, as in the word *plan*.

- A**
- A5a** • Listen to the sound /eɪ/ on its own. Look at the mouth diagram to see how to make this long vowel sound.
- A5b** • Listen to the target sound /eɪ/ in the words below and compare it with the words on each side.

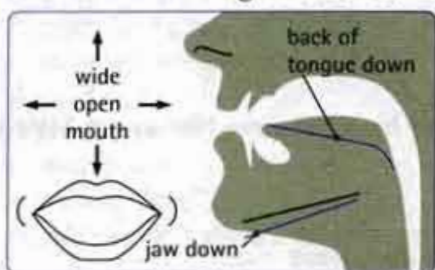

target /eɪ/		
meat	mate	met
come	came	calm
white	wait	wet
buy	bay	boy

- A5c** • Listen and repeat these examples of the target sound.
- play played plate
grey grade great
aim age eight

"The rain in Spain falls mainly on the plain."

- B**
- A6a** • Listen to the sound /æ/. Look at the mouth diagram to see how to make this short vowel sound.
- A6b** • Listen to the target sound /æ/ in the words and compare it with the words on each side.

target /æ/		
mud	mad	made
sing	sang	sung
pen	pan	pain
hot	hat	heart

- A6c** • Listen and repeat these examples of the target sound.
- bank bag back
can cash catch
ham has hat

"The fat cat sat on the man's black hat."

Important
for listening

In most accents, the following words have the vowel /æ/: *ask dance castle bath fast* But in South East England, speakers change the A sound in words such as these to /ɑ:/. (For more about /ɑ:/ see Unit 14.)

C Spelling

	frequently
/eɪ/	A-E (<i>mate</i>), AY (<i>say</i>), EY (<i>grey</i>), EI (<i>eight</i>), AI (<i>wait</i>), EA (<i>great</i>)
/æ/	A but note that if there is an R after the A (and the R does not have a vowel sound after it), A has a different pronunciation, for example <i>arm</i> : see Unit 14.

Exercises

2.1 Write words for the things in the picture in the correct part of the table.

/eɪ/	/æ/
cake	apple

2.2 These words all contain the vowel sound /æ/. Make another word with the same consonant sounds, but changing the vowel sound to /eɪ/.

EXAMPLES pan pain

plan plane

1 at

4 tap

2 mad

5 ran

3 man

6 hat

2.3 Listen and circle the word with a different vowel sound.

A7 EXAMPLE black want mad hand

1 sad bag salt tap

5 case lake name care

2 far fat map add

6 space change plate square

3 watch catch match land

7 break great heat weight

4 rain said fail train

Then listen again and check.

2.4 Listen and circle the word you hear. If you find any of these difficult, go to section D4 *Sound pairs* for further practice.

A8

1 Man or men? Did you see the *man* / *men*?

(⇒ sound pairs 1)

2 Cap or cup? Have you seen my *cap* / *cup*?

(⇒ sound pairs 2)

3 Hat or heart? She put her hand on her *hat* / *heart*.

(⇒ sound pairs 3)

4 Pain or pen? I've got a *pain* / *pen* in my hand.

(⇒ sound pairs 4)

5 Hay or hair? There are bugs in this *hay* / *hair*.

(⇒ sound pairs 5)

Follow up: Record yourself saying the sentences in 2.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 22

3

Back, pack

The consonant sounds /b/ and /p/

A

When you say the alphabet, the letters B and P have the sounds /bi:/ and /pi:/. In words, they have the consonant sounds /b/ and /p/.

- Look at the mouth diagram to see how to make these sounds:
- Listen to the sounds /b/ and /p/.

A9a

The mouth is in the same position for both sounds, however in the sound /b/ there is voice from the throat. In /p/, there is no voice from the throat. Instead, there is a small explosion of air when the lips open.

B

A9b

- Now listen to the sound /b/ on its own.

A9c

- Listen to the target sound /b/ in the words below and compare it with the words on each side.

target /b/

vest	best	vest
cups	cubs	cups
covered	cupboard	covered

A9d

- Listen and repeat these examples of the target sound.

buy bird bread
 rubber about able
 job web globe

"Bernie brought a big breakfast back to bed."

C

A10a

- Listen to the sound /p/ on its own.

A10b

- Listen to the target sound /p/ in the words below and compare it with the words on each side.

target /p/

full	pull	full
cubs	cups	cubs
coffee	copy	coffee

A10c

- Listen and repeat these examples of the target sound.

park please price
 open apple spring
 tape help jump

"Pat put purple paint in the pool."

D

Spelling

	frequently	notes
/b/	B (<i>job</i>) BB (<i>rubber</i>)	B is sometimes silent (<i>comb</i>).
/p/	P (<i>open</i>) PP (<i>apple</i>)	PH pronounced /f/ (<i>phone</i>). P is sometimes silent (<i>psychology</i>).

Exercises

- 3.1 First read this conversation to the end, and then write the letter 'b' or 'p' in each gap.
 Listen and check your answers.

SID: Where are the pears?
 JOE: ___ears?!!! Did you say ___ears?
 SID: No, ___ears, you know, fruit!
 JOE: Oh, I see, ___ears with a P! They're in the ___ack.
 SID: What, in the ___ack of the truck?
 JOE: No, in the ___ack, you know, with a P!
 SID: Oh, I see, ___ack with a P! Would you like one?
 JOE: No, I'll have a ___each, please.
 SID: A beach?!!!

Follow up: Play the recording again, pausing it after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 3.2 The word *ape* contains the two sounds /eɪ/ and /p/. If you reverse the sounds, you get the word *pay* /peɪ/. Reverse the sounds in these words and write the new word.

EXAMPLE tops spot

1 peach _____

4 step _____

2 cab _____

5 keeps _____

3 lip _____

- 3.3 Listen. In one word in each group, the 'b' or 'p' is not pronounced. Circle the word.

EXAMPLE double doubt Dublin

1 lamb label lab

5 recipe repeat receipt

2 crab robbed climb

6 possibly psychology special

3 cup cupboard copy

7 Cambridge combine combing

4 photo potato paper

- 3.4 Listen and tick (✓) the sentence you hear, A or B. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

	A	B	
1	There's a bear in that tree.	There's a pear in that tree.	(⇒sound pair 28)
2	He had the beach to himself.	He had the peach to himself.	(⇒sound pair 28)
3	They burned it.	They've earned it.	(⇒sound pair 29)
4	Say 'boil'.	Save oil.	(⇒sound pair 29)
5	This is a nicer pear.	This is a nice affair.	(⇒sound pair 30)
6	Would you like a copy?	Would you like a coffee?	(⇒sound pair 30)

Follow up: Record yourself saying the sentences in 3.4, choosing sentence A or B. Make a note of which you say. Then listen to your recording in about two weeks. Is it clear which sentences you said?

Now go to Unit 23

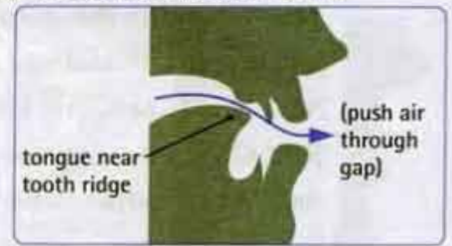

4

Rice, rise

The consonant sounds /s/ and /z/

A When you say the alphabet, the letters C and S are pronounced /si:/ and /es/. Notice they both have the consonant sound /s/. But S is also often pronounced as the consonant sound /z/.

- A14a** • Listen to the sounds /s/ and /z/. Look at the mouth diagram to see how to make these consonant sounds. Notice that in the sound /s/, there is no voice from the throat. It sounds like the noise of a snake. In the sound /z/, there is voice from the throat. It sounds like the noise of a bee.

B **A14b** • Now listen to the sound /s/ on its own.

- A14c** • Listen to the target sound /s/ in the words below and compare it with the words on each side.

target /s/

zoo	Sue	zoo
rise	rice	rise
shave	save	shave
thing	sing	thing

"It's six or seven years since Sydney's sister sang that song."

- A14d** • Listen and repeat these examples of the target sound.
sad city science scream
glasses concert lost
bus place class

C **A15a** • Listen to the sound /z/ on its own.

- A15b** • Listen to the target sound /z/ in the words below and compare it with the words on each side.

target /z/

Sue	zoo	Sue
place	plays	place
breathe	breeze	breathe
beige	bays	beige

"Zebras in zoos are like dolphins in pools."

- A15c** • Listen and repeat these examples of the target sound.
zoo zero
lazy easy scissors exact
size wise times

D Spelling

	frequently	sometimes	notes
/s/	S (<i>sad</i>), SS (<i>class</i>) C (<i>place</i>)	SC (<i>science</i>)	X can spell /ks/ (<i>mix</i>). S is not always pronounced /s/ (<i>sugar, rise, plays</i>).
/z/	Z (<i>zero</i>), S (<i>nose</i>)	ZZ (<i>buzz</i>) SS (<i>scissors</i>)	X spells /gz/ (<i>exact</i>). -SE at the end of a word is usually pronounced /z/ (<i>rise</i>).

- E** **!** Pronunciation may be connected to grammar: close /kləʊs/ = adjective close /kləʊz/ = verb use /ju:s/ = noun use /ju:z/ = verb
house /haʊs/ = noun house /haʊz/ = verb

Exercises

- 4.1 Find a way from Start to Finish. You may *not* pass a square if the word contains the sound /z/. You can move horizontally (↔) or vertically (↓) only.

START

spots	squares	prize	since	six	sports
streets	wise	sells	sits	exact	escapes
rice	rise	sense	science	lose	lost
oasis	desert	smokes	songs	crisps	box
place	face	snacks	seas	voice	boxes
plays	phase	nose	smiles	focus	concert

FINISH

- 4.2 Complete this conversation using words from the box. Then listen and check.

eyes ice niece knees

SID: Alice's niece is nice.

JOE: Are nice, Sid. Plural. Her _____ are nice.

SID: I'm not talking about her _____, I'm talking about her _____!

JOE: Oh, I see, _____ with a C.

SID: That's right. She has nice _____.

JOE: How can _____ be nice? It's too cold.

SID: Not _____, you fool! _____: E-Y-E-S!

Follow up: Play the recording again, pausing it after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 4.3 Listen to the sentences. Look at the words in *italics*. Underline the words in *italics* which contain the sound /s/ and circle the ones which contain the sound /z/. Then listen again and repeat.

EXAMPLE You can have my tent. It's no use to me. I never use it.

- I'm not going to *advise* you. You never take my *advice*.
- Your tooth is *loose*. You'll *lose* it if you're not careful.
- The shop's very *close* to home, and it doesn't *close* till late.
- I can't *excuse* people who drop litter. There's no *excuse* for it.

- 4.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D *Sound pairs* for further practice.

- Price or prize? I got a good *price* / *prize* for that painting. (⇒sound pair 31)
- He sat or he's at? I don't know where *he sat* / *he's at*. (⇒sound pair 31)
- Suit or shoot? They didn't *suit* / *shoot* him. (⇒sound pair 32)
- Saved or shaved? I've *saved* / *shaved* a lot in the past few days. (⇒sound pair 32)
- Sink or think? We didn't *sink* / *think*. (⇒sound pair 33)
- Closed or clothed? They were *closed* / *clothed* for the cold weather. (⇒sound pair 33)

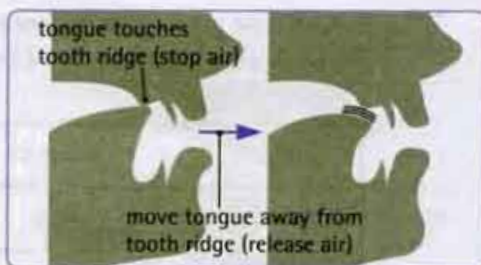

Now go to Unit 24

5

Down town

The consonant sounds /d/ and /t/

- A** A19a • Listen to the sounds /d/ and /t/. Look at the mouth diagram to see how to make these consonant sounds. Notice that in the sound /d/ there is voice from the throat. In /t/, there is no voice from the throat. Instead, there is a small explosion of air out of the mouth when the tongue moves away from the ridge behind the teeth.

- B** A19b • Now listen to the sound /d/ on its own.

- A19c • Listen to the target sound /d/ in the words below and compare it with the words on each side.

target /d/

town	down	town
they	day	they
page	paid	page
wrote	road	wrote

"David's daughter didn't dance but David's dad did."

- A19d • Listen and repeat these examples of the target sound.

dog dead dream
address advice sudden
third food mind

- C** A20a • Listen to the sound /t/ on its own.

- A20b • Listen to the target sound /t/ in the words below and compare it with the words on each side.

target /t/

die	tie	die
hard	heart	hard
three	tree	three
each	eat	each

"Betty bought a tub of butter."

- A20c • Listen and repeat these examples of the target sound.

talk Thomas train twelve
butter until hated
night worked west

Important for listening

- In many accents, including American accents, the letter T is pronounced like a /d/ when it is between two vowel sounds. So in America, *writer* /ˈraɪtə/ sounds like *rider* /ˈraɪdə/.
- In some accents, for example in some parts of London, the T between two vowel sounds is made not with the tongue but by stopping the air at the back of the throat to make a short silence. So in these accents, *butter* is pronounced *bu' er*. In fast speech, many speakers drop the /d/ or /t/ when they come between two other consonant sounds. So *facts* /fæktz/ sounds like *fax* /fæks/.

D

Spelling

	frequently	sometimes	rarely	notes
/d/	D (<i>dog</i>), DD (<i>address</i>)			
/t/	T (<i>tie</i>) TT (<i>butter</i>)	(E)D past tense ending	TH (<i>Thomas</i>)	T can be silent (<i>listen</i>).

Exercises

- 5.1 Complete these rhymes with words from the box. Then listen and check. The second time you listen to the rhymes pause after each line and repeat it.

A21

rude said ~~late~~ head fight polite food wait

There was a young lady called Kate,
Who always got out of bed late.
The first thing she _____
When she lifted her _____
Was 'I thought it was better to _____.'

There was a young waiter called Dwight,
Who didn't like being _____.
If you asked him for _____,
He was terribly _____
And invited you out for a _____.

- 5.2 Listen to and repeat these pairs of words. Then put them into the sentences below and listen and repeat the sentences.

A22a

build / built wide / white ~~weighed / weight~~ heard / hurt
down / town dry / try send / sent

EXAMPLE

A22b

Last year, Tom weighed more than Sam, but now they both have the same weight.

- 1 It wasn't _____ in a day; it takes ages to _____ a cathedral like that.
- 2 When you're out in the mountains, you have to _____ to stay _____.
- 3 He _____ it to the wrong address, so he had to _____ another copy.
- 4 It _____ my ears when I _____ that noise.
- 5 The _____ sofa is too _____ to go through that door.
- 6 We went _____ the hill and into the _____.

- 5.3 Circle the word which does *not* have the sound /t/. You can use a dictionary.

EXAMPLE asked castle letter first

- 1 eight Thames whistle walked
- 2 Thomas needed time liked
- 3 listen winter eaten after
- 4 ended wished left hoped
- 5 whiter greater soften written

- 5.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A23

- 1 Wider or whiter? Choose Dentocream for a *wider* / *whiter* smile! (⇒sound pair 34)
- 2 Dry or try? You have to *dry* / *try* it out. (⇒sound pair 34)
- 3 Breeding or breathing? These animals aren't *breeding* / *breathing*! (⇒sound pair 35)
- 4 Thought or taught? She *thought* / *taught* for a long time. (⇒sound pair 35)
- 5 Aid or age? For us, *aid* / *age* is not important. (⇒sound pair 36)
- 6 What or watch? *What* / *Watch* a game! (⇒sound pair 36)

Now go to Unit 25

6

Meet, met

The vowel sounds /i:/ and /e/

When you say the letters of the alphabet, E has the long vowel sound /i:/. You hear this sound in the word *meet*. But the letter E can also be pronounced as the short vowel sound /e/, as in the word *met*.

A A24a • Listen to the sound /i:/. Look at the mouth diagram to see how to make this long vowel sound.

A24b • Listen to the target sound /i:/ in the words below and compare it with the words on each side.

target /i:/		
met	meat	mate
list	least	last
bay	bee	beer
bit	beat	bet

"Steve keeps the cheese in the freezer."

A24c • Listen and repeat these examples of the target sound.

key keys keeps
pea peas piece
scene seas seat

Important
for listening

When there is an /i:/ sound before the letter R at the end of a word, many speakers add the vowel /ə/ and do not pronounce the /r/. Compare the vowels in these words: *knee* – *near*, *pea* – *peer*, *he* – *hear*. Many dictionaries give this vowel before R as /ɪə/.

B A25a • Listen to the sound /e/. Look at the mouth diagram to see how to make this short vowel sound.

A25b • Listen to the target sound /e/ in the words below and compare it with the words on each side.

target /e/		
man	men	mean
heard	head	had
mate	met	meat
sit	set	sat

"It's best to rest, said the vet to the pet."

A25c • Listen and repeat these examples of the target sound.

rest death red
friend said many
check shelf leg

C Spelling

	frequently	sometimes	notes
/i:/	EE (<i>feet</i>), EA (<i>eat</i>) E-E (<i>scene</i>)	E (<i>me</i>) IE (<i>piece</i>)	Many other vowel sounds are spelt EA, though /i:/ is the most common.
/e/	E (<i>men</i>)	EA (<i>death</i>), IE (<i>friend</i>) A (<i>many</i>), AI (<i>said</i>)	If E is followed by R, the vowel is not /e/, but /ɜ:(r)/ for example in <i>serve</i> . (See Unit 19.)

Exercises

- 6.1 Listen to the letters of the alphabet. If the letter has the sound /i:/, write ee under it. If it has the sound /e/, write e under it. If the letter does not have /i:/ or /e/, don't write anything.

A26

A	B	C	D	E	F	G	H	I	J	K	L	M
		ee	ee									
N	O	P	Q	R	S	T	U	V	W	X	Y	Z

- 6.2 Change the vowel sound from /e/ to /i:/ in these words. Write the new words.

EXAMPLE met meat

- | | |
|---------------|---------------|
| 1 check _____ | 6 sweat _____ |
| 2 red _____ | 7 well _____ |
| 3 bet _____ | 8 set _____ |
| 4 men _____ | 9 fed _____ |
| 5 fell _____ | 10 led _____ |

- 6.3 Find a way from Start to Finish. You may pass a square only if the word in it has the sound /i:/. You can move horizontally (↔) or vertically (↕) only.

START					
leave	earth	health	reach	teach	meat
dream	dead	cream	jeans	steak	cheat
east	bread	tea	death	heat	peak
beach	break	peace	search	leaf	meant
seat	please	team	early	beat	bean
head	bear	wear	dreamt	sweat	clean
FINISH					

- 6.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A27

- | | |
|--|------------------|
| 1 Men or man? Did you see the <i>men / man</i> ? | (⇒sound pair 1) |
| 2 Pen or pain? I've got a <i>pen / pain</i> in my hand. | (⇒sound pair 4) |
| 3 Bear or beer? That's a strong <i>bear / beer</i> . | (⇒sound pair 8) |
| 4 Live or leave? I want to <i>live / leave</i> . | (⇒sound pair 10) |
| 5 Bed or bird? Did you see the <i>bed / bird</i> ? | (⇒sound pair 12) |
| 6 Left or lift? You should take the <i>left / lift</i> . | (⇒sound pair 13) |

Follow up: Record yourself saying the sentences in 6.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 26

7

Carrot, cabbage

Unstressed vowels /ə/ and /ɪ/

A

In words with two or more syllables, at least one syllable is weak (does not have stress).

- Listen to these words which have two syllables, and the second syllable is weak.
carrot cabbage

In weak syllables, native speakers of English very often use the weak vowel sounds /ə/ and /ɪ/.

- Listen again to the two words above: the O in *carrot* is pronounced /ə/ and the A in *cabbage* is pronounced /ɪ/.

B

- Look at the mouth diagram to see how to make the sound /ə/.
- Listen to these examples and repeat them. The weak vowels in the unstressed syllables in bold are pronounced /ə/.

weak A:	away	banana	woman	sugar
weak E:	garden	paper	under	
weak O:	police	doctor	correct	
weak U:	support	figure	colour	

"I ate an apple and a banana in a cinema in Canada."

Important for listening

- In words like *paper*, *sugar*, *colour*, the final R is not pronounced in many accents, so *vista* /'vɪstə/ rhymes with *sister* /'sɪstə/, for example.
- Many speakers of English (especially non-native speakers) do not change vowels in weak syllables to /ə/.

C

- Look at the mouth diagram to see how to make the sound /ɪ/.
- Listen to these examples and repeat them. The weak vowels in the unstressed syllables in black are pronounced /ɪ/.

weak A:	orange	cabbage		
weak E:	dances	wanted	begin	women
weak I:	music	walking		
weak U:	lettuce	minute		

"Alex's lettuces tasted like cabbages."

D

Spelling

Notice in the examples above that nearly any vowel spelling may be pronounced as a weak vowel.

Note: Often, whole words are pronounced as weak syllables, with a weak vowel. For example: half an hour, going to work, Jim was late. See Unit 33.

Exercises

7.1 Listen to the poem. Circle the words which rhyme.

A31

Mr Porter loves his pasta.
No one else can eat it faster.
Mr Porter's sister Rita,
Buys the pasta by the metre.
Mr Porter's older daughter,
Boils it all in tubs of water.

7.2 Listen. In each sentence or phrase there are two vowels which are not /ə/. Circle them.

A32

EXAMPLE an @pple and a ban@na

- 1 from Canada to China
- 2 The parrot was asleep.
- 3 The cinema was open.
- 4 the photographer's assistant
- 5 a question and an answer
- 6 a woman and her husband
- 7 a pasta salad

7.3 Write the words in the correct part of the table. Then listen and check.

A33

orange woman return collect market begin visit asleep
salad teaches needed letter sofa peaches quarter women

vowel in weak syllable = /ə/	vowel in weak syllable = /ɪ/
woman	orange

7.4 Listen and circle the word you hear.

A34

- 1 Woman or women? What time did the *woman* / *women* arrive?
- 2 Dress or address? Where's Kate's *dress* / *address*?
- 3 Manager's or manages? The team *manager's* / *manages* well.
- 4 Teacher's or teaches? The German *teacher's* / *teaches* English.
- 5 Weight's or waiter's? The *weight's* / *waiter's* heavy.
- 6 Dancer's or dances? The woman *dancer's* / *dances* fast.
- 7 Officer's or office's? The *officer's* / *office's* here.
- 8 Away or way? Take that *away* / *way*.
- 9 Driver or drive? What a nice *driver* / *drive*!
- 10 Racer's or races? The *racer's* / *races* finished.

Follow up: Record yourself saying the sentences in 7.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 27

8

Few, view

The consonant sounds /f/ and /v/

A

A35a

- Listen to the two sounds /f/ and /v/. Look at the mouth diagram to see how to make these consonant sounds. Notice that in the sound /f/, there is no voice from the throat, and when you say this sound, you can feel the air on your hand when you put it in front of your mouth. In /v/, there is voice from the throat.

B

A35b

- Now listen to the sound /f/ on its own.

A35c

- Listen to the target sound /f/ in the words below and compare it with the words on each side.

target /f/

view	few	view
leave	leaf	leave
three	free	three
copy	coffee	copy

"Frank found four frogs laughing on the floor."

A35d

- Listen and repeat these examples of the target sound.

photo fly freeze
offer selfish gift
knife stuff laugh

C

A36a

- Listen to the sound /v/ on its own.

A36b

- Listen to the target sound /v/ in the words below and compare it with the words on each side.

target /v/

ferry	very	ferry
best	vest	best
wet	vet	wet
than	van	than

"Vera drove to Venice in a van."

A36c

- Listen and repeat these examples of the target sound.

visa vote voice
river wives loved
wave twelve of

D

Spelling

	frequently	sometimes	notes
/f/	F (<i>fell</i>) FF (<i>offer</i>) PH (<i>photo</i>) GH (<i>laugh</i>)		The vowel is shorter before /f/ than /v/, for example in <i>leaf</i> and <i>leave</i> . If you have difficulty making the difference, exaggerate the length of the vowel in <i>leave</i> .
/v/	V (<i>never</i>)	F (<i>of</i>)	

Exercises

- 8.1 How many /f/ and /v/ sounds are there when you say these numbers? Write the number.

EXAMPLE 55 4

1 512 _____ 2 745 _____ 3 5 _____ 4 11.75 _____ 5 7,474 _____

- 8.2 Complete this conversation using words from the box. Then listen and check.

A37

fan van wife's wives

SID: My wife's left me.

JOE: Your _____ left you? How many _____ did you have, Sid?

SID: One wife. And now she has left me.

JOE: Oh, I see, _____ with an F, not _____ with a V!

SID: That's right! Yes, she took the _____ and drove off.

JOE: What did she want the _____ for?

SID: I said _____, you know, a kind of vehicle.

JOE: Oh, I see: _____ with a V, not _____ with an F!

Follow up: Play the recording again, pausing after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 8.3 Find 12 words beginning or ending with /f/ or /v/. The words are written horizontally (→) or vertically (↓). Note that the last letter is not always F or V. Use all the letters.

D	C	L	A	U	G	H	I
R	O	W	S	A	V	E	F
I	U	I	L	F	I	V	E
V	G	F	I	H	A	V	E
E	H	E	V	G	O	L	F
O	F	F	E	S	A	F	E

- 8.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A38

- 1 Thief's or thieves'? These are the *thief's* / *thieves'* fingerprints. (⇒sound pair 37)
- 2 Few or view? She's painted a *few* / *view*. (⇒sound pair 37)
- 3 Copy or coffee? Do you want a *copy* / *coffee*? (⇒sound pair 30)
- 4 Boat or vote? What are you going to do with your *boat* / *vote*? (⇒sound pair 29)
- 5 Worse or verse? I don't know which is *worse* / *verse*. (⇒sound pair 38)
- 6 Free or three? We got *free* / *three* tickets! (⇒sound pair 39)

Follow up: Record yourself saying the sentences in 8.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 28

9

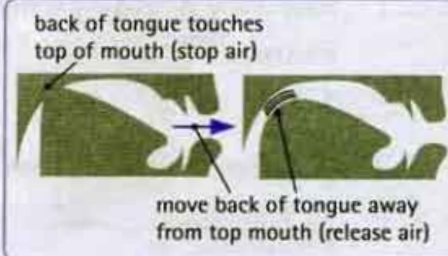

Gate, Kate

The consonant sounds /g/ and /k/

A

A39a

- Listen to the two sounds /g/ and /k/. Look at the mouth diagram to see how to make these sounds. Notice that in the sound /g/, there is voice from the throat. In /k/, there is no voice from the throat. When you say this sound, you can feel the air on your hand when you put it in front of your mouth.

B

A39b

- Now listen to the sound /g/ on its own.

A39c

- Listen to the target sound /g/ in the words below and compare it with the words on each side.

target /g/

Kate	gate	Kate
back	bag	back
wood	good	wood
loch*	log	loch

* This is the Scottish word for lake: the final consonant sound does not exist in English.

"Grandma gave the guests eggs and frog's legs."

A39d

- Listen and repeat these examples of the target sound.

ghost guess green
bigger ago angry
dog egg league

C

A40a

- Listen to the sound /k/ on its own.

A40b

- Listen to the target sound /k/ in the words below and compare it with the words on each side.

target /k/

gap	cap	gap
dogs	docks	dogs
missed	mixed	missed
water	quarter	water

"The king cooked the carrots and the queen cut the cake."

A40c

- Listen and repeat these examples of the target sound.

keep club quick
school soccer taxi
milk comic ache

D

Spelling

	frequently	sometimes	notes	
/g/	G (<i>go</i>) GG (<i>bigger</i>)	GH (<i>ghost</i>) GU (<i>guest</i>)	G can be silent (<i>sign, foreign</i>). The vowel sound is a bit longer before /g/ than before /k/ in pairs like <i>bag</i> and <i>back</i> .	
	beginning	middle	end	notes
/k/	C (<i>can</i>) K (<i>king</i>)	CC (<i>soccer</i>) CK (<i>locker</i>)	K (<i>milk</i>) CK (<i>black</i>) C (<i>comic</i>) CH (<i>ache</i>)	QU spells the sound /kw/, e.g. <i>quick</i> /kwɪk/. X spells the sound /ks/, e.g. (<i>six</i>) /sɪks/. In some words beginning with K, the K is silent, e.g. <i>know, knife</i> .

Exercises

- 9.1 Add the sound /g/ or /k/ to the beginning of these words and write the new words. Remember: think of *sounds*, not spelling. For example, if you add /k/ to the beginning of water /wɔ:tə/, you get quarter /kwɔ:tə/. The sound is similar but the spelling is completely different!

EXAMPLE eight gate

No, make it _____! | 5 Clara saw a friend she knew,
Standing quietly in the _____. |
| 3 Mr Quinn ate so much steak,
He came home with a stomach _____. | |

- 9.3 Complete this conversation using words from the box. Then listen and check.

lock log Loch

A42 SID: Hey, there's the monster!

JOE: That's just a _____.

SID: Yes, it's _____ Ness.

JOE: No, not _____ . I mean _____ ,
you know, from a tree!

SID: I've never seen a tree with a _____ .

JOE: No, not a _____ that you open with a key; a _____ with a G!

Follow up: Play the recording again, pausing it after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 9.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A43

- | | |
|--|------------------|
| 1 Ghost or coast? Did you see the <i>ghost</i> / <i>coast</i> ? | (⇒sound pair 40) |
| 2 Glasses or classes? I don't need <i>glasses</i> / <i>classes</i> . | (⇒sound pair 40) |
| 3 Bag or back? My <i>bag's</i> / <i>back's</i> wet. | (⇒sound pair 40) |
| 4 Goat or coat? She's lost her <i>goat</i> / <i>coat</i> . | (⇒sound pair 40) |

Follow up: Record yourself saying the sentences in 9.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

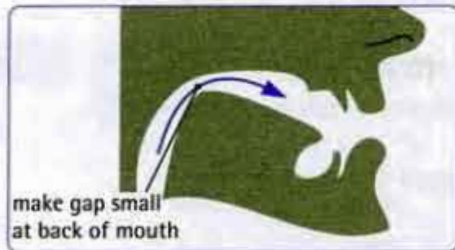

Now go to Unit 29

Hear, we're, year

The sounds /h/, /w/ and /j/

The sounds /h/, /w/ and /j/ only happen before a vowel sound.

- A**
- A44a • Listen to the sound /h/. Look at the mouth diagram to see how to make this sound.
 - A44b • Listen to the target sound /h/ in the words below and compare it with the words on each side.
 - A44c • Then listen and repeat the examples of the target sound.

target /h/

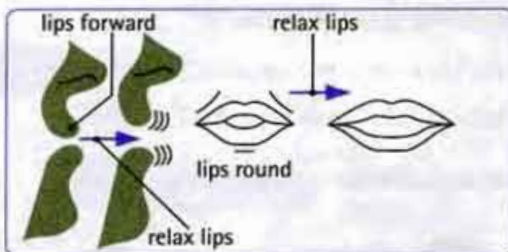

old	hold	old
art	heart	art
force	horse	force
sheet	heat	sheet

Examples
 hair head who
 ahead perhaps behave
 "Harry had a habit of helping hitch-hikers."

Important
for listening

Some speakers, e.g. in London, do not pronounce the H, so *hair* /heə/ sounds the same as *air* /eə/.

- B**
- A45a • Listen to the sound /w/. Look at the mouth diagram to see how to make this sound.
 - A45b • Listen to the target sound /w/ in the words below and compare it with the words on each side.
 - A45c • Then listen and repeat the examples of the target sound.

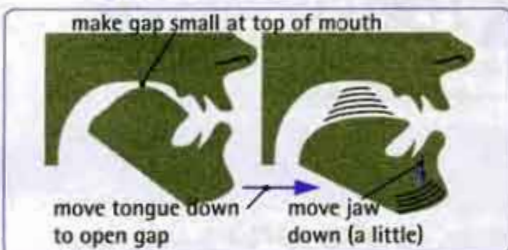

target /w/

vest	west	vest
of air	aware	of air
good	would	good
Gwyn	win	Gwyn

Examples
 wage what one
 language quick square
 "Wendy went away twice a week."

- C**
- A46a • Listen to the sound /j/. Look at the mouth diagram to see how to make this sound.
 - A46b • Listen to the target sound /j/ in the words below and compare it with the words on each side.
 - A46c • Then listen and repeat the examples of the target sound.

target /j/

joke	yolk	joke
jaw	your	jaw
fool	fuel	fool
pleasure	player	pleasure

Examples
 year used euro
 few cure view
 "We didn't use euros in Europe a few years ago."

Important
for listening

In American, the /j/ is dropped from words like *new*, *student*, *tune*, so for example *newspaper* /'nju:spetə/ sounds like *noose paper* /'nu:spetə/.

D Spelling

	frequently	rarely	notes
/h/	H (<i>hill</i>)	WH (<i>who</i>)	H is often silent (<i>hour, honest</i>).
/w/	W (<i>will</i>), WH (<i>when</i>)	O (<i>one, once</i>)	The letters QU usually spell /kw/ (<i>quite</i>).
/j/	Y (<i>you</i>), I (<i>view</i>), E (<i>few</i>), U (<i>cute</i>)		

Exercises

- 10.1** Add one of these sounds to the start of these words to make other words: /h/, /j/, /w/.
Think of *sounds*, not spelling!

EXAMPLE air hair, where

1 earth _____	6 eyes _____	11 I'll _____
2 ear _____	7 all _____	12 eat _____
3 or _____	8 aid _____	13 ache _____
4 in _____	9 ill _____	14 eye _____
5 eight _____	10 art _____	15 old _____

- 10.2** In these groups of words, three of the words begin with the same consonant sound and one of the words begins with a different sound. Circle the one with the different sound. You can use a dictionary.

EXAMPLE hour half home high

1 union used under university	4 year euro uniform untie
2 water whale whole window	5 how honest healthy happy
3 when who where which	6 one write world waste

- 10.3** Each sentence contains four or five examples of one of these sounds: /h/, /w/, /j/.
Write the phonemic letter under the sounds in the sentences.

EXAMPLE A fusion of Cuban and European music. /j/

j j j j

- Your uniform used to be yellow. /j/
- Haley's horse hurried ahead. /h/
- This is a quiz with twenty quick questions. /w/
- We went to work at quarter to twelve. /w/
- New York University student's union. /j/
- The hen hid behind the hen house. /h/
- Which language would you like to work in? /w/

- 10.4** Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A47

- Art or heart? This is the *art* / *heart* of the country. (⇒sound pair 41)
- Hearing or earring? She's lost her *hearing* / *earring*. (⇒sound pair 41)
- West or vest? The *west* / *vest* is very warm. (⇒sound pair 38)
- Aware or of air? They weren't made *aware* / *of air*. (⇒sound pair 38)
- Use or juice? What's the *use* / *juice*? (⇒sound pair 42)
- Heat or sheet? I can't sleep in this *heat* / *sheet*. (⇒sound pair 43)

Follow up: Record yourself saying the sentences in 10.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 30

Wine, win

The vowel sounds /aɪ/ and /ɪ/

When you say the letters of the alphabet, I has the long vowel sound /aɪ/. You hear this sound in the word *wine*. But the letter I is also pronounced as the short vowel sound /ɪ/, as in the word *win*.

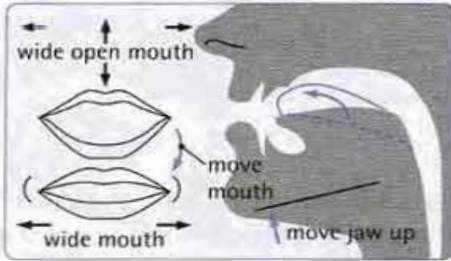

A

A48a

- Listen to the sound /aɪ/. Look at the mouth diagram to see how to make this long vowel sound.

A48b

- Listen to the target sound /aɪ/ in the words below and compare it with the words on each side.

target /aɪ/

mate	might	meet
bay	buy	boy
tip	type	tape
quit	quite	quiet

"Nile crocodiles have the widest smiles."

A48c

- Listen and repeat these examples of the target sound.

why wide wife
buy buys bike
fly flies flight

Important for listening

When the long I is before R or L, many speakers put the vowel /-/ between them. So, for example, *hire* sounds like *higher*. Here are some more examples: *fire tyre child while smile style file wild*.

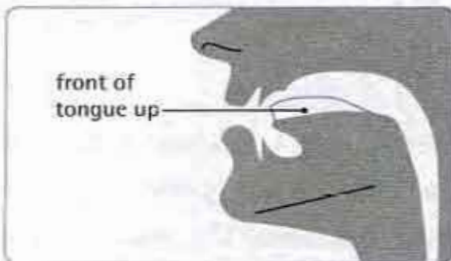

B

A49a

- Listen to the sound /ɪ/. Look at the mouth diagram to see how to make this short vowel sound.

A49b

- Listen to the target sound /ɪ/ in the words below and compare it with the words on each side.

target /ɪ/

peak	pick	pack
wheel	will	while
set	sit	sat
feet	fit	fat

"Tim bit a bit of Kitty's biscuit."

A49c

- Listen and repeat these examples of the target sound.

king kid kit
pink pig pick
fill fish fit

C

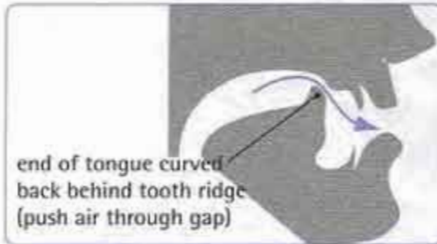

Spelling

	frequently	sometimes	notes
/aɪ/	I-E (<i>smile</i>), IE (<i>die</i>) Y (<i>cry</i>)	IGH (<i>high</i>), UY (<i>buy</i>)	These spellings are <i>not always</i> pronounced /aɪ/ (<i>fridge, city, friend</i>).
/ɪ/	I (<i>win</i>)	Y (<i>gym</i>)	The sound /ɪ/ is also a weak vowel (see Unit 7), and can have various spellings in an unstressed syllable (<i>needed, cities, village</i>). If there is an R after the letter I (and the R does not have a vowel after it), I has a different pronunciation. (See Unit 19.)

Sheep, jeep, cheap

The consonant sounds /ʃ/, /dʒ/ and /tʃ/

- A** A52a • Listen to the sound /ʃ/. Look at the mouth diagram to see how to make this consonant sound. Notice that there is no voice from the throat, and you can feel the air on your hand when you put it in front of your mouth. If you add voice from the throat, you get the sound /ʒ/, as in *television*, but this sound is not common in English.
- A52b • Listen to the target sound /ʃ/ in the words below and compare it with the words on each side.
- A52c • Then listen and repeat the examples.

target /ʃ/

sort	short	sort
suit	shoot	suit
catch	cash	catch
choose	shoes	choose

Examples

should shirt sugar
fashion nation ocean
wish push English

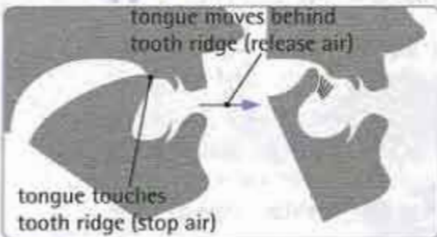

"Sharon shouldn't wash her shoes in the shower!"

- B** A53a • Listen to the sounds /dʒ/ and /tʃ/. Look at the mouth diagram in C below to see how to make these consonant sounds. With /tʃ/ there is no voice from the throat, with /dʒ/ there is. Notice that you can make the sound /ʃ/ into a continuous sound, but you cannot do this with /tʃ/ and /dʒ/.

- C** A53b • Now listen to the sound /dʒ/ on its own.

- A53c • Listen to the target sound /dʒ/ in the words below and compare it with the words on each side.

- A53d • Then listen and repeat the examples.

target /dʒ/

cheap	jeep	cheap
tune	June	tune
use	juice	use
draw	jaw	draw

Examples

job general June
danger agenda object
edge age village

"Ginger spilt orange juice on George's jacket."

- D** A54a • Listen to the sound /tʃ/ on its own.

- A54b • Listen to the target sound /tʃ/ in the words below and compare it with the words on each side.

- A54c • Then listen and repeat the examples.

target /tʃ/

jeep	cheap	jeep
share	chair	share
trips	chips	trips
what's	watch	what's

Examples

chair cheese chicken

rich which March

"Which child put chalk on the teacher's chair?"

E

Spelling

	beginning	middle	end
/ʃ/	SH (<i>shoe</i>), S (<i>sugar</i>)	SH (<i>fashion</i>), SS (<i>Russia</i>) TI (<i>nation</i>), C (<i>ocean</i>)	SH (<i>finish</i>)
/dʒ/	J (<i>jaw</i>), G (<i>general</i>)	G (<i>page</i>), J (<i>major</i>)	GE (<i>rage</i>), DGE (<i>ledge</i>)
/tʃ/	CH (<i>chair</i>)	CH (<i>teacher</i>), T (<i>future</i>)	TCH (<i>watch</i>)

Exercises

- 12.1 Write these nationality words in the correct column.
Belgian Welsh Dutch Russian Chinese German Japanese Polish French Chilean Turkish

contains /dʒ/	contains /ʃ/	contains /tʃ/
Belgian		

- 12.2 Complete this conversation using words from the box. Then listen and check.

- A55
SID: It's fish and _____ for lunch, Joe!
JOE: _____!? I can't eat _____, they're too big!
SID: I said _____, you know, fried potatoes!
JOE: Oh, I see, _____ with a CH, not _____ with an SH.
SID: That's right. You're a genius, Joe!
JOE: Was the fish expensive, Sid?
SID: No, it was _____.
JOE: _____!? You bought a _____?
SID: No, _____, the opposite of expensive.
JOE: Oh, I see, _____ with a CH, not _____ with a J!

Follow up: Play the recording again, pausing it after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 12.3 If a word ends with a /dʒ/ or a /tʃ/, and the next word begins with the same sound, you say the sound twice. If you say *Dutch cheese* with only one /tʃ/, it sounds like *Dutch ease*. The speaker made this mistake in these sentences. Write what they meant to say.

EXAMPLE Does she tea Chinese in the school? teach Chinese

- I don't know which air to sit on. _____
- Everyone at the match ears when their team scores. _____
- I never what chat shows on the TV. _____
- The actor on stay joked with the audience. _____
- Foxes sometimes come to the farm and cat chickens. _____
- Do you want to chain jackets before we go out? _____

A56
Follow up: You will hear both the incorrect and correct pairs of words from the exercise. Repeat, making the difference clear.

- 12.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

- A57
- Watch or wash? You'll have to *watch / wash* the baby. (⇒sound pair 44)
 - Riches or ridges? You'll find *riches / ridges* like you've never seen! (⇒sound pair 45)
 - Save or shave? He didn't *save / shave* at all last year. (⇒sound pair 32)
 - Use or juice? What's the *use / juice*? (⇒sound pair 42)
 - What's or watch? *What's / Watch* the time! / ? (⇒sound pair 46)
 - Trees or cheese? I saw something in the *trees / cheese*! (⇒sound pair 47)

Now go to Unit 32

Flies, fries

The consonant sounds /l/ and /r/

- A**
- A58a • Listen to the sound /l/. Look at the mouth diagram to see how to make this sound. Notice that you can make it into a long continuous sound, and there is voice from the throat.
 - A58b • Listen to the target sound /l/ in the words below and compare it with the words on each side.

target /l/

fries	flies	fries
rent	lent	rent
correct	collect	correct
code	cold	code

"Clara's really clever but Lilly's a little silly."

- A58c • Listen and repeat these examples of the target sound.
leave litre life
slow caller help
fill final whistle

- B**
- A59a • Listen to the sound /r/. Look at the mouth diagram to see how to make this sound. Notice that you can make it into a long continuous sound, and there is voice from the throat. But when you finish the sound, the jaw opens a little and the tongue goes straight again.
 - A59b • Listen to the target sound /r/ in the words below and compare it with the words on each side.

target /r/

late	rate	late
play	pray	play
chain	train	chain
jaw	draw	jaw

"The rabbits raced right around the ring."

- A59c • Listen and repeat these examples of the target sound.
right wrote rhyme
carrot sorry dress
far away war and peace

Important for listening

In South East English and many other accents, you only pronounce /r/ if there is a vowel sound after it. So for example, in far /fɑː/ and car /kɑː/, you do not hear it, but in far away /fɑːəweɪ/ and car engine /kɑːrɛndʒɪn/, you pronounce it because it is followed by a vowel sound. In other accents, including American, the /r/ is pronounced.

! Note: The sound /r/ affects the vowel sound before it: see Units 14 and 19.

C Spelling

	frequently	sometimes	notes
/l/	L (leg), LL (call)		L can be silent (half, calm, talk, could).
/r/	R (run), RR (carrot)	WR (wrong), RH (rhyme)	

Exercises

- 13.1 Add the sound /l/ or /r/ to the beginning of these words and write the new words. Remember: think of *sounds*, not spelling. For example, if you add /l/ to the beginning of *ache* /eɪk/, you get *lake* /leɪk/. The sound is similar but the spelling is completely different. There may be more than one possibility. Then say the pairs of words.

EXAMPLE *ache* lake (or rake) 3 *air* _____ 6 *eye* _____
 1 *eight* _____ 4 *earn* _____ 7 *egg* _____
 2 *owes* _____ 5 *end* _____ 8 *each* _____

- 13.2 Think of a computer which people speak into and it writes what they say. Here, the person speaking didn't make the difference clear between R and L. The underlined words are wrong. Correct them.

late *arrive*

I worked rate that day and I didn't alrve home until 10 o'clock. I was very wet because of the lane. Then, to my supplies, my key didn't fit in the rock. So I looked closely at my keys and saw that they were the long ones. I had left my house keys at work. So I got back on my motorbike and load back to the office to correct them. I got home really tired, so I went to bed, led for half an hour, switched off the right and went to sleep.

A60

Follow up: Listen to the correct text. Then read it out yourself, making sure that you pronounce the corrected words clearly. Record yourself if you can.

- 13.3 Circle the word in which the letters L or R are silent. (Imagine the accent is from South East England, so the R is silent if there is no vowel sound after it.)

EXAMPLE cold calm collect film

1 court correct curry dairy 4 shoulder should sailor slow
 2 follow fold folk file 5 artist arrow arrive around
 3 hurry hairy hungry hair

- 13.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A61

1 Surprise or supplies? The *surprise* / *supplies* came later. (⇒sound pair 50)
 2 Collect or correct? I'll *correct* / *collect* it tomorrow. (⇒sound pair 50)
 3 Flight or fright? We had a great *flight* / *fright*. (⇒sound pair 50)
 4 Trees or cheese? I saw something in the *trees* / *cheese*! (⇒sound pair 47)
 5 Jaw or drawer? She broke her lower *jaw* / *drawer*. (⇒sound pair 47)

Follow up: Record yourself saying the sentences in 13.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 33

Car, care

The vowel sounds /ɑ:(r)/ and /eə(r)/

In many accents in England, the letter R is not pronounced after a vowel. In other places, the R is pronounced, for example in most parts of North America. But in both cases, the letter R makes the vowel before it sound different. If the vowel is A, we usually get the vowel sounds in *car* /ɑ:/ or *care* /eə/.

- A**
- A62a • Listen to the sound /ɑ:/. Look at the mouth diagram to see how to make this long vowel sound.
 - A62b • Listen to the target sound /ɑ:/ in the words below and compare it with the words on each side.
 - A62c • Then listen and repeat the examples of the target sound.

target /ɑ:/		
fur	far	four
bore	bar	bear
hurt	heart	hate
much	march	match

Examples

calm card cart
star starve start
harm halve half

"It's hard to park a car in a dark car park."

! Note: Sometimes we get the sound /ɑ:/ before L too.

A63

Important
for listening

- Listen to the sound with R pronounced, as in North America:
far bar heart march card star start charm chart
- In South East England, the letter A followed by S, F, TH, N is often pronounced /ɑ:/:
ask fast after path bath dance aunt
- In North America, the single letter O is pronounced /ɑ:/: *God, strong, lock, top.* (See Unit 16.)

- B**
- A64a • Listen to the sound /eə/. Look at the mouth diagram to see how to make this sound.
 - A64b • Listen to the target sound /eə/ in the words below and compare it with the words on each side.
 - A64c • Then listen and repeat the examples of the target sound.

target /eə/		
bar	bear	beer
shy	share	sure
dead	dared	died
stars	stairs	stays

Examples

square squares
where where's
fair fairly

"Sarah and Mary share their pears fairly."

A65

Important
for listening

Different accents: Listen to the sound with the R pronounced, as in North America:
bear share dared stairs square where cared fairly

C Spelling

	frequently	sometimes
/ɑ:/	AR (<i>car</i>) AL (<i>half</i>)	EAR, (<i>heart</i>) A (<i>ask, path, aunt</i>): South East English accent
/eə/	ARE (<i>care</i>), AIR (<i>fair</i>) EAR (<i>bear</i>), ERE (<i>where</i>)	

Exercises

- 14.1 Make words with these beginnings and endings and write them in the correct part of the table.

beginnings ba fa ra da sta squa ca ha cha	
endings r re lf ir rd rt lm	
words with the vowel /ɑː/	words with the vowel /eə/

Then listen and check.

SID: This is a great life, with no worries or cares !

JOE: It would be nice if we had _____ though, Sid.

SID: I didn't say _____, I said _____!

JOE: Oh, I see. Not _____, as in traffic, but _____

SID: That's right. I've always loved sleeping under the _____.

JOE: But why? There's hardly any space under the _____!

SID: No, not _____, _____! You know, little lights in the sky.

JOE: Oh, _____! I thought you said _____, that people walk up!

Follow up: Play the recording again, pausing the recording after each of Sid's lines. You say Joe's lines before listening to him saying them.

- 14.3 Listen to these sentences. Is the accent from North America (they pronounce the R after the vowel) or South East England? Write *Am* or *Eng*.

A67

EXAMPLE He asked her to dance. Eng

| 1 Heart or hat? She put her hand on her <i>heart</i> / <i>hat</i> . | (⇒sound pair 3) |
| 2 Nowhere or no way? There's <i>nowhere</i> / <i>no way</i> to go. | (⇒sound pair 5) |
| 3 Fair or far? It isn't <i>fair</i> / <i>far</i> . | (⇒sound pair 6) |
| 4 Part or port? This is the main <i>part</i> / <i>port</i> of Athens. | (⇒sound pair 7) |
| 5 Bear or beer? That's a strong <i>bear</i> / <i>beer</i> . | (⇒sound pair 8) |
| 6 Come or calm? She told me to <i>come</i> / <i>calm</i> down. | (⇒sound pair 9) |

Now go to Unit 34

Some, sun, sung

The consonant sounds /m/, /n/ and /ŋ/

The consonant sounds /m/, /n/ and /ŋ/ are made by stopping the flow of air out of the mouth so that it goes through the nose instead. The three sounds are different because the air is stopped by different parts of the mouth. You can feel this when you say the words *some, sun, sung*.

- A**  • Listen to the sound /m/. Look at the mouth diagram to see how to make this sound.

 **Note:** Always close your lips for /m/, even at the end of a word when the next word begins with /k/ or /g/, for example: cream cake; warm glow.

-  • Listen to the target sound /m/ in the words below and compare it with the words on each side.

-  • Then listen and repeat the examples of the target sound.

target /m/		
nice	mice	nice
sun	some	sun
swing	swim	swing
hang	ham	hang

Examples

miss more make
smoke jump harmed
comb autumn film

"Mum made me move my models."

- B**  • Listen to the sound /n/. Look at the mouth diagram to see how to make this sound.

-  • Listen to the target sound /n/ in the words below and compare it with the words on each side.

-  • Then listen and repeat the examples of the target sound.

target /n/		
might	night	might
warm	warn	warm
wing	win	wing
rang	ran	rang

Examples

now new know
snow dinner against
gone open listen

"There was no one on the moon on the ninth of June."

- C**  • Listen to the sound /ŋ/. Look at the mouth diagram to see how to make this sound.

 **Note:** Open your mouth but breathe through your nose. If you do this you will find that the air is stopped at the back of the mouth. This is where you stop the air to make the sound /ŋ/.

-  • Listen to the target sound /ŋ/ in the words below and compare it with the words on each side.

-  • Then listen and repeat the examples of the target sound.

target /ŋ/		
some	sung	some
Kim	king	Kim
thin	thing	thin

Examples

sing singer sink
bang bank banks
thing think finger

"Young King Kong was stronger than strong."

- D** Notes on spelling: There may be a silent B or N after /m/ (*comb, autumn*). There may be a silent K before /n/ (*knife*). /n/ changes to /ŋ/ when the next sound after it is /k/ or /g/; the N in *thin* is /n/, but the N in *think* is /ŋ/.

Exercises

- 15.1 Read this conversation. It contains 19 examples of the sound /m/. How many examples of the sounds /n/ and /ŋ/ does it contain? Write your answers. Then listen and check.

A72

I met a man near the monument this morning. He was a singer and he sang a song for me. I'll always remember that magic moment. Like something out of a dream!

What, is that the moment, the monument or the man you meant?

- 15.2 Find a way from Start to Finish. You may pass a square only if the word in it has the sound /ŋ/. You can move horizontally (↔) or vertically (↑↓) only.

START					
sing	think	thick	strong	wrong	rung
sign	uncle	unless	drug	strange	comb
thanks	angry	signal	drank	English	finger
anxious	angel	single	monkey	money	young

JOE: No, it isn't I always feel cold in this coat.

SID: No, not! I said, with an N!

JOE: Oh, with an N!

SID: Yes, the cloth is

JOE: What do you mean "the cloth is"?

SID: No, with an N at the end, not with a G at the end!

- 15.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A74

- 1 Robin or robbing? My friend likes *Robin Banks* / *robbing banks*. (⇒sound pair 48)
- 2 Ran or rang? Tom *ran* / *rang* yesterday. (⇒sound pair 48)
- 3 Swing or swim? She had a *swing* / *swim* in the garden. (⇒sound pair 49)
- 4 Warned or warmed? The *son warned* / *sun warmed* me. (⇒sound pair 49)
- 5 Singing or sinking? The people were *singing* / *sinking* fast. (⇒sound pair 48)

Follow up: Record yourself saying the sentences in 15.4, choosing one of the two words or expressions. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

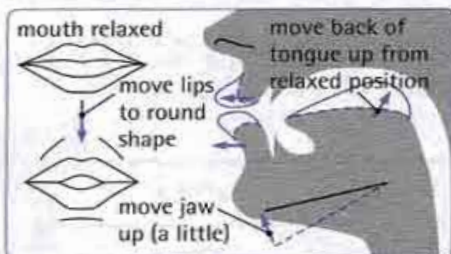

Now go to Unit 35

Note, not

The vowel sounds /əʊ/ and /ɒ/

When you say the letters of the alphabet, O has the long vowel sound /əʊ/. You hear this sound in the word *note*. But the letter O is also pronounced as the short vowel sound /ɒ/, as in the word *not*.

- A**
- A75a • Listen to the sound /əʊ/. Look at the mouth diagram to see how to make this long vowel sound.
- A75b • Listen to the target sound /əʊ/ in the words below and compare it with the words on each side.

target /əʊ/

"Rose knows Joe phones Sophie, but Sophie and Joe don't know Rose knows."

- B**
- A76a • Listen to the sound /ɒ/. Look at the mouth diagram to see how to make this short vowel sound.
- A76b • Listen to the target sound /ɒ/ in the words below and compare it with the words on each side.

target /ɒ/

get	got	goat
fund	fond	phoned

- A76c • Listen and repeat these examples of the target sound.

wrong rob rock
gone God got
doll dog dock

"John wants to watch Walter wash the dog."

Important
for listening

In North America, the sound /ɒ/ is replaced by /ɑ:/. For this reason, the following words may sound similar if an English speaker says the first word and an American speaker says the second word:
part – pot, heart – hot, shark – shock, barks – box.

C Spelling

	frequently	sometimes	notes
/əʊ/	O (<i>old</i>), O-E (<i>stone</i>) OW (<i>show</i>), OA (<i>coat</i>) OE (<i>toe</i>)		If there is an R after the letter O (and the R does not have a vowel after it), O has a different pronunciation. (See Unit 19.)
/ɒ/	O (<i>dog</i>)	A (<i>wash</i>)

A78

EXAMPLE The coffee's hot. A-B

- 1 The lock's at the top. _____
- 2 The song's long. _____
- 3 Stop the clock. _____
- 4 The dog's gone. _____
- 5 He's often wrong. _____

- 16.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A79

- 1 Cost or coast? What's the *cost* / *coast* like? (⇒sound pair 14)
- 2 Shot or shut? They *shot* / *shut* the door. (⇒sound pair 15)
- 3 Boat or boot? There's water in my *boat* / *boot*. (⇒sound pair 16)
- 4 Woke or walk? I *woke* / *walk* the dog. (⇒sound pair 17)
- 5 Phoned or found? Tim *phoned* / *found* her. (⇒sound pair 18)

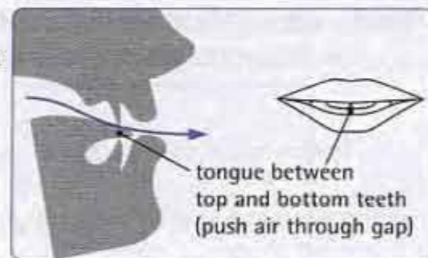

Follow up: Record yourself saying the sentences in 16.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 36

Arthur's mother

The consonant sounds /θ/ and /ð/

- A** **A80a** • Listen to the two sounds /θ/ and /ð/. Notice that in /θ/, there is no voice from the throat. Instead, you can feel the air from your mouth on your hand. In the sound /ð/ there is voice from the throat. It is possible to make both sounds long. Look at the mouth diagram to see how to make these consonant sounds.

- B** **A80b** • Now listen to the sound /θ/ on its own.
A80c • Listen to the target sound /θ/ in the words below and compare it with the words on each side.

target /θ/

sick	thick	sick
boat	both	boat
free	three	free

- A80d** • Listen and repeat these examples of the target sound.
 thank think thought

Important for listening

- Many native speakers of English pronounce TH as /t/, /t/ or /s/ instead of /θ/, and /d/, /v/ or /z/ instead of /ð/. For example, some Irish speakers pronounce *thick* /θɪk/ as *tick* /tɪk/.
- Some London speakers pronounce *three* /θri:/ as *free* /fri:/. Some Nigerian speakers pronounce *then* /ðen/ as *den* /den/.

- 6 These are or visa? *These are* / *Visa* problems we can deal with later. (⇒sound pair 39)

Follow up: Record yourself saying the sentences in 17.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

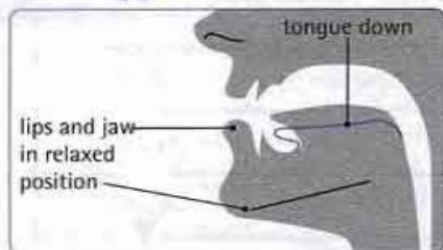

Now go to Unit 37

Sun, full, June

The vowel sounds /ʌ/, /ʊ/ and /u:/

When you say the letters of the alphabet, U has the long vowel sound /u:/ (we say it with the consonant /j/ in front of it). You hear the /u:/ sound in the word *June*. But the letter U is also pronounced as the short vowel sounds /ʌ/ or /ʊ/, as in the words *sun* and *full*.

- A** A84a • Listen to the sound /ʌ/. Look at the mouth diagram to see how to make this short vowel sound.
 A84b • Listen to the target sound /ʌ/ in the words below and compare it with the words on each side.
 A84c • Then listen and repeat the examples of the target sound.

target /ʌ/

shoot	shut	shirt
match	much	March
look	luck	lock

Examples

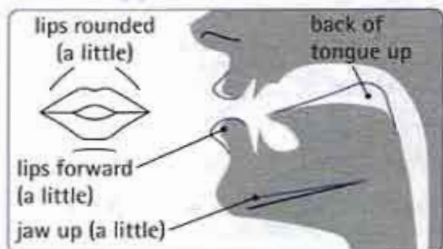

come blood cut
 young does must

"My mother's brother's my uncle;
 my uncle's son's my cousin."

Important
 for listening

In the North of England, speakers may use /ʊ/ in place of /ʌ/, so *luck* /lʌk/ sounds like *look* /lʊk/.

- B** A85a • Listen to the sound /ʊ/. Look at the mouth diagram to see how to make this short vowel sound.
 A85b • Listen to the target sound /ʊ/ in the words below and compare it with the words on each side.
 A85c • Then listen and repeat the examples of the target sound.

target /ʊ/

- C** A86a • Listen to the sound /u:/. Look at the mouth diagram to see how to make this long vowel sound.
 A86b • Listen to the target sound /u:/ in the words below and compare it with the words on each side.
 A86c • Then listen and repeat the examples of the target sound.

target /u:/

full	fool	fall
road	rude	rod
but	boot	boat

Examples

shoe shoes shoot
 new lose soup

"Sue knew too few new tunes on the flute."

Important
 for listening

Many words which have /j/ before /u:/ in British English don't in American English. Compare: *news* /nju:z/ - *news* /nu:z/, *tune* /tju:n/ - *tune* /tu:n/.

- D** Notes on spelling: If there is an R after the letter U (and the R does not have a vowel after it), U has a different pronunciation. (See Unit 19.)

Exercises

- 18.1 Listen to this student. Do the underlined words have an /ʌ/ or /u:/ sound? Write them in the correct part of the table.

A87

I studied English at a school in London last summer. I was there for two months: May and June. England is famous for bad food and weather, but I thought the food was good. The pub lunches were very nice. But it's true about the weather. Too much rain for me!

EXAMPLE

Two things you can put /ʊ/ on a foot are a shoe and a boot /u:/.

- The _____ /ʌ/ after _____ /u:/ is July.
- My mother's other _____ /ʌ/ is my _____ /ʌ/.
- Brazil _____ /ʌ/ the World _____ /ʌ/ in 2002.
- Fruit _____ /u:/ is _____ /ʊ/ for you.
- There is a _____ /ʊ/ _____ /u:/ once a month.
- You pronounce _____ /ʊ/ exactly the same as _____ /ʊ/.

- 18.3 Circle the word with the different vowel sound. You can use a dictionary if you are not sure.

EXAMPLE foot look blood push 4 pull full put rule
1 soon book boot room 5 group could would should
2 rude luck run but 6 done move love son
3 shoes does true blue 7 south young couple won

- 18.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

Shirt, short

The vowel sounds /ɜ:(r)/ and /ɔ:(r)/

A

In many accents in England, the letter R is not pronounced after a vowel. In other places, the R is pronounced, for example in North America. But in both cases, the letter R changes the vowel sound before it. If the vowel letter is E, I, O or U, we often get the vowel sounds in *shirt* or *short*.

born	burn	bone
hard	heard	head

"The girl heard the nurse work."

A90c

• Listen and repeat these examples of the target language.

were word worst
burn bird birth
her heard hurt

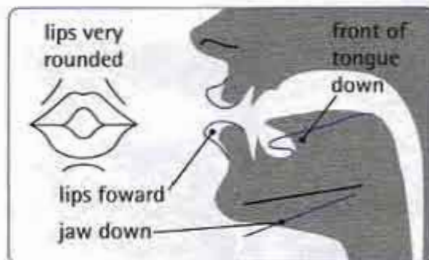

C

A91a

• Listen to the sound /ɔ:/. Look at the mouth diagram to see how to make this long vowel sound.

A91b

• Listen to the target sound /ɔ:/. in the words below and compare it with the words on each side.

target /ɔ:/		
shot	short	shirt
work	walk	woke
far	four	fair
boil	ball	bowl

"Laura's daughter bought a horse and called it Laura."

A91c

• Listen and repeat the examples of the target sound.

bore bored bought
call cause caught
war wall walk

A92

Important for listening

- Listen to the following words with the R pronounced, as in North America: *shirt were heard worst birth hurt born short door four war more*
- In words without R, some American speakers pronounce the sound /ɑ:/ instead of /ɔ:/. Listen: *ball caught law talk bought*.

D

Spelling

	I / E / O / U + R	other spellings
/ɜ:/:	IR (<i>girl</i>), ER (<i>her</i>), UR (<i>hurt</i>)	OR (<i>word</i>), EAR (<i>heard</i>)
/ɔ:/:	OR (<i>form</i>)	A (<i>call</i>), AR (<i>war</i>), AU (<i>cause</i>), AW (<i>saw</i>), AL (<i>walk</i>), AUGH (<i>taught</i>), OUGH (<i>thought</i>), OUR (<i>four</i>)

Exercises

19.1 Write these numbers out in full. Which of the two vowel sounds do they contain? Write /ɜ:/ or /ɔ:/.

EXAMPLE 3rd third /ɜ:/

1 $\frac{1}{4}$ _____

4 1st _____

2 30 _____

5 14 _____

3 4th _____

19.2 Find 14 words in the puzzle (every letter is used once) and write them in the correct part of the table. The words are written horizontally (→) or vertically (↓).

8 I learned to surf in Brazil. _____

4 I walk to work. _____

9 'Caught' and 'court' sound the

5 I saw the bird fall. _____

same in my accent. _____

19.4 Listen and circle the word you hear. If you find any of these difficult, go to Section D4 *Sound pairs* for further practice.

A94

1 Four or far? It isn't *four* / *far*.

(⇒ sound pair 7)

2 Worst or west? It's on the *worst* / *west* coast.

(⇒ sound pair 12)

3 Walk or woke? I *walk* / *woke* the dog.

(⇒ sound pair 17)

4 Shut or shirt? The butcher's *shut* / *shirt*.

(⇒ sound pair 21)

5 Port or pot? There's coffee in the *port* / *pot*.

(⇒ sound pair 23)

6 Bird or beard? He has a black *bird* / *beard*.

(⇒ sound pair 24)

7 Her or hair? Is that *her* / *hair*?

(⇒ sound pair 25)

8 Worked or walked? We *worked* / *walked* all day.

(⇒ sound pair 26)

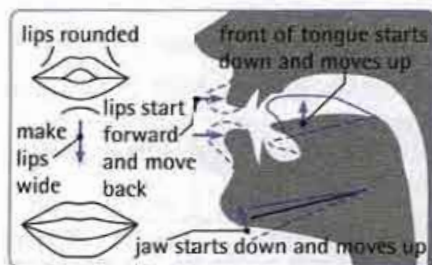

Follow up: Record yourself saying the sentences in 19.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 39

Toy, town

The vowel sounds /ɔɪ/ and /aʊ/

- A**
- A95a • Listen to the sound /ɔɪ/. Look at the mouth diagram to see how to make this long vowel sound.
 - A95b • Listen to the target sound /ɔɪ/ in the words below and compare it with the words on each side.

target /ɔɪ/

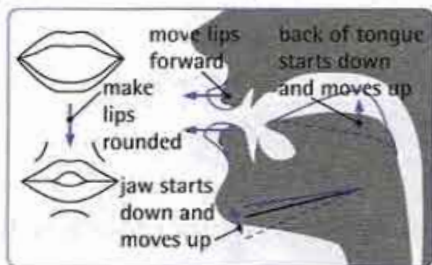

buy	boy	bay
pint	point	paint
all	oil	I'll

"Roy enjoys noisy toys."

- A95c • Listen and repeat these examples of the target sound.
toy noise voice
boil coin choice
employ enjoyed

- B**
- A96a • Listen to the sound /aʊ/. Look at the mouth diagram to see how to make this long vowel sound.
 - A96b • Listen to the target sound /aʊ/ in the words below and compare it with the words on each side.

target /aʊ/

fond	found	phoned
know	now	new
car	cow	care

"Mrs Brown counted cows coming down the mountain."

- A96c • Listen and repeat these examples of the target sound.
how houses house
now sound south
town ground count

Important for listening

- When the vowel sound /ɔɪ/ is before L, e.g. *oil*, *boil*, *soil*, many speakers put the vowel /ə/ between them. You may find it easier to say it this way.
- When the vowel sound /aʊ/ is before R or L, many speakers put the vowel /ə/ between them, so *hour* rhymes with *shower*, and *foul* rhymes with *towel*.
- Listen to these words with the R pronounced, as in North America:
hour, *power*, *shower*, *flour*, *flower*, *tower*

C

Spelling

	frequently	notes
/ɔɪ/	OY (<i>boy</i>), OI (<i>coin</i>)	
/aʊ/	OW (<i>cow</i>), OU (<i>loud</i>)	Various different vowel sounds are spelt OW or OU.

Exercises

- 20.1 Put one of the letters *y, i, u* or *w* in each gap to make a word. The word must contain the sound /ɔɪ/ or /aʊ/. Write /ɔɪ/ or /aʊ/ after each word.

EXAMPLE to_n town /aʊ/.

1 bo_s _____

4 po_nt _____

7 ho_r _____

2 no_se _____

5 ho_ _____

8 flo_er _____

3 fo_nd _____

6 bo_l _____

9 enjo_ _____

- 20.2 Listen to this text. Find words from it which have an /ɔɪ/ or /aʊ/ sound and write them in the correct part of the table.

I enjoy living down town. Well, it's very noisy, of course. The traffic is loud, and the young people often shout when they come out of the clubs. But there are lots of good points too. There's a big choice of shops, and it's easy to get around.

/ɔɪ/ (4 words)	/aʊ/ (6 words)
enjoy	

Follow up: Listen again and repeat, sentence by sentence.

- 20.3 Find a way from Start to Finish. You may pass a square only if the word in it has the sound /aʊ/. You can move horizontally (↔) or vertically (↕) only.

START					
house	sound	group	about	mouth	cow
soup	out	brown	mouse	bought	south
could	couple	grow	low	would	cloud
know	snow	touch	ought	down	count
thought	should	slow	blow	pound	young
soul	country	though	throw	town	round
FINISH					

- 20.4 Listen and circle the words you hear.

- 1 Tie or toy? He got a *tie* / *toy* for his birthday.
 2 Goodbye or Good boy? 'Goodbye!' / 'Good boy!' she said.
 3 Phoned or found? She *phoned* / *found* a friend.
 4 Tone or town? What an ugly *tone* / *town*!

Follow up: Record yourself saying the sentences in 20.4, choosing one of the two words. Make a note of which words you say. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 40

Eye, my, mine

Introducing syllables

A

We can divide a word into one or more syllables. For example *mum* has one syllable, *mother* has two syllables and *grandmother* has three syllables. A syllable is a group of one or more sounds. The essential part of a syllable is a vowel sound (V). Some syllables are just one vowel sound. For example, these words have one syllable, and the syllable is just one vowel sound: eye /aɪ/, owe /əʊ/.

A syllable can have consonant sounds (C) before the V, after the V or before *and* after the V. Here are some more examples (they are all words of one syllable).

CV	VC	CVC
go /gəʊ/ my /maɪ/ know /nəʊ/ weigh /weɪ/	if /ɪf/ egg /eg/ ice /aɪs/ eight /eɪt/	ten /ten/ nose /nəʊz/ mouth /maʊθ/ knife /naɪf/

Note: There may be *more* than one C before or after the V. (See Units 24, 25.)

B

Remember that letters are *not* the same as sounds. For example, the consonant *letters* W and Y are not consonant *sounds* if they come after the vowel sound in the syllable e.g. *saw*, *say*. They are part of the vowel sound. In some accents, for example South East English, the same is true for the consonant letter R. Here are some more examples. They are words of one syllable and they all have the pattern CV.

how /haʊ/ law /lɔː/ pay /peɪ/ why /waɪ/ car /kɑː/ hair /heə/

C

Some people use the word *syllable* to talk about the parts of a written word. But in this book, the word *syllable* is used to talk about the *pronunciation* of words, not the writing. For example, in writing we can divide 'chocolate' into three parts like this: cho-co-late. But when we say the word, we pronounce only two syllables, like this: chocolate /tʃɒk.lət/. (The dot shows where the two syllables are divided.) A number of other words may be pronounced with fewer syllables than in writing. Listen to these examples.

chocolate /tʃɒk.lət/ different /dɪf.rənt/ interesting /ɪn.trəs.tɪŋ/
general /dʒen.rəl/ comfortable /kʌmf.tə.bəl/ secretary /sek.rə.tɪri/

D

The first syllable in these words has the same three sounds, but in the opposite order: kitchen /'kɪtʃ.ɪn/ – chicken /tʃɪk.ɪn/.

If a sentence has similar-sounding syllables like this in it, it may be difficult to say. These sentences are called 'tongue-twisters'. Listen to this example.

Richard checked the chicken in the kitchen.

Note: You can find more about syllables in Units 24 to 27.

Exercises

21.1 Write these words in the correct column.

ant	cook	dad	doctor	grandfather	officer
passenger	sister	teacher	uncle		

1 syllable	2 syllables	3 syllables
<i>ant</i>		

21.2 Look at these one-syllable words. Write C where there is a consonant sound. There may be one before V, after V or in both places.

EXAMPLES high C V

rice C V C

1 bought V

2 eyes V

3 key V

4 day V

5 through V

6 laugh V

7 two V

8 youth V

9 weigh V

10 rhyme V

21.3 The spelling changes if you change the order of sounds in these one-syllable words from CV to VC. Write the missing words.

EXAMPLE CV /lɔ:/ = law

VC /ɔ:l/ = all

1 /deɪ/ = _____

/eɪd/ = aid

2 /nəʊ/ = _____

/əʊn/ = own

3 /peɪ/ = _____

/eɪp/ = ape

4 /ti:/ = tea

/i:t/ = _____

5 /meɪ/ = may

/eɪm/ = _____

6 /seɪ/ = _____

/eɪs/ = ace

21.4  Read the text aloud. Record your voice if you can. Then listen to the recording. Did you say the same number of syllables in the underlined words as on the recording?

I went to an interesting restaurant on Wednesday. First I had chicken with a lot of different vegetables. Then I had a piece of chocolate cake. In general, I don't like chocolate, but the cake was lovely.

21.5  Listen to these tongue-twisters. How many syllables are there in each? Write the number. Then listen again and repeat.

EXAMPLE She sells sea shells on the sea shore. = 8 syllables

1 Walter walked towards the waiter. = _____

2 Betty bought a better bit of butter. = _____

3 The fat cat sat on the vet's wet hat. = _____

Now go to Unit 41

Saturday September 13th

Introducing word stress

A

If a word has more than one syllable, you give stress to one of the syllables. To give it stress, do one or more of these to the syllable:

- Make it longer. **S**aturday
- Make it louder. **Sat**urday
- Make it higher. **Sat**urday

We can show stress with circles: each circle is a syllable and the bigger circle shows which syllable has the stress. For example, *Saturday* is Ooo.

B5 Listen to the conversation and listen to the stress patterns of the words in bold type.

A: When do you **begin** your **holiday**?

o O O o o

B: On the **thirtieth** of **August**.

O o o O o

A: That's next **Saturday**!

O o o

B: We're leaving in the **afternoon**.

o o O

A: And when are you coming back?

B: Saturday **September** the **thirteenth**.

o O o o o

A: **Thirtieth**?

O o o

B: No, **thirteenth**!

o O

B

B6 Different words have different stress patterns (patterns of stressed and unstressed syllables). Listen to these two- and three-syllable words.

Oo April, **thirty**, morning, Sunday

oOo September, tomorrow, eleventh

oO July, midday, **thirteen**, today, **thirteenth**

ooO afternoon, **seventeen**, **twenty-one**

Ooo Saturday, **thirtieth**, yesterday, holiday, **seventy**

Note: The stress pattern of numbers with *-teen* is sometimes different when the word is in a sentence. For example, the normal stress pattern of *nineteen* is oO, but when it is followed by a noun, e.g. *the nineteen nineties*, *nineteen people*, the pattern is Oo.

Note: *January* and *February* may be pronounced with the stress patterns Ooo or Oooo.

C

Stress patterns can help you hear the difference between similar words, for example, numbers ending in *-teen* or *-ty*. Listen to these examples.

B7

oO	Oo
thirteen	thirty
fourteen	forty
sixteen	sixty
eighteen	eighty
nineteen	ninety

Note: You can find more about word stress in Units 28 to 31.

Exercises

22.1 Write the full words in the correct column, according to their stress pattern.

Mon	Tues	Thu	Sat	today	tomorrow	Apr	Jul	Aug	Sept	Oct
Nov	holiday	2nd	11th	13	30	13th	30th	17	70	afternoon

Oo	oO	Ooo	oOo	ooO
Monday				

22.2 Write one word from 22.1 in each sentence below. The word must have the stress pattern shown. Then say the sentences.

- I'm going to have a party on (Ooo).
- My grandfather is (Ooo) years old.
- I often sleep for an hour in the (ooO).
- My birthday is on the (oOo) of March.
- In Europe, the weather is warm in (oO).
- I left school when I was (ooO).
- Goodnight. See you (oOo).
- How long is your summer (Ooo)?

22.3 Find a way from Start to Finish. You may pass a square only if the word has the stress pattern Ooo. You can move horizontally (\leftrightarrow) or vertically (\updownarrow) only.

START			
eightieth	twentieth	thirtieth	September
twenty-one	thousand	yesterday	October
November	sixtieth	seventy	eleventh
second	fortieth	thirteen	seventeen
vacation	holiday	tomorrow	afternoon
December	Saturday	ninetieth	fiftieth
FINISH			

22.4 Listen and circle the number you hear.

88

- 100 dollars! It only cost 17 / 70 last year!
- He was the 14th / 40th President of my country.
- The maximum number of people is 15 / 50.
- She was born in 1916 / 1960.
- He was 13 / 30 on his last birthday.
- She'll be 18 / 80 in March.

Now go to Unit 42

Exercises

- 23.1 Listen and underline the sentence which does *not* have the same stress pattern as the word at the beginning of the line.

B12

EXAMPLE

Ooo	cinema	Wasn't it?	Hasn't she?	<u>Don't you?</u>
1 oOo	tomato	Close the door.	He told me.	I like it.
2 ooO	afternoon	Does he drive?	Were you cold?	What happened?
3 oOo	December	It's open.	They arrived.	They listened.

- 23.2 Write these sentences in the correct column. Then listen, check and repeat.

B13

The bus was late.	Come and look.	Close the window.	What do you want?
The water's cold.	Give me a call.	What did she say?	Phone and tell me.
Nice to see you.	Where's the car?	It's cold and wet.	What's the time?

OooO	oOoO	OoO	OoOo
	The bus was late.		

- 23.3 Combine phrases from the boxes A, B and C to make three sentences or phrases with these patterns: OOO OoOoOo OooOooOoo. Then listen, check and repeat.

B14

EXAMPLE

A	B	C		
Half a	bottle of	beer	OOO	<u>One cold beer.</u>
One	glass of	orange juice	OoOoOo	<u>Half a glass of water.</u>
Give me a	cold	water	OooOooOoo	<u>Give me a bottle of orange juice.</u>

A	B	C		
Doesn't	Jennifer	listen	OOO	_____
Can't you make	Pete	talk to you	OoOoOo	_____
Can't	Oscar	drive	OooOooOoo	_____

- 23.4 Listen and tick the sentence you hear, A or B.

B15

	A	B
1	I can swim.	I can't swim.
2	Are you coming?	Aren't you coming?
3	We were tired.	We weren't tired.
4	She can help you.	She can't help you.
5	Can you see?	Can't you see?
6	They were talking.	They weren't talking.

Now go to Unit 43

Oh, no snow!

Consonants at the start of syllables

A

Some one-syllable words are just a single vowel sound (V), for example *oh* and *eye*. If we add one or more consonant sounds (C) to the beginnings of these words, they are still only one syllable. Look at these examples.

V	CV	CCV
oh /əʊ/	no /nəʊ/	snow /sneʊ/
oh /əʊ/	low /ləʊ/	slow /sləʊ/
eye /aɪ/	lie /laɪ/	fly /flaɪ/
air /eə/	where /weə/	swear /sweə/
or /ɔː/	law /ləʊ/	floor /flɔː/

B

When there are two Cs at the start of a syllable:

- if the first C is /s/, the second C can be any of these: /t/, /k/, /l/, /m/, /p/, /t/, /w/, /j/.
- if the first C is any sound other than /s/, the second C can only be one of these: /l/, /r/, /w/, /j/.

When there are three Cs at the start of a syllable:

- the first C is always /s/.

You may find some of these syllables with more than one C at the beginning difficult to say. Listen to these examples.

- B16** /s/ + C: spell stairs sleep small snack swim
 C + /l/, /r/, /w/ or /j/: blue fly dress ground quick swim view tune
 /s/ + CC: spring strange square scream

C

When there are two or more Cs at the beginning of a syllable, many learners add a V before the first C or between the Cs. Be careful!

- If you add a V before the first C, you may get a different word. For example, if you add a vowel before *sleep*, it may become *asleep*.
- If you add a V between the Cs, you may get a different word. For example, if you add a vowel between /s/ and /p/ in *sport*, it becomes *support*.

Listen to the difference.

	+ extra syllable
sleep	asleep
dress	address
street	a street
sport	support
That ski.	That's a key.
That smile.	That's a mile.
What snake?	What's an ache?

English Pronunciation in Use

Exercises

- 24.1 Add one C to the start of each word to make a new word in the pictures. Be careful: think of *sounds*, not spelling!

EXAMPLE red bread (red /red/ + b = bread /bred/)

- | | |
|--------------|---------------|
| 1 lie _____ | 5 lime _____ |
| 2 lock _____ | 6 late _____ |
| 3 rain _____ | 7 route _____ |
| 4 key _____ | |

- 24.2 Add one of the sounds from the box *after* the consonant at the start of these words to make other words. Think of *sounds*, not spelling!

/k/ /l/ /r/ /p/ /t/

EXAMPLE die dry

- | | |
|---------------|---------------|
| 1 back _____ | 6 pay _____ |
| 2 fight _____ | 7 two _____ |
| 3 fat _____ | 8 say _____ |
| 4 go _____ | 9 sin _____ |
| 5 pain _____ | 10 send _____ |

- 24.3 Listen and circle the word you hear.

B18

- | | |
|--|---|
| 1 The <i>glass</i> / <i>gas</i> is green. | 5 The dirt came off in the <i>steam</i> / <i>stream</i> . |
| 2 I don't want to <i>play</i> / <i>pay</i> . | 6 She didn't want to <i>stay</i> / <i>say</i> . |
| 3 It was a terrible <i>fight</i> / <i>fright</i> ! | 7 The <i>pain</i> / <i>plane</i> went down. |
| 4 The <i>tooth</i> / <i>truth</i> is out! | 8 I can't <i>sell</i> / <i>smell</i> anything. |

- 24.4 Listen and tick the sentence or phrase you hear, A or B.

B19

	A	B
1	that slow bus	That's a low bus.
2	an ice-cream	a nicer cream
3	that spot	That's a pot.
4	that street	That's a treat.
5	She loves the States.	She loves the estates.
6	small stream	a smaller stream
7	slow speech	a slower speech
8	straight street	a straighter street

Follow up: Record yourself saying the phrases and sentences in 24.4, choosing A or B each time. Make a note of which sentence or phrase you say. Then listen to your recording in about two weeks. Is it clear which you said?

Now go to Unit 44

Go – goal – gold

Consonants at the end of syllables

A Some one-syllable words have no consonant sound (C) after the vowel sound (V), for example *go*. If we add one or more consonant sounds (C) to the end of these words, they are still only one syllable. Here is an example.

B Sometimes, if you do not pronounce the last C of a word, you in fact say another word. For example, if you do not pronounce the final /k/ in *think* /θɪŋk/ you get *thing* /θɪŋ/. Listen to the words below. The words on the left sound the same as the words on the right without the final C, so you can see that it is important to pronounce the final consonants.

B20

VCC	VC
belt /bɛlt/	bell /bɛl/
change /tʃeɪndʒ/	chain /tʃeɪn/
range /reɪndʒ/	rain /reɪn/
help /hɛlp/	hell /hɛl/
film /fɪlm/	fill /fɪl/
tenth /tɛnθ/	ten /tɛn/
learnt /lɜːnt/	learn /lɜːn/
wolf /wɒlf/	wool /wʊl/
hold /həʊld/	hole /həʊl/

C Some learners of English find it difficult to pronounce two Cs together at the end of a syllable. If you have this problem, you may find it easier if you put a word beginning with a V after it and imagine that the last C of the first word is in fact the beginning of the second word. For example, if you find it difficult to say the /nt/ at the end of *weren't*, imagine the /t/ at the start of the next word:

They weren't able to do it.

They weren' → table to do it.

Note: We often get the consonant pair /nt/ at the end of negative contractions, e.g. *isn't*. (See Unit 35.)

Note: There are often two or more Cs at the end of verbs in the past tense. For example *walked* is pronounced /wɔːkt/ so it has the pattern CVCC. Similarly with -es endings, *likes* is pronounced /laɪks/ (CVCC).

D Some learners of English add a vowel after words ending in two Cs to make it easier to say. But be careful: if you add an extra V after the last C, you may get a different word.

B21

Listen to these examples.

help	helper
sent	centre
cook	cooker
mix	mixer
past	pasta

Exercises

- 25.1 Remove a consonant sound from the end of each word to make a new word. Be careful: think of *sounds*, not spelling! Look at the example. If you remove the last sound from *went* /went/, you get *when* /wen/.

EXAMPLE *went* when

- | | | | | | |
|----------|-------|----------|-------|---------|-------|
| 1 field | _____ | 4 build | _____ | 7 guest | _____ |
| 2 change | _____ | 5 shelf | _____ | 8 wild | _____ |
| 3 six | _____ | 6 wealth | _____ | | |

- 25.2 Read the conversation and underline the words which end with two consonant sounds.

A: OK, first question. What's the eighth month in the year?

B: It's August.

A: Correct! Second question. What's the highest mountain on Earth?

B: Mount Everest.

A: Correct again! Mount Everest! Next question.

Which city is furthest east in Europe: Athens, Brussels or Budapest?

B: Is it Budapest, or perhaps Brussels?

A: No, it isn't. It's Athens. OK, last question. What's the biggest land animal in the world?

B: The elephant.

A: Very good! Three out of four correct, that's seventy-five percent!

Now read the conversation aloud. Pronounce the underlined words carefully.

- 25.3 Think of a computer which people speak into and it writes what they say. This computer wrote these sentences down wrongly. The mistakes are underlined and one of the correct words is given at the end in (brackets). Write the correct sentences.

EXAMPLE She dozen turn much. (earn) She doesn't earn much.

1 I thing cold cars are better. (think) _____

2 The bang caught to be open by now. (ought) _____

3 I thing call the time. (all) _____

4 These big cars whole date people. (hold) _____

5 Did he fill mother kinds of movies too? (other) _____

6 Three people have sick size. (eyes) _____

7 If you took aspirins, your head wooden take. (ache) _____

- 25.4 Listen and circle the word you hear.

B22

1 They took their *cook* / *cooker* with them.

2 She was a great *help* / *helper*!

3 He *did an* / *didn't* exercise.

4 They *learn* / *learnt* quickly.

5 Is that your *guess* / *guest*?

6 They *burn* / *burnt* the food.

7 It's all in the *past* / *pasta* now.

8 That *mix* / *mixer* wasn't very good.

Now go to Unit 45

Paul's calls, Max's faxes

Syllables: plural and other -s endings

A

The noun *call* /kɔ:l/ is one syllable and the plural *calls* /kɔ:lz/ is also only one syllable. Usually the -s ending is just a consonant sound (C), not another syllable. It is pronounced /s/ or /z/.

When we add -s to make the third person singular present, it is the same. For example, the verb *know* /nəʊ/ is one syllable and the third person form *knows* /nəʊz/ is also only one syllable.

When we add -s to make the possessive it is also the same. For example *Paul* and *Paul's* are both just one syllable.

B23 Listen to the examples of -s endings in these rhymes.

Claire's chairs.

Bob's jobs.

Di's pies.

Rose knows.

Pat's hats.

B

Sometimes, plural, third person and possessive endings *are* another syllable. For example, *fax* /fæks/ is one syllable, but *faxes* /fæksɪz/ is two syllables.

B24 The plural and other endings *are* another syllable when the original word ends in one of the sounds below. Listen to the examples and rhymes.

/s/ Chris's kisses, the nurse's purses, Max's faxes

/ʃ/ Trish's wishes

/z/ Rose's roses

/tʃ/ The witch's watches

/dʒ/ George's fridges

Note: When the -s ending is another syllable, it is pronounced /ɪz/.

C

Important
for listening

With -s endings, we sometimes get a lot of consonant sounds together at the end of syllables, for example, *facts* /fæktɪz/. Many speakers of English make it simpler and do not pronounce one of the Cs. For example, they may pronounce *facts* like *fax* /fæks/. Here are some more examples.

B25

She never sends birthday cards. (sounds like: She never /senz/ birthday cards)

The lift's broken. (sounds like: The /lif/s/ broken)

It tastes funny. (sounds like: It /teɪs/ funny)

That's what he expects. (sound like: That's what he /ɪk'speks/)

D

Try to make sure you pronounce the -s ending. It is very important to the meaning. Listen to the examples and notice how the -s ending changes the meaning.

B26

noun

Jane's nose

Nick's weights

singular

My friend spends a lot.

Our guest came late.

verb

Jane knows

Nick waits

plural

My friends spend a lot.

Our guests came late.

Exercises

26.1 Match the beginnings and ends of these phrases so that they rhyme. Then listen and repeat.

B27

- | | | |
|---------------|-------|------------|
| 1 Ms Fox's | _____ | a fridges |
| 2 My niece's | _____ | b boxes |
| 3 The witch's | _____ | c pieces |
| 4 Mr Bridge's | _____ | d phones |
| 5 Mr Jones | _____ | e kisses |
| 6 Chris's | _____ | f plans |
| 7 Anne's | _____ | g switches |

26.2 Write the third person forms of the verbs from the box in the correct part of the table below. Then listen, check and repeat.

B28

watch sing go get dance kiss come wash see close push pull

1 syllable	0	sings
2 syllables	0o	watches

26.3 These speakers are not pronouncing all the consonants at the ends of some words. What are they saying? Write the sentence.

1

(sounds like: /hænz/ up)

2

(sounds like: There are many different /kainz/ of whale)

3

(sounds like: My favourite /'sʌbdʒeks/ chemistry)

4

(sounds like: The /winz/ very strong today)

26.4 Listen and circle the word you hear.

B29

- | | |
|--|---|
| 1 I saw the <i>bird</i> / <i>birds</i> fly away. | 6 I read the <i>book</i> / <i>books</i> very quickly. |
| 2 What time did the <i>guest</i> / <i>guests</i> leave? | 7 The <i>bag</i> / <i>bags</i> fell on the floor. |
| 3 He broke his <i>arm</i> / <i>arms</i> in the accident. | 8 The <i>shop</i> / <i>shops</i> will be closed. |
| 4 She sang the <i>song</i> / <i>songs</i> her father wrote. | 9 When will the <i>class</i> / <i>classes</i> begin? |
| 5 Where does she park her <i>car</i> / <i>cars</i> at night? | 10 The <i>box</i> / <i>boxes</i> won't be big enough. |

Follow up: Record yourself saying the sentences in 26.4, choosing singular or plural. Make a note of which one you said. Then listen to your recording in about two weeks. Is it clear which words you said?

Now go to Unit 46

Pete played, Rita rested

Syllables: adding past tense endings

A

The verb *play* /pleɪ/ has one syllable and the past tense *played* /pleɪd/ also has only one syllable. Usually the *-ed* ending is just a consonant sound (C), not another syllable; the letter E is silent.

So, for example, *smiled* /smaɪd/ rhymes with *child* /tʃaɪld/, even though *child* does not have a letter E before the D. Listen to the rhymes. Notice that *-ed* rhymes with either /t/ or /d/.

B30

He looked round first,
And then reversed.
The car that passed
Was going fast.
It hit the side.
The driver cried,
He never guessed.
He'd pass the test.

B

If the infinitive of the verb ends with the sounds /t/ or /d/, *-ed* or *-d* is a new syllable; the letter E is pronounced as a vowel sound. For example:

hate /heɪt/ = one syllable

hated /heɪtɪd/ = two syllables

Listen and compare the sentences on the left and right below.

B31

O O	OoOo (-ed = extra syllable)
Pete played.	Rita rested.
Dan danced.	Colin counted.
Will watched.	Wendy waited.
Liz laughed.	Sheila shouted.
Clare cleaned.	Myra mended.
Steve stopped.	Stacey started.

C

Past tense endings tell you if the sentence is present or past. Listen to the difference.

Present

Past

B32

You never cook a meal.

You never cooked a meal.

I sometimes watch a movie.

I sometimes watched a movie.

We often phone our parents.

We often phoned our parents.

Note: If it is difficult to say the *-ed* ending in words like *cooked*, imagine that the *-ed* is joined to the word after. For example say *cooked all the food* like this: *cook tall the food*.

Note: If the word after the past tense verb begins with a consonant, you may not hear the *-ed*, e.g. *cooked dinner*, *walked through*.

Exercises

27.1 Match the beginnings and ends of these rhymes.

- | | |
|-------------------------|------------------------|
| 1 The people queued | a was never found. |
| 2 The thing you missed | b are on the board. |
| 3 The man controlled | c and then she smiled. |
| 4 She saw the child | d to build on sand. |
| 5 The boat that crossed | e was on the list. |
| 6 The man who drowned | f until she coughed. |
| 7 The snow we rolled | g the nation's gold. |
| 8 Her voice was soft | h to buy the food. |
| 9 The points we scored | i was nearly lost. |
| 10 We never planned | j was hard and cold. |

27.2 Write the past tense of the verbs from the box in the correct part of the table.

B33

Then listen, check and repeat.

~~hate~~ ~~walk~~ need wash wait waste help taste phone dance end ask

1 syllable	0	walked
-ed = extra syllable	Oo	hated

27.3 Complete each sentence with the past tense of a verb from the box. In each sentence, the first sound of the verb is the same as the first sound in the person's name! Then listen, check and repeat.

~~play~~ watch add phone count mix cook start shout ~~paint~~

O O O	OoOoOo (-ed = extra syllable)
Paul <i>played</i> games.	Peter <i>Painted</i> pictures.
Ken lunch.	Karen money.
Fred friends.	Stella singing.
Marge drinks.	Alice sugar.
Will films.	Sheila loudly.

B34

Now listen, check and repeat.

27.4 Listen and circle the verb form you hear, past or present.

B35

- | | |
|--|---|
| 1 I always <i>walk</i> / <i>walked</i> away from fights. | 5 I always <i>hate</i> / <i>hated</i> Sundays. |
| 2 I think they <i>want</i> / <i>wanted</i> to talk. | 6 You never <i>help</i> / <i>helped</i> Alice. |
| 3 Me and my friends <i>laugh</i> / <i>laughed</i> a lot. | 7 They <i>need</i> / <i>needed</i> more time. |
| 4 On Saturdays, we <i>dance</i> / <i>danced</i> all night. | 8 They <i>paint</i> / <i>Painted</i> the walls every few years. |

Follow up: Record yourself saying the sentences in 27.4, choosing the present or past tense. Make a note of which tense you say. Then listen to your recording in about two weeks. Is it clear which tense you said?

Now go to Unit 47

REcord, reCORD

Stress in two-syllable words

A

Many two-syllable words come from a one-syllable word. For example, the word *artist* comes from the word *art*, and the word *remove* comes from the word *move*. In these two-syllable words, the stress is on the syllable of the original word:

artist = Oo (stress on the first syllable) remove = oO (stress on the second syllable)

Here are some more examples.

nouns and adjectives Oo	verbs oO
art – artist	move – remove
drive – driver	like – dislike
friend – friendly	build – rebuild
fame – famous	come – become

B

Most two-syllable nouns and adjectives have stress on the first syllable, even if they don't come from an original one-syllable word. For example, 'brother' doesn't come from the original word 'broth', but it still has the stress pattern Oo.

- B36 Listen to this sentence: the nouns and adjectives all have the pattern Oo.

The artist's most famous picture shows some women and children in a lovely forest with a purple mountain behind.

Note: However, there are a number of exceptions to this general rule, for example *asleep*, *mistake*, *machine*, *alone*, which have stress on the second syllable.

C

Most two-syllable verbs have stress on the second syllable, even if they don't come from an original one-syllable word. For example, 'repeat' doesn't come from the original word 'peat', but it still has the stress pattern (oO).

Listen to this sentence: the verbs all have the pattern oO.

- B37 Escape to Scotland, forget about work, just relax and enjoy the scenery!

Note: There are a number of exceptions to this general rule, for example *cancel*, *copy* and two-syllable verbs ending in *-er* and *-en*, e.g. *answer*, *enter*, *offer*, *listen*, *happen*, *open*, which all have stress on the first syllable.

D

B38 Some words are both nouns and verbs. For example, *record* is a noun if you put stress on the first syllable, and a verb if you put stress on the second syllable. Listen to these examples. You will hear each word twice, first as a noun and then as a verb.

record contrast desert export object present produce protest rebel

Note: There is not always a change of stress in words that are both nouns and verbs. For example *answer*, *picture*, *promise*, *reply*, *travel*, *visit* always have stress on the same syllable.

Note: The stress stays in the same place when we make longer words from these two-syllable nouns, adjectives and verbs. For example, in both *happy* (Oo) and *unhappy* (oOo), the stress is on the syllable *happ*, and in both *depart* (oO) and *departure* (oOo), the stress is on the syllable *part*.

Exercises

28.1 Make the word in (brackets) into a verb beginning with 'r' and a noun ending with 'r' and use the words to fill the gaps. Then say the sentences. Take care to use the correct stress patterns for the words in the gaps: Oo for the nouns and oO for the verbs. Listen and check.

B39

EXAMPLE

- (build) I asked the builder to rebuild the wall.
- 1 (act) How did you _____ when you saw the _____ coming in?
- 2 (write) The _____ decided to _____ the whole book.
- 3 (paint) The _____ tried to _____ this part of the picture.
- 4 (print) We asked the _____ to _____ the whole document.
- 5 (view) The _____ will be able to _____ this programme tomorrow.
- 6 (play) They had to _____ the match after a _____ was hurt.

28.2 Listen and circle the word with a different stress pattern from the others.

B40

EXAMPLE money machine mountain message

- 1 answer agree allow attract 5 complete common careful crazy
2 middle minute mission mistake 6 pronounce provide promise prefer
3 compare correct copy collect 7 shampoo shoulder shower shopping
4 garden granny guitar grammar 8 reason remove receive review

28.3 Read the sentences and decide what stress pattern the words in bold have. Then listen, check and repeat.

B41

EXAMPLE I got my first **record** as a **present** when I was eleven.

record = Oo present = Oo

- 1 You've **progressed** well this year, but I'd like to see even more **progress**.
progressed = _____ progress = _____
- 2 We **import** too much petrol and the country's **export** figures are going down.
import = _____ export = _____
- 3 It started as a student **protest**, but now the army has **rebelled** against the government.
protest = _____ rebelled = _____
- 4 In the **desert**, there is a big **contrast** between temperatures in the day and at night.
desert = _____ contrast = _____
- 5 These companies **produce** household **objects** such as fridges and washing machines.
produce = _____ objects = _____

Now go to Unit 48

Second hand, bookshop

Stress in compound words

A

Compound words are made from two smaller words put together, for example *book + shop = bookshop*. (They are not always written as one word, for example *shoe shop*.) In most compound words, the stress is on the first part. For example, the word *bookshop* has two syllables and the stress is on the first syllable. Listen to these examples.

- B42 Oo bookshop, bus stop, footpath, airport, shoe shop, road sign, car park, bedroom
 Ooo traffic light, bus station, sunglasses, boarding card, window seat, check-in desk
 Oooo travel agent, art gallery, supermarket, tape recorder, photocopy

⚠ Note: If the first part of the compound word is an adjective, there may be stress on the second part too, for example OO *double room*.

⚠ Note: There may be stress on the second part of a compound noun when:

- the object in the second part is made out of the material in the first, for example OO *glass jar*,
- the first part tells us where the second part is, for example OO *car door*.

B

If the compound word is *not* a noun, we often put stress on the second part too. Listen to these examples.

- B43 OO first class, half price, hand made
 OOo bad-tempered, old-fashioned, short-sighted
 OoO overnight, second hand

C

Sometimes a compound word looks the same as

- a normal adjective and noun,
- a normal noun and verb.

But the pronunciation is different. Compare:

Oo compound word	OO adjective and noun
We keep these plants in a greenhouse during the winter months.	Mr Olsen lives in a small, green house next to the river.
OO compound word	OO noun and verb
I saw her bus pass .	I saw her bus pass .

Exercises

29.1 Listen. Write the words in **bold** in the correct columns.

B44

There's a good **shopping centre**. You can find almost **anything** there. There are **bookshops**, **shoe shops**, a **travel agent's**, a **post office**, a **hairdresser's**, a **supermarket**, **everything**... and there are a few **snack bars** if you want a **hamburger** or **something**. Oh, and there's a **sports centre** too, with a **swimming pool** and a **playground** for the kids. But be careful with your **handbag**; I had my **credit card** stolen there once!

Oo	Ooo	Oooo
bookshops	anything	shopping centre

Follow up: Record yourself saying the text. Make sure you put the stress in the correct place.

29.2 Listen. In each sentence, one of the compound words (in **bold**) has stress on the first part (Oo) and the other has stress on the second part too (OO). Circle the word if there is stress on the second part too.

B45

EXAMPLE They did the photocopies **overnight**.

- I got this **motorbike** second hand.
- Using a **typewriter** is so old fashioned.
- These **earrings** were hand made.
- I'm **short-sighted**, like my grandmother.
- All the **sunglasses** are half price.
- The **waiting room** is for first class only.

29.3 Listen. Which thing is the speaker asking about? Put a tick (✓) next to it and say Yes, I have or No, I haven't. Give a true answer!

Now go to Unit 49

Unforgettable

Stress in longer words 1

A

We can build longer words by adding parts to the beginning or end of shorter words. Usually, this does not change the stress: it stays on the same syllable as in the original word. Look at the example below.

	for	get		
	for	get	ful	
	for	get	ful	ness
	for	gett	a	ble
un	for	gett	a	ble

Here are a list of beginnings and endings which do not change the stress of the shorter word:

-able (drinkable)	in-/im- (impossible)	-ness (happiness)
-al (musical)	-ise (civilise)	-ship (friendship)
-er (player)	-ish (childish)	un- (unhappy)
-ful (helpful)	-less (childless)	under- (underpay)
-hood (childhood)	-ly (friendly)	
-ing (boring)	-ment (employment)	

B

B47

Some endings *do* change the stress in the shorter word. Look how the ending *-ion* changes the stress in the word *educate*.

ed	u	cate	
ed	u	ca	tion

When we add the endings *-ion* or *-ian*, the stress always moves to the syllable *before* these endings. Here are some more examples.

e	lec	tric	
e	lec	tri	cian

dec	o	rate	
dec	o	ra	tion

mu	sic	
mu	si	cian

co	mmu	ni	cate	
co	mmu	ni	ca	tion

Note: *-tion* and *-cian* are pronounced /ʃən/.

C

B48

The ending *-ic* also moves the stress to the syllable before it. Listen to these examples.

scientist	scient ific
economy	econ omic
atom	at omic
artist	art istic

Note: When a syllable changes from unstressed to stressed, or stressed to unstressed, the vowel sound often changes. For example the letter O in *atom* is pronounced /ɒ/, but in *atomic*, it is pronounced /ɪ/; the A in *atom* is pronounced /æ/, but in *atomic* it is /ə/.

Note: The ending *-al* does not change the stress of the word (see A above), so, for example, the stress is on the same syllable in these two words: *economic* *economical*.

Exercises

- 30.1 Use the beginnings and endings in A opposite to make longer words from the words below. Listen and check if you get the same words as on the recording. Then listen again and repeat.

B49

EXAMPLE

child childhood, childish, childishness, childless

1 believe

2 enjoy

3 care

- 30.2 Write the words from the box in the correct part of the table according to the stress pattern.

population	telecommunication	nation	identification	relation
communication	pronunciation	scientific	clinic	romantic
pessimistic	investigation	public	discussion	

Oo	
oOo	
ooOo	population
oooOo	
ooooOo	
oooooOo	

- 30.3 Combine each word with one of the endings from the box, and give the stress pattern of your new word. You may need to change or add other letters to the first word. Use a dictionary to help you if necessary.

-ion	-ic
------	-----

EXAMPLE inform information ooOo

- | | |
|-------------------|-------------------|
| 1 introduce | 7 optimist |
| 2 base | 8 celebrate |
| 3 economy | 9 diplomat |
| 4 describe | 10 operate |
| 5 romance | 11 explain |
| 6 compete | 12 decide |

Now go to Unit 50

Public, publicity

Stress in longer words 2

A

B50

There are many longer word endings where the last letter is -y. In words with these endings, the stress is placed on the syllable two from the end. Listen to these examples.

pub	lic		
pub	lic	i	ty

na	tion	al		
na	tio	nal	i	ty

pho	to	graph	
pho	tog	raph	y

cli	mate			
cli	ma	tol	o	gy

as	tro-		
a	stron	o	my

chem	ist	
chem	i	stry

Note: If we add the ending *-ic* to a word, the stress goes on the syllable before *-ic*. (See Unit 30.) Notice the change of stress, for example:
photography photographic.

Note: In words for an expert in the subject, such as *photographer* or *climatologist*, the stress stays on the same syllable as in the word ending in *-y*.
photography photographer
climatology climatologist

B

Many words for school and university subjects have one of the *-y* endings in this unit or the ending *-ics*. Listen to the names of subjects in this text.

B51 At school, I hated science subjects like **physics**, **chemistry** and **biology**, you know, and ehm... I wasn't very good at **mathematics** and things. I really liked subjects like **history**, **geography**, **economics**. Anyway, when I went to university, I wanted to do **geology**, but I couldn't 'cause I was no good at sciences, so in the end I did **philosophy**!

Note: Many English speakers do not pronounce the second syllable in *history*, so that it sounds like this: /'hɪstrɪ/ 0o. The first part of the word *geography* may be pronounced as one or two syllables: /'dʒɒgrəfɪ/ 0oo or /dʒi:'ɒgrəfɪ/ o0oo. Many speakers do not pronounce the second syllable in *mathematics*, so it sounds like this: /mæθ'mætɪks/ o0o.

C

B52 If we combine the various endings in this unit and Unit 30, we can get 'families' of words with moving stress patterns. Listen to these examples.

photograph	photography	photographic	
economy	economics	economical	
national	nationality	nationalise	nationalisation
civil	civility	civilise	civilisation

Exercises

- 31.1 Make a word ending in *-ity* from each of these words, and give the stress pattern. Use a dictionary to help you if necessary.

EXAMPLE author *authority* *oOoo*

- | | | | |
|------------|-------|------------|-------|
| 1 person | | 5 nation | |
| 2 universe | | 6 real | |
| 3 public | | 7 human | |
| 4 major | | 8 electric | |

- 31.2 Write the words from the box in the correct column according to their stress pattern.

economics economy physics chemistry geography /'dʒɒɡrəfi/
 mathematics /mæθə'mætiks/ sociology history /'hɪstri/
 photography nation nationality geology

Oo	Ooo	oOoo	ooOoo	ooOo
				economics

- 31.3 Fill the gaps with a word from the box which has the stress pattern given. Then listen and check.

B53

biology mathematics history geography sociology **chemistry**

My favourite subjects at school were sciences, especially Ooo *chemistry* and oOoo I've always been good with numbers, so I was good at oOo I didn't really like the social science subjects like ooOoo and Oo, and that's strange because when I went to university I did Ooo

- 31.4 Write in the word which is missing from the family. Then listen, check and repeat.

B54

EXAMPLE society, *sociology* (ooOoo), sociological

- civil, civilise, (oooOo)
- (oOoo), biologist, biological
- personal, (ooOoo), personalise
- legal, legalise, (oooOo)
- (Oo), authority, authorise

Now go to Unit 51

DON'T LOOK NOW!

Sentences with all the words stressed

A

In a sentence, we put stress on one syllable of all the most important words. In some situations, emergencies for example, *all* of the words are important. In this case, there is stress on one syllable of all of the words (in some cases, the sentence may have only one word). Listen to the sentence stress in these examples.

- B55 O Help! Quick! Smile!
 Oo Quiet! Sorry!
 OO Look out! Take care! Wake up! Don't move! Come back! Stand still! Sit down!
 OoO Don't forget! Hurry up! Go away! Stay awake! Don't be late!
 OOo Keep quiet! Don't worry!
 OOO Don't look now! Go straight on! Don't turn round!
 oOoo Emergency!

B

In English sentence stress, the following kinds of words are usually stressed. The examples given are from the sentences in A above.

- verbs (*help*)
 two-part verbs (*look out*)
 adjectives (*quick*)
 nouns (*emergency*)
 negative auxiliary verbs (*don't*)

Note: Positive auxiliary verbs such as *be* in *Don't be late!* are not usually stressed.

C

Sentences with all the words stressed have a distinctive rhythm. You can hear this well in these chants. Listen.

- B56 O O, O O
 Don't move! Take care!
 Keep calm! Stay there!

- O O O
 Go straight on!
 Don't look down!
 Go straight on!
 Don't turn round!

- O O, O o O
 Don't stop! Carry on!
 Run! Run! Get away!
 Quick! Quick! Hurry up!

Exercises

- 32.1 Match each sentence with a sentence from the box with the same rhythm. Write the sentences in the correct place. Then listen, check and repeat.

B57

Don't move! Run! Don't worry! Go straight on! Go away! Sorry!

EXAMPLE OOO Don't be late! Go away!

- 1 Oo Silence! _____
 2 OOO Don't look down! _____
 3 O Wait! _____
 4 OO Get back! _____
 5 OOO Keep quiet! _____

- 32.2 What are they saying? Use the grammar and sentence stress information to guess.

EXAMPLE

Emergency!

oOoo (noun) _____

1

O (verb) _____

2

OO (two-part verb) _____

3

OoO (two-part verb) _____

4

OOO (negative auxiliary, two-part verb) _____

5

Oo (adjective) _____

- 32.3 Listen and complete these chants. Then play the recording and say the chant at the same time.

B58

- 1 Don't sleep! Stay awake!
 Get dressed! Don't _____ late!
 2 _____ still! Stay there!
 Don't move! _____ care!
- 3 Say please! Don't _____ rude!
 Sit _____! Eat your food!

Now go to Unit 52

THAT could be the MAN

Unstressed words

A

All of the sentences below have three syllables with this stress pattern: OoO. The middle word in each sentence is unstressed because it is not as important as the other two words. Listen.

B59

O	o	O
What's	your	name?
Tom	was	right.
Dogs	can	swim.
Close	the	door!
Wait	and	see.
Go	to	bed!

B

These are the kinds of words which are not normally stressed, with example words from the sentences in A above.

pronouns (*your*)
 the verb *be* (*was*)
 auxiliary verbs (*can*)
 articles (*the*)
 conjunctions (*and, or*)
 prepositions (*to*)

Note: Negative auxiliary verbs (*can't, don't, hasn't, etc.*) are usually stressed. See Unit 32.

Important
for listening

There may be more than one of these unstressed words between two stressed words. In the sentences below, each sentence has the same two stressed words with an increasing number of unstressed words between. Listen. Notice that the length of time between the two stressed words is about the same, however many unstressed words are fitted between.

B60

OO That man.
 OoO That's the man.
 OooO That was the man.
 OoooO That could be the man.

Note: Speakers can choose to put stress on words which are normally unstressed. They do this for emphasis or contrast. (See Unit 49.)

Exercises

33.1 Give the stress patterns for these sentences.

EXAMPLE Go to the shops. 0000

- | | |
|----------------------------|-------------------------------|
| 1 Go to school. _____ | 4 What was in the news? _____ |
| 2 Where was the key? _____ | 5 What's your name? _____ |
| 3 Tell John. _____ | |

33.2 Put one of the unstressed words from the box in the middle of each phrase or sentence below. Then say the phrases or sentences with this stress pattern: OoO.

or my a it can some of are

- | | |
|----------------------|-----------------------|
| 1 Bring _____ here! | 5 Lots _____ eggs. |
| 2 Mel's _____ nurse. | 6 Pass _____ fail? |
| 3 Whales _____ big. | 7 Have _____ bread. |
| 4 Jane _____ drive. | 8 Where's _____ bike? |

33.3 Listen. How many unstressed words are there between the stressed words in each sentence? Write 0, 1, 2 or 3.

B61

EXAMPLE Drink ... milk. 3

- | | |
|-------------------------|-------------------------|
| 1 Eat ... cheese. _____ | 5 Go ... shops. _____ |
| 2 That ... man. _____ | 6 Go ... home. _____ |
| 3 What ... name? _____ | 7 Turn ... right. _____ |
| 4 What ... for? _____ | |

33.4 Complete each set of four sentences with the unstressed words given. Each sentence should have one more unstressed word than the sentence before, so that the four sentences have the same pattern as in the example. Then listen, check and repeat.

B62

EXAMPLE unstressed words: *it, some, with*

OO Eat cheese.

OoO Eat some cheese.

OooO Eat it with cheese.

OoooO Eat it with some cheese.

1 unstressed words: *it, of, the, some, with*

OO Drink milk.

OoO Drink _____ milk.

OooO Drink _____ milk.

OoooO Drink _____ milk.

2 unstressed words: *it, the, to*

OO Turn right.

OoO Turn _____ right.

OooO Turn _____ right.

OoooO Turn _____ right.

Now go to Unit 53

I'll ASK her (Alaska)

Pronouns and contractions

A

Pronouns in sentences are usually unstressed. Look at this sentence: *I met him*. The first and third words are pronouns. So this sentence has the stress pattern oOo.

B

Important
for listening

Listen to these sentences. You will hear each one twice: first in careful speech and then in fast speech. Notice that in fast speech:

- the speaker doesn't pronounce the letter H in *he, her, him, his* unless it is at the beginning of the sentence.
- the vowel sound in the pronouns and *his, her, their, our* is very short.

B63

oOo

I met him.

You know her.

They saw you.

She phoned me.

He likes them.

We found it.

oOoO

I met his wife.

They read my book.

He knows their son.

We called their friends.

She hates her job.

You need our help.

Note: You don't need to copy the fast speech pronunciation. People will understand you if you use careful speech. But you need to be able to understand fast speech.

C

Important
for listening

Pronouns are often joined to auxiliary verbs (*is, have, will*, etc.) in contractions. For example, when we speak, we join the *I* and *will* together to form *I'll*. In the sentence *I'll ask her* there are four words but only three syllables. This is because the pronoun and contraction are pronounced as one syllable. This sentence therefore has the stress pattern oOo (the pronouns and contractions *I'll* and *her* are unstressed). In fast speech, it may be pronounced the same as *Alaska*. Listen to these examples.

B64

oOo

I'll ask her.

/æ'læskə/

(like *Alaska*)

I'm coming.

/æm'kʌmɪŋ/

(like *am coming*)

He's finished.

/hɪz'fɪnɪʃt/

(like *his finished*)

They're hungry.

/ðe'hʌŋgrɪ/

(like *the hungry*)

We've seen him.

/wɪv'si:nɪm/

(like *wiv seen im*)

She's angry.

/ʃi'zæŋgrɪ/

(like *shiz angry*)

Note: You do not join the pronoun to an auxiliary verb at the end of a sentence. For example, say *Yes, I will*, don't say ~~*Yes, I'll*~~.

Note: You only put stress on pronouns if you want to emphasise or contrast something. It is like underlining with your voice. For example:

You don't need him, but he needs you!

(See Unit 49.)

Exercises

- 34.1 Add pronouns to these words to make sentences with the pattern oOoO. Do not use the same pronoun twice. Then say your sentences aloud, making the rhythm clear.

EXAMPLE drove/car She drove her car.

- 1 read/book _____ 3 drank/milk _____
2 sang/song _____ 4 ate/lunch _____

- 34.2 Listen and write the words you hear in the gaps.

B65

EXAMPLE Can you tell her to call me please?

- 1 Can you give _____ to _____ please?
2 Did _____ meet _____ daughter, Catherine?
3 I don't think _____ likes _____.
4 What did _____ say to _____?
5 Where did _____ buy _____ guitar?
6 What's _____ mother's name?
7 Where are _____ parents from?
8 _____ bought presents for _____ children.

- 34.3 Write the sentences below again. Change the people to pronouns, and make the auxiliary verbs (*has/is/are* etc.) into contractions. Then underline the stressed syllables in your sentences. There should be two in each sentence. Then listen, check and repeat.

B66

EXAMPLE Helen has given Robert some money. She's given him some money.

- 1 Robert is buying presents for the children. _____
2 Bonnie and Max are opening their presents. _____
3 Bonnie and Max will thank Robert for the presents. _____
4 Robert will thank Helen for the money. _____

- 34.4 Think of a computer which people speak into and it writes what they say. This computer wrote the underlined parts of these conversations incorrectly. (You can read what the computer heard in phonemic letters.) Write the correct words.

EXAMPLE

- Do you know Mike?

- Yes. Ametim /æ'metɪm/ yesterday. I met him

1 - Come on kids, do your homework!

- Wivdunit /wɪv'dʌnɪt/ already! _____

2 - What's his name?

- I don't know. Alaskim /æ'læskɪm/. _____

3 - Goodbye.

- Goodbye. Alseeva /æl'si:ʒə/ tomorrow! _____

4 - Why isn't Neil here?

- Hisgonta /hɪz'gɒntə/ Paris for the weekend. _____

5 - Have you told Maria yet?

- No. Altella /æl'telə/ tomorrow. _____

Now go to Unit 54

She was FIRST

Pronouncing the verb *be*

A You don't normally put stress on *are* in the middle of a sentence. Listen to this rhyme.

B67a Roses are red,
Violets are blue,
Flowers are nice,
And so are you!

! **Note:** Many speakers pronounce *are* just as the weak vowel sound /ə/, but if the following word begins with a vowel sound, the /r/ is pronounced too, for example *People are angry*. (See Unit 39.)

B **B67b** The word *is* (and 's) is not usually spoken as a separate syllable; it is usually joined to the syllable before, for example *Snow is/s white*. But if the word before ends with letters like S, CE, GE and CH, it is a new syllable, for example *Grass is green*. (See Unit 24.) Listen to the examples.

<i>is</i> and 's – not a separate syllable	<i>is</i> and 's – a separate syllable
Snow is white.	Grass is green.
Your hair is dirty.	Your face is dirty.
The road is closed.	The bridge is closed.
The clock is broken.	My watch is broken.

! **Note:** After a pronoun, *am*, *is* and *are* are usually written as a contraction ('m, 's, 're). (See Unit 34.)

C In the middle of a sentence, *was* and *were* are also usually unstressed. Listen to the chant.

B68 She was first.
You were last.
It was hard.
She was fast.
You were slow.
She was strong.
I was tired.
It was long.

D The verb *be* is normally unstressed at the start of a sentence too. Listen to this chant.

B69 Am I right? Am I wrong?
Is it short? Is it long?
Are you hot? Are you cold?
Were they young? Were they old?
Is it false? Is it true?
Was it me? Was it you?

Important
for listening

Note that the vowel is very weak in fast speech (see Unit 7, which looks at weak vowels).

am = /əm/; *is* = /ɪz/; *are* = /ə/; *were* = /wə/; *was* = /wəz/

You don't need to copy the fast speech pronunciation. People will understand you if you use careful speech. But you need to be able to understand fast speech.

! **Note:** The verb *be* is stressed in negative contractions (e.g. *aren't*), and at the end of sentences (e.g. *Yes, I am*). (See Unit 36.)

! **Note:** The verb *be* is also stressed for emphasis or contrast, for example: *That can't be John ... Wait a minute ... It is John!* (See Unit 49.)

Exercises

35.1 Circle the word *are* if you think the /r/ is pronounced. Then listen, check and repeat.

B70

There are a lot of books in the picture. Some of them are on the desks and some are on the shelves. There are some trees outside the windows. The windows are open. There are some pens on one of the desks.

35.2 Tick (✓) the sentences where *is* is always a separate syllable. Then listen, check and repeat.

B71

EXAMPLE

a Lunch is ready! ✓

b Dinner is ready!

1 a The house is cold.

b The room is cold.

2 a The taxi is here.

b The bus is here.

3 a The beach is crowded.

b The park is crowded.

4 a The steak is good.

b The fish is good.

5 a The meaning is clear.

b The message is clear.

6 a The smell is awful!

b The noise is awful!

7 a Juice is good for you.

b Fruit is good for you.

35.3 Listen and circle the verb you hear.

B72

1 People *are* / *were* angry.6 The fish *are* / *were* dying.2 Alice *is* / *was* here.7 The place *is* / *was* nice.3 Your face *is* / *was* dirty.8 Paris *is* / *was* nice.4 The birds *are* / *were* singing.9 The children *are* / *were* tired.5 The books *are* / *were* cheap.10 My friends *are* / *were* coming.

35.4 Listen and fill the gaps with one word.

B73

EXAMPLE That was my favourite.

1 His parents rich.

6 Her dog called Kip.

2 The birds singing.

7 This car very expensive.

3 The beach crowded.

8 The drinks free on this flight.

4 The children at home.

9 The weather terrible.

5 He going out at the weekend.

10 The banks closed on Saturday.

Now go to Unit 55

WHAT do you THINK?

Auxiliary verbs

A

OooO is a very common rhythm in questions beginning with *Wh-* words (*when, where, what, etc.*) followed by auxiliary verbs.

<i>Wh-</i> word (stressed)	auxiliary (unstressed)	pronoun (unstressed)	main verb (stressed)
What	do	you	think?
O	o	o	O

B74

Important
for listening

Listen to these examples. You will hear each one twice; first in careful speech and then in fast speech. Notice how, in fast speech, the vowel is very weak in the auxiliary *do* and *does*.

OooO
What do you **think**?
Where do you **live**?
What does she **mean**?
Where does he **work**?
What did he **say**?
Why did you **go**?

B

B75

Important
for listening

Other auxiliaries are also usually unstressed in questions. Listen. Note that the speaker does not pronounce the first letters of the auxiliaries *will, have* and *has*.

What will he **do**? **Where** has she **been**?
What have I **done**? **What** can you **see**?

C

B76

Auxiliaries *are* stressed in negative contractions and at the end of sentences. Listen to these examples.

Yes, I **do**.
 I don't **know**.
 Yes, I **will**.
 He won't **say**.
 Yes, I **have**.
 I haven't **done** it.
 Yes, I **can**.
 I can't **help**.

Note: Auxiliaries can also be stressed for emphasis or contrast. For example: *I'm not English, but I am British!* (See Unit 49.)

D

B77

Important
for listening

In very fast speech, some speakers pronounce many of these questions with only three syllables. Listen.

OooO
What do you **want**? /wɒdjə'wɒnt/ (sounds like: What dya want?)
What does he **do**? /wɒtsɪ'du:/ (sounds like: What si do?)
Where have you **been**? /weəvjə'bi:n/ (sounds like: Whereve ya bin?)
Where did he **go**? /weərdɪ'gəʊ/ (sounds like: Where di go?)

Exercises

36.1 Listen and complete the questions.

B78

EXAMPLE What did he do?

- | | |
|---------------------|---------------------|
| 1 Where _____ live? | 6 Who _____ meet? |
| 2 What _____ say? | 7 Where _____ sit? |
| 3 Where _____ work? | 8 When _____ end? |
| 4 What _____ see? | 9 Where _____ been? |
| 5 Where _____ gone? | 10 Who _____ asked? |

36.2 Write the questions in this conversation and give the stress patterns. Then listen, check and repeat the questions.

B79

EXAMPLE

A: _____ What do you do? _____ ? OooO

B: I'm a doctor.

1 A: _____ ? _____

B: I live in Kingston, Jamaica.

2 A: _____ ? _____

B: I work in the University Hospital.

3 A: _____ ? _____

B: Yes, I'm married. My husband is a teacher.

4 A: _____ ? _____

B: He teaches History and Geography.

5 A: _____ ? _____

B: At the Grove Road Secondary School.

6 A: _____ ? _____

B: I met him when I was on holiday in Florida.

7 A: _____ ? _____

B: We got married in 1999.

36.3 Think of a computer which people speak into and it writes what they say. This computer wrote the underlined parts of these questions incorrectly. (You can read what it heard in phonemic letters.) Correct the writing.EXAMPLE What dya /djə/ mean? _____ What do you mean? _____1 Who vya /vjə/ told? _____ ?2 What di /dɪ/ say? _____ ?3 When dya /djə/ start? _____ ?4 Where zi /zɪ/ gone? _____ ?5 How dya /djə/ do? _____ ?

Now go to Unit 56

A PIECE OF CHEESE

Pronouncing short words (*a, of, or*)

A

Short words like articles (*a, the*), conjunctions (*and, or*) and prepositions (*to, of*) are usually unstressed. Listen to this chant. Every line has the stress pattern oOoO. They have this rhythm because the first and third words are all unstressed. These words are: *some, and, a, of, for, the, to, or, as*.

B80

Shopping list

Some milk and eggs,
A tin of peas,
A snack for lunch:
Some fruit and cheese.

The loaf of bread,
A jar of jam,
Some juice to drink,
A piece of ham.

Some pears or grapes,
Some beans and rice,
A can of beer
As cold as ice!

B

Important
for listening

Listen again to the chant in A. Notice that the vowels in all the unstressed syllables are pronounced the same. This sound is written as /ə/ in the phonemic alphabet (see Unit 7). Also, in fast speech, the consonant sounds after the vowel in these words may not be pronounced. In this case, *and* sounds like *an*, and *of* sounds like *a*. Listen to these examples.

B81

and sounds like *an*:

an apple and an orange and an onion

of sounds like *a*:

a bit of this and a bit of that

You don't need to copy the fast speech pronunciation. People will understand you if you use careful speech. But you need to be able to understand fast speech.

Note: The consonant sound in *of* is not dropped when the following word begins with a vowel, for example *some of each*.

C

The vowel sound in *to* and *the* is different if the following word begins with a vowel. In this case, *to* changes from /tə/ to /tu/, and *the* changes from /ðə/ to /ði/. Listen to the difference.

B82

We need water to drink and food to eat.
I'll have the fish, and the apple pie for dessert.

Exercises

- 37.1 What are the things in the picture? Write them in the correct column according to the rhythm (there are two phrases in each column). Use these words: *bowl, bottle, jar, packet, bag, pot, carton, kilo*. Then say the phrases aloud.

oOoO	oOoOo	oOooO	oOooOo
		A bowl of soup	

- 37.2 In these sentences, both of the words in *italics* are possible and they sound similar in fast speech. Listen and circle the word you hear.

B83

- I had a salad *as* / *and* a main course.
- Give her *an* / *some* egg if she's hungry.
- She went to look *at* / *for* the fruit.
- He gave me a basket *of* / *for* bread.
- Get some pasta *and* / *or* rice.
- I like *the* / *to* cook.
- She ordered *a* / *the* soup.
- Have *some* / *an* orange juice.
- He invited me *at* / *for* lunch.
- He made this jar *for* / *of* jam himself.

- 37.3 Listen and fill the gaps. Then listen, check and repeat. Make sure you keep the same rhythm: oOoO.

B84

EXAMPLE

_____ a _____ glass _____ of _____ milk

- _____ time _____ lunch
- _____ egg _____ chips
- _____ bag _____ nuts
- _____ drink _____ eat
- _____ cook _____ rice
- _____ fast _____ that
- _____ meal _____ two
- _____ box _____ food
- _____ fish _____ meat

- 37.4 Think of a computer which people speak into and it writes what they say. This computer wrote these sentences incorrectly. Write the correct sentences.

EXAMPLE We had beans an rice. We had beans and rice.

- We had a nice cup a tea. _____
- I don't want a go out tonight. _____
- I need a drinker water. _____
- We cook to chicken. _____
- He can't cooker meal. _____
- Have a nice cream! _____
- Come in an sit down. _____

Follow up: Practise saying the chant in A on the opposite page. Tap the table or your foot in time as you say it.

Now go to Unit 57

Pets enter, pet centre

Joining words 1

A

Important
for listening

In speech, words are not separated; they join together. Sometimes it is difficult to know where one word finishes and the next word begins. For example, *pets enter* sounds the same as *pet centre* because the consonant /s/ could be at the end of the first word or at the start of the second word. Listen to the examples. The phrases on the left sound the same as the phrases on the right.

B85

pets enter	pet centre
stopped aching	stop taking
ice-cream	I scream
known aim	no name
called Annie	call Danny
clocks tops	clock stops
missed a night	Mr Knight

Note: The spelling may be different in the two phrases which sound the same. For example, the consonant sound /s/ is spelt S in *pets*, but C in *centre*. The consonant sound /t/ is spelt D at the end of *stopped*, but T in *taking*.

Note: The /h/ is often dropped from the beginning of pronouns, so that *thanked him* sounds like *thank Tim*.

B

Important
for listening

Normally, we know from the context what a word is. For example, these two sentences sound the same, but we know the first one is wrong because it has no sense.

It snow good.
It's no good.

C

Important
for listening

In fluent speech, people join words together. When one word ends with a consonant and the next word begins with a vowel, imagine that the consonant is at the beginning of the next word. For example, say the first line of the chant below as if the words were divided like this:

/gʌ tə pə teɪ/.

Listen to the chant and repeat. The rhythm of each line is the same. The symbol _ shows where the consonant sound joins to the vowel sound of the next word.

B86

Got _ up _ at _ eight,
Got _ on _ a bus,
Went _ into work,
Worked _ until two,
Went _ out for lunch,
Worked _ until six,
Back _ on the bus,
Switched _ on the box*,
Slept _ in _ a chair.
(*box = television)

Exercises

- 38.1 What two words do you get if you move the consonant from the end of one word to the beginning of the next or vice versa? Complete the table. Remember: think about sound, not spelling!

EXAMPLE

cats eyes

cat size

- | | | | | | |
|---------------|---|------------|-----------------|---|-----------------|
| 1 _____ able | ↔ | fell table | 6 an ocean | ↔ | a _____ |
| 2 known you | ↔ | no _____ | 7 stop _____ | ↔ | stopped earning |
| 3 cooks _____ | ↔ | cook steak | 8 escaped error | ↔ | _____ terror |
| 4 seen you | ↔ | _____ new | 9 _____ cheer | ↔ | meant year |
| 5 faced _____ | ↔ | face told | 10 learn chess | ↔ | _____ 'yes' |

- 38.2 Think of a computer which people speak into and it writes what they say. This computer wrote the sentences below incorrectly. Correct the phrases that are wrong using the phrases in the box.

phoned your	joined us	felt rain	no news is	stopped using
ships take	's no good	heard you lie		

EXAMPLE It ~~snow good~~; I can't fix it. 's no good

- Known uses good news, as they say. _____
- Have you phone jaw parents this week? _____
- I've never her July before. _____
- I think I fell train; let's go inside. _____
- These ship steak cars across the river. _____
- They join does for dinner. _____
- We stop choosing the typewriter when we got the computer. _____

- 38.3 Show where you can join a word ending with a consonant sound to a word starting with a vowel sound using this symbol: (there are eight in total). Then listen and practise saying the poem.

B87

There was an old man called Greg,
 Who tried to break open an egg.
 He kicked it around,
 But fell on the ground,
 And found that he'd broken a leg.

Now go to Unit 58

After eight, after rate

Joining words 2

A

When we say the spellings of words or names, we normally join them together in one continuous sound. For example, we say ABC like this: /eɪbi:si:/ (without any pause between the letters). Sometimes we have to add an extra sound to separate vowel sounds. Listen to these examples. The added sound is in small letters.

- B88 URL /ju: wɑ: reɪl/
 AIM /eɪ jaɪ jem/
 BORN /bɔ: jɔ: wɑ: ren/

The same three sounds, /r/, /j/ and /w/, are also added between whole words to separate vowel sounds.

B

Important
for listening

The consonant sound /r/ is used to separate vowel sounds when there is a letter R at the end of the first word. In many accents of English, including Southern British, this final letter R is not pronounced, so the word ends in a vowel sound. For example, the word *after* is pronounced /ɑ:ftə/. But if the following word begins with a vowel sound, the R is pronounced, in order to separate the two vowels. For example, the R is pronounced in *after eight* /ɑ:ftə reɪt/. In this case, the R sounds like it is at the start of the next word, so *after eight* sounds like *after rate*. Listen to the examples.

B89

R not pronounced	R pronounced	sounds like ...
her card	her ace	<i>her race</i>
under sixteen	under age	<i>under rage</i>
after nine	after eight	<i>after rate</i>
four legs	four eyes	<i>four rise</i>
clear skies	clear air	<i>clear rare</i>

Note: Sometimes we pronounce an /r/ to separate vowel sounds even if there is no R in the spelling. For example *saw Alice* can be pronounced /sɔ: ræɪlɪs/.

'I saw her race.'

'I saw her ace.'

C

Important
for listening

The sounds /j/ and /w/ can also be pronounced to separate vowel sounds.

- If the first word ends in a vowel sound like /ɪ/ and the next word starts with any vowel sound, we add the sound /j/ (Y).
- If the first word ends in a vowel sound like /u:/ or /ɔ:/ and the next word starts with any vowel sound, we add the sound /w/ (W).

Listen to the examples. Notice that /j/ or /w/ is pronounced even when there is no Y or W in the spelling.

B90

no /j/ or /w/ pronounced	/j/ or /w/ pronounced	sounds like ...
every toe /evri tɔ:/	every ear /evri <small>j</small> ɪə/	<i>every year</i>
he saves /hɪ seɪvz/	he earns /hɪ <small>j</small> ɜ:nz/	<i>he yearns</i>
you drank /ju: dræŋk/	you ache /ju: <small>w</small> eɪk/	<i>you wake</i>
you hurt /ju: hɜ:t/		

Exercises

39.1 Spell out these names. If possible, record yourself. Then listen to the recording and compare it with yours.

B91

- 1 TOM
2 BEN
3 ERIN

- 4 TANIA
5 ROSIE

39.2 In these pairs, the first and second word are joined with the phonemic letter shown. Read them aloud, then say them again, this time reversing the order of the words, so that a different sound joins the first and second word. You don't have to write anything. Then listen and check.

B92

EXAMPLE two ^w or three three ^j or two

- 1 grey ^j and blue
2 you ^w and me
3 where ^r or why
4 you ^w or her
5 here ^r or away

39.3 The word *rise* is 'hidden' in this sentence: *Her eyes are open.* It is the underlined part. This is clear if we look at the phonemic spelling. The word *rise* is /raɪz/. You can see this underlined in this phonemic spelling of the sentence: /hə'raɪzərəʊpən/. The words in the box are 'hidden' in the sentences below. Find them and underline them, and write the hidden word after the sentence.

wait rage winter ~~yours~~ reach years why rise ride wake

EXAMPLE The boat's useless without the oars. yours

- 1 Are you into golf?
- 2 He has hair over the ears.
- 3 It's starting to ache.
- 4 I'm not sure I'd agree with you.
- 5 She has a shower each morning.
- 6 It's quarter to eight already.
- 7 Do I owe you anything?
- 8 Her eyes are a strange colour.
- 9 You should know better at your age!

B93

Now listen to the sentences. Can you hear the 'hidden words'?
Try saying the sentences, making sure you pronounce the hidden words.

Now go to unit 59

Greet guests, Greek guests

Joining words 3

A

Important
for listening

When one word ends with a consonant sound and the next word begins with a consonant sound, the first consonant sound is often changed. For example, *greet guests* sounds the same as *Greek guests* because the T in *greet* and the K in *Greek* are both pronounced like /g/. This is because of the influence of the /g/ in the following word, *guests*.

B

Important
for listening

The sounds which most frequently change when they are at the end of a word are /d/, /t/ and /n/. They can change so much that the word sounds like another word. Listen to these examples:

I've got a bad cold. (*bad* sounds similar to *bag*)

We had a bad year. (*bad* sounds similar to *badge*)

They shot bears. (*shot* sounds similar to *shop*)

They shot cats. (*shot* sounds similar to *shock*)

What's your son called? (*son* sounds similar to *sung*)

My son made this. (*son* sounds similar to *sum*)

The consonants /d/ and /t/ may disappear completely when the next word starts with a consonant. For example, in the phrases below, the verb may sound as if it is in the present tense.

asked questions *mixed paint* *boiled carrots* *used power*

Note: We can usually tell what a word is from the context. For example, in the sentence *I sat in the waiting room and dig crosswords*, the word before *crosswords* sounds like *dig* but we know from the context it must be *did*.

Exercises

40.1 The underlined word in each sentence sounds like one of the words in the box. Match them. Then listen and check.

B95

EXAMPLE torch / talk

talk / torch a I taught classes this morning. talkb You taught yourself French. torch

1

sum / sung a The sun burnt my neck. _____b The sun came up over the mountains. _____

2

beak / beach a I can't beat you at this game. _____b I can beat Carol at tennis. _____

3

coke / coach a I can't get this coat clean. _____b Is this the coat you bought? _____

4

cheap / cheek a They cheat quite a lot. _____b They cheat people out of their money. _____

40.2 Think of a computer which people speak into and it writes what they say. This computer wrote these sentences incorrectly. Listen. Guess from the context which word is wrong, circle it and write the correct word.

B96

EXAMPLE Watch your name? What's

1 I hate going to museums and arc galleries. _____

2 Have you ever tribe Belgian beer? _____

3 I got ache questions correct out of ten. _____

4 She's a good player and can wing games against most people. _____

5 He copied out the text lime by line. _____

6 It was a bag question; nobody got the answer right. _____

40.3 You will hear sentences with one of the two beginnings given. Listen and complete the correct sentence. Put a - in the other space.

B97

EXAMPLE

He put the soup back in the DAN.He put the suit back in the -.

1 I got this cut by _____.

I got this cup by _____.

2 I'll have to warn my _____.

I'll have to warm my _____.

3 Her heart broke when _____.

It's the last term before _____.

Now go to Unit 60

Could you say that again?

Understanding conversation

A

C1

Important
for listening

Listen to this conversation. What is the cause of the misunderstanding?

- A: I've just got this one bag.
 B: Wow! Do you always travel so light?
 A: Yeah, Can't stand the wait, you know, at the airport ...
 B: Yeah, I know. My bag's really heavy. But it's got wheels, so I don't have to carry it.
 A: No, I mean the waiting, you know, waiting for your cases to come out on the belt.

The speakers pronounce all the words clearly but there is a misunderstanding because the words *weight* and *wait* have the same pronunciation. When Speaker B says *heavy*, Speaker A knows he understood *weight*, not *wait*, so she corrects the misunderstanding.

In conversation, we need to know when communication is going wrong, and then correct it.

B

C2

Important
for listening

When we don't understand what someone says in a foreign language, we often think it is because we don't know the language well. But often it is not our fault. Listen to this man from London. Do you understand what he is saying?

It leaves at free forty-five this afternoon.

There are many different accents in English. In this accent, *three* sounds like *free*. In this example, you can probably guess from the context that he is saying *three* forty-five. The context often helps us understand what people are saying.

C

Important
for listening

We can't always guess from the context. Sometimes we need to ask questions in order to understand. Remember these ways of asking.

- 1 Sorry, I don't understand.

- 2 How do you pronounce this?

- 3 Could you repeat that?

- 4 My name's //fivɔ:n/.

How do you spell that?

Exercises

- 41.1 In each of the sentences below, one of the words is written wrongly. It is written wrongly because that's what it sounds like in the accent of the speaker. All the accents are different from standard, British English. Listen and guess from the context which word is written wrongly and correct it.

C3

EXAMPLE She's a ~~rid~~er of romantic novels. writer

- 1 Read about it in the noose papers. _____
- 2 She went to hospital 'cause she had art problems. _____
- 3 We watched TV and den we went to bed. _____
- 4 I want to tank you for your help. _____
- 5 They were jailed for robin a bank. _____
- 6 With a bit of look, we'll win this game. _____
- 7 Can you old the umbrella while I get my keys out? _____

- 41.2 Listen to these dialogues and fill in the missing words. Then listen again and say B's lines.

C4

1

A: Can I help you?

B: Yes, I'd like to see... I'm sorry, _____
do you pronounce this name?

A: O'Shaughnessy. Doctor O'Shaughnessy.

B: Yes, I'd _____ to see Doctor
O'Shaughnessy, please.

2

A: My name's Mark.

B: _____, Mike, you say?

A: No, Mark. M-A-R-K.

B: Oh, I see. You don't _____ the R?

A: No, not in my accent.

3

A: My surname's Vaughn.

B: Sorry, could you _____ that, please?

A: Vaughn.

B: Vaughn? How do you _____ that?

A: V-A-U-G-N.

B: Oh yes, I've seen that name before!

- 41.3 Listen. Reply to each sentence you hear using one of the expressions below. Number the expressions in the order you use them.

C5

_____ Sorry, could you repeat that, please?

_____ Sorry, I don't understand.

_____ 1 _____ How do you pronounce that?

_____ Can you speak more slowly, please?

Now go to Unit 2

'Was that the question?' he asked.

Reading aloud: 'pronouncing punctuation'

- A** **C6** Listen to this text. Notice that in speech there are pauses where, in writing, there are punctuation marks.

I can never guess the weather right. If I wear a warm shirt, the weather's hot. If I wear cool clothes, there's a cold wind. When I don't take my umbrella, it rains. If I take my umbrella, does it rain? Of course not! Then I leave it on the bus! Oh well. We all have our weaknesses, I guess!

! Note: Reading aloud is good pronunciation practice. Don't forget to 'pronounce the punctuation'.

- B** **C7** Pauses can change the meaning of what we say. Listen to these pairs of sentences and note the difference in pronunciation.

- a It was cold outside. There was snow on the ground.
 b It was cold. Outside, there was snow on the ground.
- a Was that the question he asked?
 b 'Was that the question?' he asked.
- a I got up, quickly got dressed, and went downstairs.
 b I got up quickly, got dressed, and went downstairs.

- C** **C8** We need to use pauses to give us time to think, and to give the listener time to take in the information. Listen to this address and note that there are pauses where there are line breaks and where there are gaps in the telephone number. Notice also that when the speaker spells her surname and email address, she divides the letters into groups.

 email: linwar@applegroove.com

! Note: Practise saying the spelling of your own name. Decide how you will group the letters, if your name is long.

Exercises

- 42.1 Read this weather forecast aloud, 'pronouncing the punctuation'. Record yourself if you can. Then listen and compare.

And for Friday, well, another wintry day in all parts of the region. Temperatures near freezing in many places, and along the coast, the wind will make it feel very cold indeed. Inland, some snow on the hills, and there may be fog in the valleys. If you're out and about driving, watch out for those icy roads! And for the weekend? Well, we're not expecting much change, I'm afraid. And that's all from me. Goodnight.

- 42.2 The texts below are really two sentences, but the punctuation is missing. The two sentences are divided *before* or *after* the underlined expression. Listen and draw one line / to show where the sentences are divided.

EXAMPLE They're leaving / soon it'll be quieter.

- 1 There was nothing inside it was empty.
- 2 We walked carefully downstairs it was dark.
- 3 I watched him silently he opened the drawer.
- 4 The rain didn't stop the next day it just carried on.
- 5 The weather was hot at the weekend it was 40 degrees.
- 6 I saw her clearly she was hungry.
- 7 It was cold last night the roads were icy.

Follow up: Read the sentences above aloud, once with the sentence break *before* the underlined expression, then again with the sentence break *after* it.

- 42.3 Listen and write the name, address and contact details that you hear.

Name: _____

Address: _____

Postcode: _____

Telephone: _____

email: _____

Follow up: Read out the information you wrote above. Try to put the pauses exactly where they were in the recording you heard. Then listen again and compare.

- 42.4 Say your own name, address and contact details. Record it if possible.

Now go to Unit 3

A shirt and a tie / a shirt and tie

Grouping words

- A** **C12** Listen to the underlined phrase in these two sentences. Notice that in the first one, the speaker pauses after the word *shirt*, so the words are divided into two groups. The line / shows where they are divided. The second phrase is pronounced all as one group.

I bought a shirt / and a tie.

He was wearing a shirt and tie.

The speakers group the words differently because the first speaker thinks of the shirt and tie as separate things, and the second speaker thinks of them as things that go together in a group.

- B** **C13a** Listen to this sentence. Notice that the speaker divides it into groups. In each group, the words are pronounced all joined together like one long word.

I bought a nice new jacket / with a zip down the front / and a lot of pockets.

There is no rule about where to divide words into groups, but it must make sense. If the word groups don't make sense, it is very hard to understand.

- C13b** Listen to the same sentence again, but this time divided *badly*. Notice how strange it sounds.

I bought a nice new / jacket with a zip down the / front and a lot of pockets. X

- C** **C14** Listen to this woman. She is remembering the uniform she had at school. Listen to how she divides her words into groups. This is shown here by the / lines.

... I remember / we had this school uniform / and it was like all dark brown / a dark brown skirt and jacket / and a white blouse / and we had to have black shoes / and the skirt had to be below the knees / and we all hated this uniform / so we tried to change it / things like / you know / use a belt to bring the skirt higher / or eh! ... whatever / and we weren't allowed to have earrings / but we wore them anyway / outside the school / and then took them off / when we walked in ...

- !** **Note:** When you are speaking, you often have to pause to think (or breathe!). Put the pause in the break between two groups of words. If you put the pause in the middle of a group of words, it will make you difficult to understand.

Exercises

- 43.1 Look at the two ways of dividing the sentences below. For each pair of sentences, cross out the one where the grouping does not make sense.

EXAMPLE

a ~~I bought a ticket and got / on the train.~~

b I bought a ticket / and got on the train.

1 a It was a small car / with a red stripe along the side.

b It was a small car with a red / stripe along the side.

2 a Do you want chicken and chips / or fish and salad?

b Do you want chicken / and chips or fish and salad?

3 a Derek can wear the most / expensive suit but he never looks smart.

b Derek can wear the most expensive suit / but he never looks smart.

- 43.2 Here are some sentences giving advice on what clothes to take on different kinds of trip. Divide the sentences using a line (/) over *one* of the gaps. Choose the gap which makes the best sense. Then listen and check.

EXAMPLE A hot place which gets cold in the evenings:

Take shorts and T-shirts / and long trousers and a sweater for the evenings.

1 A ski resort:

Take your boots and ski suit and a dress and some nice shoes for the evenings.

2 A sunny place which sometimes has rain:

Take a hat and sunglasses and T-shirts and an umbrella in case it rains.

3 A business trip with a weekend off in the middle:

Take a smart suit and a shirt and tie and some casual clothes for the weekend.

4 A sightseeing holiday with a few days on the beach at the end:

Take your camera and some good walking shoes and a towel and bathing costume for the beach.

- 43.3 Listen and draw lines (/) showing where the speaker divides the words into groups.

C16

A man wanted to buy his wife a new dress because it was her birthday so he went to a department store and looked around and he was looking for about an hour but he couldn't decide and finally this shop assistant came and asked if he needed help he said he was looking for a dress and the shop assistant asked is it for you sir?

Now go to Unit 4

Ehm ...

Showing that you want to continue

A **C17** Listen to this short conversation. The lines of six dots (:::) means that the speaker is making the word before the dots longer.

A: What did you think of the music?

B: Well, it was::: interesting.

B needs time to think of the best word to describe the music. She makes the word *was* longer to show A that she is still in the conversation. If she paused for all that time, A might think she was not going to answer.

B We often say noises like *ehm* to keep our speaking turn while we are thinking of what to say or doing something else. In the example below, B says it to keep his speaking turn while he looks at his watch.

A: *What's the time?*

B: *Let's see, it's ehm::: nearly seven.*

! **Note:** You can use noises like *ehm* to 'buy time' when you are speaking English and you need time to think of a word. If you are silent, the other person may think you have finished and start talking.

C **C18** Listen to this conversation. A and B have started a web site and they are thinking of having some music on it. They are trying to decide what kind of music to have. Both speakers use (:::) often to keep their speaking turns. Notice how they keep their voices on the same level when they say the word before the pause (:::) but their voices go down at the end of their speaking turns (shown with a full stop below).

A: Ehm:::, I don't know, I think it's a bit ehm::: sort of::: well, like the music you get in supermarkets or in ehm::: in hotel lifts and places like that.

B: Yeah, I know what you mean, but ehm::: I mean, if we have something stronger like ehm::: well, you know, blues ::: or modern jazz or whatever, well, somebody'll hate it.

A: Yeah right, so::: maybe we shouldn't have any music.

B: Yeah well::: but ehm::: but I think everyone expects it these days.

A: Absolutely! So let's be different!

B: Well, OK::: or::: or we could have something classical?

! **Note:** It is very common for speakers to start their speaking turn by agreeing with what the other person said. Look in the conversation above, for example. At the start of their turns, the speakers use expressions like: *Yeah, I know what you mean* *Yeah, right* *Absolutely* *Well, OK*.

Exercises

- 44.1 In all of these conversations, B is doing something else at the same time as speaking. Guess which of these things B is doing and write it. Then listen and check.

C19

doing a mental calculation looking in a wallet ~~writing the numbers down~~
 checking in a personal diary looking in a business appointments book

EXAMPLE A: My phone number's 067 3786.

B: Just a moment, so that's::: 0::: 6::: 7::: 3::: 7::: 9:::

A: No, 8. It's 3786.

B: Ah, OK, 8::: 6.

B is writing the numbers down.

1 A: Hi! I have an appointment to see Ms Jones.

B: Yes, so you must be Mr::: Mr Gleason?

A: Yeah, that's right.

B is _____

2 A: It's just over fifty pounds.

B: Right, so that's ehm::: about 70 dollars?

B is _____

3 A: Let's meet on Thursday.

B: Let's see, Thursday::: Thursday::: Yes, Thursday, that's fine.

B is _____

4 A: Can you change this ten for two fives?

B: I think so, let's see, ehm::: yeah, sure. Here you are.

B is _____

Follow up: Listen and repeat B's lines (including the long sounds).

- 44.2 Listen to these sentences. Does the person want to keep the speaking turn (write ●●●) or has he/she finished (write ●)?

C20

EXAMPLE I like all kinds of music really, you know, ehm::: rock and roll ●●●

1 I don't really have much time to ehm::: to listen to music

2 Yeah, I love Brazilian music, people like Gal Costa

3 She plays quite a lot of instruments, piano, guitar

4 Dad's really into classical music, you know, specially Mozart

5 I started the piano when I was, let's see, ehm::: fifteen

- 44.3 You will hear a girl telling a story. She uses *ehm* a lot. Write down what she says without the *ehms*.

C21

I didn't go to the concert because _____

Now go to Unit 5

Well, anyway ...

Telling a story

A

C22

Important
for listening

Two words you will often hear in conversation are *anyway* and *well*. Listen to the conversation below. Notice that *anyway* and *well* are often said in quite a high-pitched voice.

- A: I nearly got arrested, you know, the other day.
- B: You what ... arrested? What do you mean?
- A: **Well**, I'm doing this project on graffiti, you know, at college, and ehm ... so I have to take lots of photos of graffiti and ...
- B: Uh huh.
- A: So **anyway**, I saw this train with some amazing graffiti on the side, so I went there to ehm ... take a photo of it. The thing is, it was a bit far from the platform ...
- B: So what happened?
- A: **Well**, I walked along next to the lines, and then these two ehm ... station police came along and said I shouldn't be there, so ehm ... they took me to the office, and then they asked for my ID card, you know, my identity card ...
- B: Mmm?
- A: **Well**, I didn't have it. I left it at home that day.
- B: Oh no!
- A: Yeah, so **anyway**, then they didn't know what to do with me, so ehm ... I said, 'Look, I'll leave my camera here and I go home to get my ID card.' In the end, they agreed, so I did that, and they ehm ... wrote my ID number, and then just let me go ...

In the conversation above, A uses *anyway* to show that she is moving on to the next part of the story. In this context, it is usually pronounced in a high voice. Notice that before the word *anyway*, the speaker is not moving the story on, she is just giving some background information. *Anyway* shows she is returning to the story.

In the conversation above, A uses *well* to show that she is responding to B's questions. In this context, it is usually pronounced in a high voice.

B

Important
for listening

In the conversation above, notice that the listener, B, is not silent. He asks questions. He also encourages A to continue by making noises like *uh huh* and *mmm*. Listen again, and notice that he makes these noises in a low-pitched voice. He does this to show that he does not want to speak, he wants A to continue speaking.

Exercises

- 45.1 Listen and answer the questions. Listen for the word *anyway*, because the important information comes *after* it. Before it, the speaker is just giving background information.

C23

EXAMPLE

What did the speaker see on the way home from work? *He saw an accident.*

- 1 What happened to Katy the other day?
- 2 What did the old man do in the bar?
- 3 What is the good news about Clara?

- 45.2 Fill the gaps with the words *well* or *anyway*. Then listen and check.

C24

A: I wonder what happens if you lose your passport.

B: I lost mine once.

A: So what happened?

B: (1), I was abroad, just travelling around, you know, and (2), somebody stole my bag on the last day.

A: So what did you do?

B: (3), I reported it to the police, which took absolutely ages – so many forms to fill in, and (4), they gave me a special travel document and then when I arrived home ...

Follow up: Listen to the conversation again and say B's lines.

Now go to Unit 6

I mean, it's sort of like ...

Understanding small talk

A C25

Important
for listening

Listen to this conversation. Note that the expressions in black do not really have any meaning; you could easily understand the text without them.

Notice that the speakers say them very fast, often in a low voice: they are 'throw away' words, i.e. you could throw them away and the meaning wouldn't change.

A: Ugh! This coffee is really horrible!

B: Yeah, I know. Machine coffee, **I mean**, why do we drink the stuff?

A: It's **sort of like** ... someone puts the contents of an ashtray in water and **ehm** ... **like**, heats it up or something, **you know** ...

B: Yeah, that's what it tastes like, ... and ... **I mean**, have you tried the **ehm** ... the tea?

A: Oh yeah, the tea! That's even worse!

B: **I mean** the plastic cups don't help, do they?

A: No, I know, ... plastic cups! ... **We like** even had champagne in plastic cups, **you know**, at what's-her-name's leaving party ...

B: Jenny. Jenny Glen. Yeah, I remember that, last January it was ...
I **kind of liked** Jenny. I wonder what she's doing now ...

B

Important
for listening

Different people often have their own favourite 'throw away' words. For example, in the conversation above, A says *like* and *you know* a lot and B says *I mean* a lot.

Note: When you are listening, you don't need to understand every word. Often, the things people say really fast are just 'throw away' words, and you can ignore them.

C C26

Important
for listening

The same expressions which people use as 'throw away' words *do* have meaning in other contexts. In all the sentences on the left below, the expressions in black have meaning. In the sentences on the right, they are 'throw away' words.

Listen and notice the difference in pronunciation: the 'throw away' words are said faster and in a low voice.

Tell me everything **you know**.

'Blue Mountain' is a **kind of** coffee.

We **like** to go away at weekends.

I **mean** the one on the right.

She tells me everything, **you know**.

'Blue Mountain' coffee is **kind of** nice.

We **like** go to the beach or whatever.

I **mean**, what's the point of buying one shoe?!

Exercises

- 46.1 You will hear someone speaking about the weather in Montana (in the USA) with a lot of 'throw away' words. Write what the person says, but miss out the 'throw away' words.

C27

.....

.....

.....

.....

.....

.....

.....

.....

- 46.2 You will hear four people speaking. What are their favourite 'throw away' words? Write them after the name.

C28

Speaker 1: Frank I mean

Speaker 2: Debbie _____

Speaker 3: Kimberly _____

Speaker 4: Greg _____

- 46.3 Underline the 'throw away' words in this text. There are nine more expressions to underline.

We don't like have coffee breaks, I mean we just like get a coffee or tea and sort of like take it back to our desks, you know, but it's kind of dangerous 'cause, I mean, people sometimes like knock the drink over the computer, you know.

Follow up: Read the text aloud, saying the underlined expressions fast and in a low voice. Record yourself if possible.

- 46.4 Listen to these sentences. Is the expression in *italics* 'throw away' (said fast and in a low voice) or not? If it is 'throw away', underline it. Note that the punctuation is not written, so you must decide from the pronunciation.

C29

- 1 I don't think these are the men *you know*
- 2 I've taught you everything *you know*
- 3 Do you know the place *I mean* it's just over there
- 4 She's not the one *I mean* she's too tall
- 5 They're *like* wild animals
- 6 This is *like* Arctic weather

Now go to Unit 7

Right, OK ...

Understanding instructions

A

C30

Important
for listening

When listening to instructions, listen for the signals *right*, *now* and *OK*, which tell you that you are moving on to the next step. In the conversation below, B is giving A instructions on how to do something on a computer. B uses the words *right*, *now* and *OK* to signal that she is starting a new step in the instructions. Listen and notice that these words (in black below) are said in an emphatic voice.

A: How do you copy bits of text off a document?

B: **Right**, well first you have to ehm ... select the bit of text you want, you know, just click and drag with the mouse ...

A: Oh, so it's just click and drag?

B: Yeah, and the bit of text comes up in a different colour, yeah?

A: Uh huh, a different colour ...

B: **Now**, click 'Edit' and choose 'Copy' ...

A: Edit ... Copy ... OK ...

B: **OK**, and finally, open your document and click 'Paste'.

A: Open document ... Paste ... Oh, I see.

B

C31

Important
for listening

The words *right*, *now* and *OK* are used in other contexts, apart from as a signal to the next step. In these other contexts, they are often not pronounced so strongly. Listen and compare the difference.

Close the box ... that's **right**. **Right**, now you can close the whole program.

I think we're on line **now**. **Now**, type the address in the box at the top.

Now look at the whole page and see if it looks **OK**. **OK**, now you can print!

C

Important
for listening

Listen again to this line from the conversation in A. Notice that the speaker pronounces *Oh* in a high voice.

Open document ... Paste ... Oh, I see.

The speaker uses the word *Oh* to signal that he has learnt something new.

Exercises

- 47.1 Listen to the instructions and complete this picture. First you will hear instructions to draw the line and square below. Then you will hear more details to add.

- 47.2 Listen to the instructions for 47.1 again and write a number each time you hear one of the words *right*, *now*, *OK*. Write the numbers at the start of each line below. Then write the instruction after each number.

1 *Take a piece of paper and a pen.*

2 *Draw a line across the page.*

.....

.....

.....

.....

.....

.....

Follow up: Give the instructions, but don't say the numbers, say *right*, *now* or *OK* instead. Record yourself if possible.

- 47.3 Listen to these instructions. Is the expression in *italics* a signal to a new step in the instructions (said in a high voice) or not? If it *is* a signal, underline it. Note that the punctuation is not written, so you must decide from the pronunciation.

EXAMPLE Click on that icon now the program is opening *right* now start a new document

- 1 Check that everything looks *right* and then send it
- 2 Click here so you get a new page *OK* and now write the title at the top
- 3 Make sure you save that *OK* and now close the program
- 4 You will see the icon on the *right* of your screen
- 5 Open the program *right* and now start a new document
- 6 I think it's ready *now* you can switch it on

Now go to Unit 8

'Like father like son' as they say

Quoting speech

A

C34

Important
for listening

Listen to two people having a conversation about a neighbour's son. Notice how they pronounce the quote marks (' ').

A: I said to Terry, I said, 'Can you open the door for me?' and he says, 'Open it yourself!'
Can you believe it!

B: I know. That boy's so rude! I said to his father, I said, 'You should do something about that boy,'
and do you know what he said to me? He said, 'It's none of your business.'

A: Oh, he's just as bad as Terry. 'Like father like son' as they say!

B

Important
for listening

The speakers show the quotes by putting a short pause before and after. Also, their voice is higher on the quotes. Listen to recording C34 again.

I said, 'Can you open the door for me?' and he says, 'Open it yourself!'
'Like father like son'
as they say.

C

C35

Important
for listening

Listen and compare these lines. Notice how you can hear the quote marks (' ').

Do you know what he said to me?

'Do you know what?' he said to me.

I said to his father, 'I said you should do something.'

I said to his father, I said, 'You should do something.'

D

C36

Important
for listening

Listen to this story. Notice that we may pronounce quote marks for written words or thoughts, not just speech.

Question one was 'What's the capital of Australia?'

'This is easy,' I thought, so I wrote 'Sydney'. Then when

I got home I looked in a book. 'Australia' it said,

'Capital: Canberra.' 'Oh no,' I thought. 'Failed again!'

Exercises

48.1 Listen. Which do you hear first and which second? Write 1 or 2 after each sentence.

C37

EXAMPLE a 'You're an idiot, that's what,' she said. 2

b 'You're an idiot', that's what she said. 1

1 a What she said was good.

5 a I don't know what I thought.

b What she said was 'Good!'

b 'I don't know what,' I thought.

2 a He said, 'Linda was married.'

6 a She says, 'What she thinks is right.'

b He said Linda was married.

b She says what she thinks is right.

3 a That's the thing she said.

7 a 'Who?' wrote Julius Caesar.

b 'That's the thing,' she said.

b Who wrote *Julius Caesar*?

4 a He wrote a letter to the president.

8 a Who said 'Martin'?

b He wrote 'A letter to the president'.

b 'Who?' said Martin.

Follow up: Record yourself saying one of the sentences, a or b, for each number. Make a note of which one you chose. Then listen to your recording again in about two weeks and try to do this exercise with it.

48.2 This speaker is telling some gossip. Put the quote marks (' ') in the text. (Don't worry about other punctuation or capitals.) Then listen and check your answers. Then try saying it yourself.

C38

So I say to Claire 'where's David, Claire?' and she says oh, he's staying at home to do his homework, and of course I thought oh no he's not! because I saw him, you see, going into the café with Lorraine and I said hi David! and he went completely red, and Lorraine said we're doing a school project together, and I thought oh yes, I know what kind of project that is!

Now go to Unit 9

He will win

Introduction to emphatic stress

A

Short sentences have a typical sentence stress, or rhythm. (See Unit 23.) For example:

He won't win! oOO (The sentence has three syllables, and there is stress on the second and third.)

He'll win! oO (The sentence has two syllables and there is stress on the second.)

B

But in conversation, speakers can choose to put the stress in any place. This is like underlining words in writing: we do this to put emphasis on words. Here are the same two examples from A again, but this time they are in the context of a short conversation. Notice the way the speakers 'underline' some words.

A: He'll win, you know.

B: He won't win!

A: He will win!

In this example, the speakers do not agree with each other. B 'underlines' won't to show that he is saying the opposite of what A said. Then A 'underlines' will for the same reason. Note that the written form also changes, from 'll to *will*.

C

C39

To 'underline' a word, a speaker does one or more of these things: a makes it louder, b makes it longer, c makes it higher. Listen to this conversation. It shows the 'underlining' very clearly.

A: He won't win.

B: Who won't?

A: He won't.

B: He will win.

A: He won't win.

B: He will!

A: He won't!

B: I hope he wins.

A: I hope he loses.

B: He won't lose.

A: He will lose.

B: You're wrong!

A: You're wrong!

B: He's won!

A: Who's won?

B: He's won!

A: Oh no!

We emphasise words for example when we want to make a contrast with what the other person says, or correct some wrong information. (Units 50 to 53 give more detail on this.)

Exercises

49.1 Write three different ways to disagree with each of A's sentences, and underline the words you would put emphasis on. Then listen, check and repeat.

C40

EXAMPLE

B: No, I'll win! (opposite subject)A: I'll win. B: You won't win! (negative)B: No, you'll lose! (word with opposite meaning)

1 B: No, _____ (opposite subject)

A: I finished first. B: No, you didn't _____ (negative)

B: No, you _____ (word with opposite meaning)

2 B: No, _____ (opposite subject)

A: You're stupid! B: I'm _____ (negative)

B: No, I'm _____ (word with opposite meaning)

49.2 Read this conversation. Guess which words the speakers will 'underline' for emphasis and underline them in the text. You are told which lines have no underlining. Then listen and check.

C41

A: I won't pass. (no underline)

B: You will pass.A: You'll pass.

B: I don't know. (no underline)

A: You won't fail.

B: I might fail.

A: I will fail.

B: The exam's not hard. (no underline)

A: It's very hard.

B: But not too hard.

A: Too hard for me.

B: But you're very clever! (no underline)

A: You're the clever one.

B: Yes, I suppose you're right. (no underline)

Follow up: Listen to the conversation again and repeat B's lines. Remember to 'pronounce the underlining'.

Now go to Unit 10

Schwartz ... Pedro Schwartz

Emphasising added details

A

C42 Listen to the way the speaker 'underlines' certain words in this text.

My name's Schwartz ... Pedro Schwartz.
 I'm from Chile ... the South of Chile.
 I live in Puerto Montt ... well, near Puerto Montt.
 Actually, I live on an island ... an island called Chiloé.
 My grandparents were German ... well, Swiss-German, in fact.

In the first line, both phrases contain the name *Schwartz*. In the first phrase, the speaker 'underlines' this word because it is new information. But in the second phrase, he doesn't, because now it is old information. The new information in the second phrase is *Pedro*, so the speaker 'underlines' this.

NEW

OLD

My name's Schwartz ... Pedro Schwartz.

NEW

B

C43 Above, the same speaker gives information and then adds new details. But in a conversation, one speaker can give information and *the other* can add new details. In both cases, the speaker 'underlines' the added detail. Listen to this example.

A: I hear you've got a boat.
 B: A small boat, yes.
 A: And a big house.
 B: Well, it's quite big, I suppose.
 A: And you live in Hollywood.
 B: Well, near Hollywood, yes.
 A: So you must be rich then?
 B: Well, quite rich I guess.

C

C44 Listen to these two short conversations. A's question shows that she doesn't know anything about where B comes from. C's question shows that she knows he comes from India, so when B says *South India*, he 'underlines' South because this is added information.

A: Where are you from?
 B: South India.
 C: Which part of India are you from?
 B: South India.

Exercises

- 50.1 Use the words from the box to add details to the sentences below. Underline the added detail. Say your sentences out loud.

ear plastic James French very central

EXAMPLE

It's a radio ... a car radio

- 1 It's cold ... 4 It's in Asia ...
 2 It's a bag ... 5 He's a composer ...
 3 My name's Bond ...

- 50.2 Listen and underline the words which B 'underlines' with her voice.

C45

- A: It's very quiet.
 B: Too quiet.
 A: I think something's wrong.
 B: Very wrong.
 A: I don't like it.
 B: I don't like it at all.
 A: Let's get out of here.
 B: Let's get out fast!

Follow up: Listen again and repeat B's lines.

- 50.3 The answers to the pairs of questions a and b below are the same, but the speaker puts stress on a different word in each answer. For example, in the answer to Example a, the speaker puts stress on the word 'Vettori' but in b, she puts stress on the word 'Clara'. Read the other questions and underline the words the speaker will put stress on. Then listen and check.

C46

- | | |
|---|---|
| EXAMPLE a What's your name?
Clara <u>Vettori</u> . | b What's your full name, Ms Vettori?
<u>Clara</u> Vettori. |
| 1 a Do you live in Milan?
Near Milan, yes. | 1 b Do you live near Milan?
Near Milan, yes. |
| 2 a What do you do?
I'm a graphic designer. | 2 b What kind of designer are you?
I'm a graphic designer. |
| 3 a Do you have your own home?
Yes, a very nice flat. | 3 b Do you have a nice flat?
Yes, a very nice flat. |
| 4 a What do you do in the evenings?
Well, I'm learning French. | 4 b Do you speak French?
Well, I'm learning French. |
| 5 a Do you know London?
Yes, I lived there for a year. | 5 b You lived in London, didn't you?
Yes, I lived there for a year. |
| 6 a Do you have any brothers or sisters?
Yes, two brothers. | 6 b You have some brothers, don't you?
Yes, two brothers. |
| 7 a What kind of music do you like?
I like jazz and classical. | 7 b Which do you prefer, jazz or classical?
I like jazz and classical. |

Follow up: Play the recording again and repeat the answers.

Now go to Unit 11

I think you're in my seat

Emphasising important words

- A** C47 Listen to this conversation. Notice that the speakers 'underline' the words which are most important in their argument.

A: Excuse me, I think you're in my seat.

B: Sorry, but it says 7A on my boarding card.

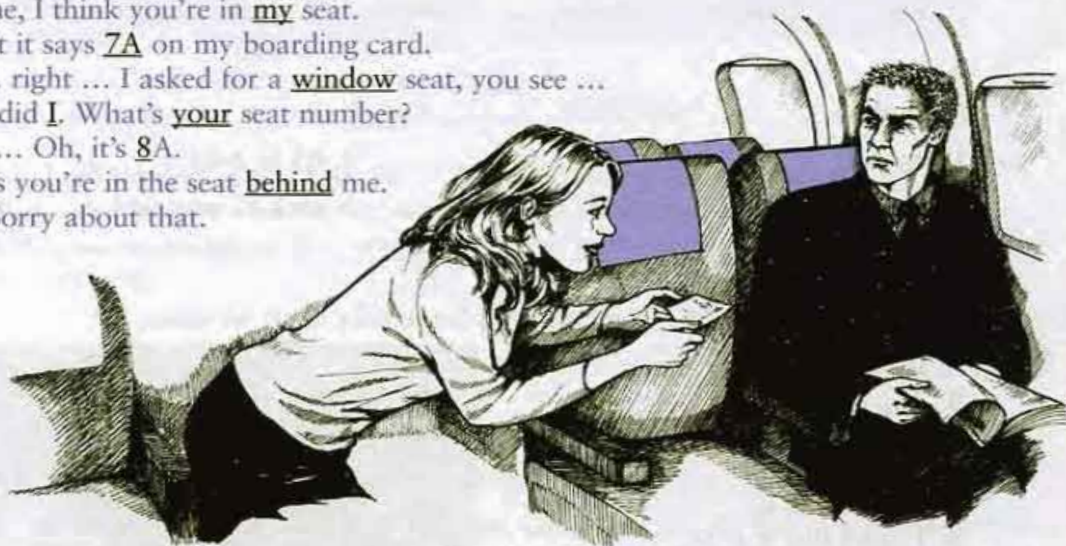

A: Oh, er ... right ... I asked for a window seat, you see ...

B: Yeah, so did I. What's your seat number?

A: Let's see ... Oh, it's 8A.

B: So I guess you're in the seat behind me.

A: Oh yes. Sorry about that.

- B** C48 Listen to this conversation. Notice how the speaker 'underlines' a different word in her second request. In the first request, what is important is *what* the passenger must do. In the second request, it is *when* he should do it.

A: I'm sorry, but you must switch that off, sir.

B: OK, just a minute.

A: Switch it off now, please!

- C** C49 The word which is more important depends on the context. Listen to these sentences. Notice that the speaker 'underlines' different words in the different contexts.

Sentence

Could I have a glass of water too, please?

Could I have a glass of water too, please?

You have to check in at five.

You have to check in at five.

Context

A passenger asked the stewardess for a tomato juice and wants water too.

A passenger asked for water and now the next passenger is asking for the same.

A travel agent is telling a customer the check-in time.

You are talking to your friend who is worried because she thinks her flight is at five and she could miss it.

Exercises

51.1

CS0

In each of these conversations, A has to repeat the request, but 'underlining' a different word. Which word? Underline one word in the third line of each conversation. Then listen and check.

EXAMPLE A: Can I have a donut?

B: What do we say, Benny?

A: Can I have a donut, please?

1 A: A black coffee, please.

B: Sorry, do you want milk with your coffee?

A: No, a black coffee please.

2 A: What's your nationality?

B: Well, my wife's an American citizen.

A: Yes, but what's your nationality, sir?

3 A: What time is it?

B: Well, the clocks changed last night ...

A: So what time is it then?

Follow up: Listen again and repeat A's lines.

51.2

CS1

The sentences in the contexts a and b below are the same, but with different pronunciation. You will hear each sentence twice, once for context a and once for context b. Listen and decide which you hear first, context a or context b. Write 1 and 2 in the boxes.

EXAMPLE

a I think that's my bag. 2

She's not completely sure that it's her bag.

b I think that's my bag. 1

Another person is picking up her bag.

1 a Is that your phone?

He can hear an electronic sound from someone's pocket.

1 b Is that your phone?

He can see somebody's mobile phone on the seat.

2 a Is your seat 29 F?

She is not sure she heard the number correctly.

2 b Is your seat 29 F?

She is not sure she heard the letter correctly.

3 a Is there a bank in this terminal?

He knows there is a bank in the other terminal but not if there is one in this terminal.

3 b Is there a bank in this terminal?

He is looking for a bank.

4 a Where's the women's toilet?

She is looking for the toilet.

4 b Where's the women's toilet?

She can see the men's toilet, but not the women's.

Follow up: Record yourself saying the sentence for context a or b. Make a note of which one you choose. Then use your recording to do the exercise again in about two weeks.

Now go to Unit 12

Chips or salad?

Emphasising contrasting alternatives

- A** C52 When we present alternatives, we 'underline' the contrast between them. Listen to this example. Notice the way the speaker 'underlines' the alternatives.

A: I'd like a hamburger, please.

B: Do you want a super burger or a regular burger?

A: What's the difference?

B: Well, the super comes with chips and the regular comes without chips.

- B** C53 The same sentence can be pronounced differently, depending on the sentence that came before it. Listen to these examples. Notice how B 'underlines' in a different place depending on what A said.

A: You can pay by credit card.

B: I haven't got a credit card.

A: Why are you paying in cash?

B: I haven't got a credit card.

A: Shall we sit inside or outside?

B: Let's sit outside.

A: Where shall we sit?

B: Let's sit outside.

Note: In the second example above, it is not a different word which is underlined; it is a different part of the same word *outside*.

- C** C54 The word we choose to 'underline' can change the meaning of our sentence. Listen to these sentences pronounced in two different ways and see the different meanings in the pictures.

Do you want the hamburger with chips, or salad?

Do you want the hamburger with chips or salad?

Would you like chicken with vegetables, or Russian salad?

Would you like chicken with vegetables or Russian salad?

Note: In writing, the pause may be indicated by a comma.

Exercises

52.1 Read the short conversations. Which words do you think B will 'underline'? Underline them in the texts below. Then listen and check.

CS5

- 1 A: I'd like a salad, please.
B: A mixed salad or a Greek salad?
A: What's the difference?
B: Well, a mixed salad has tuna and a Greek salad has cheese.
- 2 A: I'd like to stay two nights, please.
B: Do you want full board or half board?
A: What's the difference?
B: Full board includes all meals and half board includes just breakfast and dinner.
- 3 A: We'd like a room for two, please.
B: Would you like a standard or deluxe?
A: What's the difference?
B: Standard has a mountain view and deluxe has a sea view.

Follow up: Play the recording again and repeat B's lines.

52.2 Listen. You will hear only the answers. Which do you hear first, a or b? Write 1 and 2 in the boxes.

CS6

EXAMPLE

- | | |
|--|--|
| a - Would you like a starter?
- I'll have a mixed <u>salad</u> , please. <input type="checkbox"/> 1 | b - What kind of salad would you like?
- I'll have a <u>mixed</u> salad, please. <input type="checkbox"/> 2 |
| 1 a - What time do you close?
- We're closing <u>now</u> , sorry. <input type="checkbox"/> | 1 b - A table for two please.
- We're <u>closing</u> now, sorry. <input type="checkbox"/> |
| 2 a - Would you like anything to drink?
- I'd like red <u>wine</u> , please. <input type="checkbox"/> | 2 b - Would you like red or white?
- I'd like <u>red</u> wine, please. <input type="checkbox"/> |

52.3 Listen. Which choice is the waiter offering first: picture a or b? Write a - b or b - a.

CS7

1 Would you like peaches or strawberries with cream?

a

b

2 Would you like tea with lemon or milk?

a

b

3 Would you like sausage or bacon and eggs?

a

b

Now go to Unit 13

Fifty? No, fifteen!

Emphasising corrections

A

C58

When we hear an error and we correct it, we 'underline' the correct information. Listen to this conversation. Notice how Sid 'underlines' the words which Joe has heard incorrectly.

SID: Let's meet up tonight.

JOE: OK. When and where?

SID: How about the Blues Café?

JOE: The Mews Café? Don't like that place ...

SID: No, the Blues Café. In Rawton Street.

JOE: Where's Lawton Street?

SID: Not Lawton Street, Rawton Street, you know ...

JOE: Ah yes, OK. What time?

SID: How about nine fifteen.

JOE: Five fifteen? That's too early.

SID: No, nine fifteen. What's wrong with your ears today?!

B

C59

If only a part of a word or phrase is not heard correctly, we 'underline' only that part when we correct. Listen to these examples.

A: My nephew's fifteen.

B: Thirteen?

A: No, fifteen!

A: You must be more careful!

B: Careless?

A: No, careful!

A: Her room is really untidy.

B: Tidy?

A: No, untidy!

A: I saw a blackbird in the garden.

B: A blackboard?

A: No, a blackbird!

A: The Amazon's the longest river in the world.

B: Oh, I thought the Nile was the longest river.

C

In the first four examples you heard, the mistake was that B did not hear correctly. But we can also use extra stress when correcting other kinds of mistakes, for example, if the information is wrong, as in the last example you heard.

Exercises

- 53.1 Read this phone conversation. Notice the words which are 'underlined' by A and decide whether B says phrase a or phrase b. Circle the correct answer. Then listen and check.

C60

A: Hello Joe, I'm coming to visit next month.

EXAMPLE B: You're coming a this month? b next week?

A: No, next month. Can you meet me? I'll be on the evening plane.

1 B: On the a morning plane? b evening train?

A: No no. On the evening plane. On Sunday the third.

2 B: On a Sunday the first? b Monday the third?

A: No no, Sunday the third. At nine fifteen.

3 B: At a five fifteen? b nine fifty?

A: No no, nine fifteen. You'll know it's me. I'll have a blue jacket.

4 B: A a new jacket? b blue packet?

A: No no, a blue jacket. See you there. Bye.

Follow up: Record yourself saying A's lines and use your recording to do the exercise again in about two weeks.

- 53.2 Read these short conversations. Which syllable do you think the speaker will stress in the third line? Underline it.

EXAMPLE A: I disagree with you.

B: You agree?

A: No, I disagree!

1 A: He's in the bathroom.

B: In the bedroom?

A: No, the bathroom!

2 A: My father's retired.

B: Why is he tired?

A: No, he's retired!

3 A: I bought a bookshelf.

B: A bookshop?

A: No, a bookshelf!

4 A: But that's impossible!

B: You think it's possible?

A: No, I said impossible!

5 A: The kitchen's downstairs.

B: Upstairs?

A: No, downstairs!

C61

Follow up: Listen. You will hear the first two lines and then a pause before the third line. Say the third line with the stress you underlined. Then listen and check if you were right.

Now go to Unit 14

Look who's talking!

Introducing tones

A

C62

Important
for listening

Some idiomatic expressions have a fixed melody, or tone, in English. For example, in *Look who's talking*, the voice goes down at the end. The syllable *talk-* is higher than the syllable *-ing*. In *You'll be lucky*, the voice goes up at the end. The syllable *luck-* is lower than the syllable *-y*. Listen.

Your problem is that you're lazy. You never move off that sofa.

Perhaps Marvin will lend me some money.

Look who's talk
ing!

You'll
be luck y!

B

C63

Important
for listening

But normally we can choose to make our voice go up or down at the end. For example, in the conversation below, Sid says 'bear' with his voice going down. Joe repeats the word with his voice going up. Listen and notice the way their voices go up or down at the end.

Sid: Shh! ▾
 Joe: What? ▾
 Sid: Bear! ▾
 Joe: Bear? ▽
 Sid: Bear! ▾
 Joe: Where? ▽
 Sid: There! ▾
 Joe: Far? ▽
 Sid: No! ▾
 Joe: Near? ▽
 Sid: Yeah! ▾
 Joe: Run? ▽
 Sid: Run! ▾

Listen again and say Joe's lines.

Note: The choice of tone (voice going up or down) has meaning. We will look at the meaning in Units 55 to 60.

Note: The meanings of the idiomatic expressions in this unit are explained in the Answer Key on page 186.

Exercises

- 54.1 Listen to these short conversations. All of the replies are idiomatic expressions. Listen. Does the voice go up or down on the last word? Draw a line in the box: or

C64

1 Would you like to hold it? You must be joking!

2 I never eat caviar, too salty. Chance would be a fine thing!

3 Next! Go for it.

4 This soup isn't very hot. Give me a break!

Follow up: Listen again and repeat.

- 54.2 The responses to the pairs of sentences a and b below are the same, but the speaker uses a different tone. For example, in the response to Example a, the voice goes down, but in the response to Example b, the voice goes up. Listen and draw a line in the box to show if the voice goes up or down.

C65

EXAMPLE

- | | | |
|---|----------|--------------------------|
| a Let's go away for the weekend. | - Where? | <input type="checkbox"/> |
| b Let's go to Llantisiogogoch. | - Where? | <input type="checkbox"/> |
| 1 a I know who stole your glasses. | - Who? | <input type="checkbox"/> |
| b It was Mickey Mumpkin. | - Who? | <input type="checkbox"/> |
| 2 a I've got some bad news for you. | - What? | <input type="checkbox"/> |
| b I'm afraid your house has burnt down. | - What! | <input type="checkbox"/> |
| 3 a Excuse me, can you help us? | - Yes? | <input type="checkbox"/> |
| b Can you take a photo of us with this camera? | - Yes. | <input type="checkbox"/> |
| 4 a We're going for a picnic if you want to come. | - When? | <input type="checkbox"/> |
| b At midnight tonight. | - When? | <input type="checkbox"/> |

- 54.3 You will hear just the responses from 54.2. Listen and decide if it is the response to a or b.

C66

EXAMPLE b 1 _____ 2 _____ 3 _____ 4 _____

Now go to Unit 15

Here? Yes, here!

Asking and checking tones

A C67

Important
for listening

Questions can be pronounced with the voice going up at the end or going down at the end. You can hear the difference in this conversation. Two people are fixing a place to meet. Listen to the way A pronounces his three questions.

- A: Where? (A's voice goes down at the end.)
 B: Here.
 A: Where? (A's voice goes up at the end.)
 B: Here.
 A: Here? (A's voice goes up at the end.)
 B: Yes, here.

A's first question is an 'open' question. The answer could be any place; he has no idea. A's questions 2 and 3 are 'check' questions. He thinks he knows the answer and he just wants to check. The voice usually goes down at the end of 'open' questions and up at the end of 'check' questions.

B C68

Important
for listening

Here is another example. A is asking directions to B's house. Notice how both of them use 'check' questions (in black) to make sure they understand each other. Listen.

- A: Help! We're lost!
 B: Where are you?
 A: I don't know. There's a supermarket and a river.
 B: Oh, I think I know where you are ... **Can you see a bridge?**
 A: Yes.
 B: OK, well go across the bridge and turn right.
 A: **Turn right?**
 B: Uh huh. Now, **can you see some trees on the left?**
 A: Yes.
 B: Turn left after the trees.
 A: What, **in front of the bar?**
 B: Yes, in front of the bar. You'll see my house on the left.
 A: **It's opposite the farm?**
 B: That's it. Well done, you're here!

Note: In the sentence *It's opposite the farm?* we know the speaker is asking a question from the context. Also, the voice going up at the end makes it sound like a question.

Exercises

55.1 Read these short conversations and tick (✓) the questions. Then listen and check.

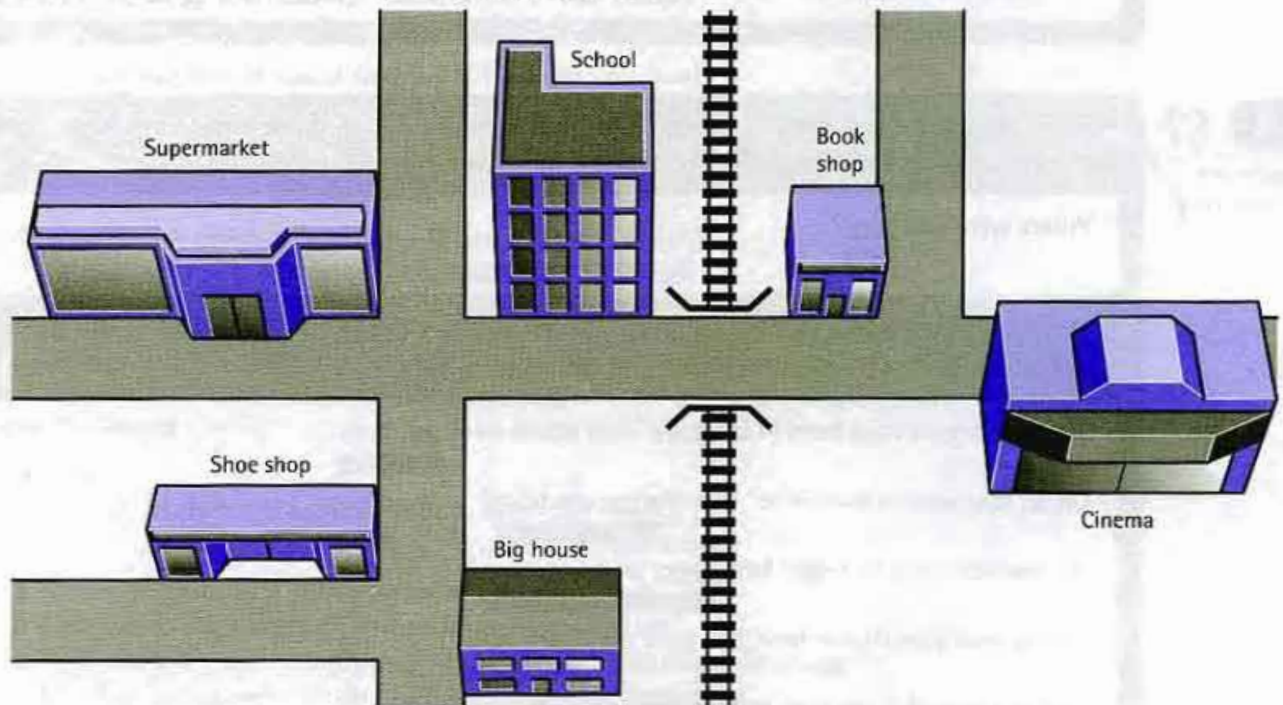

C69

- 1 A: When?
B: Tomorrow.
A: When?
B: Tomorrow.
A: Tomorrow?
B: Yes, tomorrow.
- 2 A: Which way?
B: Left.
A: What?
B: Left.
A: In front of the shop?
B: Yes.

Follow up: Listen and repeat A's lines.

55.2 Listen. You will hear one half of a conversation on a mobile phone. You can tell which way the speaker is going from the check questions. Draw the route on the map.

C70

55.3 Listen to the phrases or sentences. Do they sound like questions? Write (?) after the questions and (.) after the ones that are not questions.

C71

EXAMPLE

Go straight across (.)

- | | |
|--------------------------------|--------------------------|
| 1 Right at the lights () | 5 It's a long way () |
| 2 Next to the supermarket () | 6 Under the bridge () |
| 3 It's this one () | 7 Take the next left () |
| 4 It's opposite the school () | |

Now go to Unit 16

Where were you born?

Tones in asking for information

A C72

Important
for listening

We pronounce an 'open' question differently from a 'check' question. An 'open' question is where we ask for information we didn't have before, and the voice usually goes down at the end. A 'check' question is where we make sure that the information we have is correct. The voice usually goes up at the end. Listen to the examples in this conversation.

- A: What's your **name**? ▾
 B: Sonia.
 A: And where were you **born**? ▾
 B: Surinam.
 A: Is that in **South America**? ▾
 B: Yes, that's right.
 A: And how long have you lived **here**? ▾
 B: Five years.
 A: I see. Are you **married**? ▾
 B: No, I'm not.
 A: And what do you **do**? ▾
 B: I'm a boxer.
 A: You're a **boxer**? ▾

B C73

Important
for listening

Listen to A's second question in recording C72 again. The voice starts going down in the last word only, because this is the word the speaker is emphasising, or 'underlining'.

Where were you born? ▾

But we may 'underline' any of the words (see Units 49 to 53). Listen. Notice that the voice movement begins at the word with the underlining and continues to the end.

So your parents were born in Uruguay. And where were you born? ▾

Oh, so you weren't born here? Where were you born? ▾

So you were born in 1969? And where were you born? ▾

I know your parents live here, but were they born here? ▾

I know you were born here, but were your parents born here? ▾

My mother and father were born here. Were your parents born here? ▾

Note: In check questions the voice sometimes goes down before it goes up at the end. This is shown in the lines in the boxes.

Exercises

56.1 Listen to the questions below. Are they open or check? Draw a down or an up line in the boxes.

EXAMPLE

Are you a student? 1 Have you been to America? 5 Can you drive? 2 What do you study? 6 Where's he going? 3 What time is it? 7 Do you like it? 4 Are you over eighteen?

56.2 Listen. After each sentence below, there is a question. Which word in the question does the speaker 'underline' with his voice? Underline the word. Then draw the voice movement line, starting in the box below the underlined word. The voice goes down in all of them.

EXAMPLE

I'm from Canada. Where are you from?

1 So you're from Cuba. Where in Cuba?

2 From Havana? Interesting. And what's your name?

3 So you don't live in Cuba now? Where do you live?

4 You're a student? What do you study?

5 So you won't finish this year? When will you finish?

Follow up: Listen again and repeat.

56.3 Look at the questions in black below. Underline the word you think the speaker will emphasise. Then listen and check.

EXAMPLE

a So your sister's a teacher? Where does she work?b Oh, so she doesn't work here? Where does she work?

1 a So you're married? Do you have any children?

b I have two daughters. Do you have any children?

2 a So French is your second language? What's your first language?

b My first language is Urdu. What's your first language?

3 a So you work Mondays to Saturdays? What do you do on Sundays?

b So your favourite day is Sunday? What do you do on Sundays?

4 a I know how he did it, but ... why did he do it?

b *She* was going to do it, so ... why did he do it?

5 a My glasses aren't here, so ... where are my glasses?

b Here are your glasses, but ... where are my glasses?

Now go to Unit 17

We're closed tomorrow

Tones in new and old information

A

C77

Important
for listening

In conversation, we often refer back to something we said before. This is 'old' information, and the voice normally goes up at the end. We also tell the listener things we haven't mentioned before. This is 'new' information, and the voice normally goes down at the end.

Listen. In conversation 1 below, the voice goes up at the end, because the last word 'tomorrow' has already been mentioned. In conversation 2, the voice goes down, because the last word 'tomorrow' has not been mentioned.

- 1 A: I'll come in tomorrow.
 B: We're closed tomorrow. ▮
- 2 A: When are you closed?
 B: We're closed tomorrow. ▮

C78

Listen to this example. They are talking about buying a television. Notice how the voice goes up on the words in **black**. This is because these are words which have been mentioned before, so they are old information.

- A: Let's get the Viewmaster. It's really nice.
 B: But the Megavision is **nicer**.
 A: But the Viewmaster has a **guarantee**.
 B: They both have a **guarantee**.
 A: Anyway, the Megavision is too **expensive**.
 B: I know it's **expensive**, but it's better **quality**.
 A: They're both good **quality**.
 B: The Megavision has access to the **internet**.
 A: We have access to the **internet** on the computer.

B

Important
for listening

When we are referring to something before in the conversation, we don't have to repeat exactly the same words. In this conversation, the voice goes up on 'from there' because in this context it means 'Cairo', so it is something which has been mentioned before.

- A: I'm from Cairo.
 B: Really? My wife's from there.

Exercises

- 57.1 Read the short conversations. Do you think the voice goes up or down at the end?
Draw lines in the boxes. Then listen, check and repeat.

C79

EXAMPLES

A: This one's nice.

B: I know it's nice, but it's expensive. 

A: This one's big.

B: I know it's big, but the other one's bigger. 

1 A: This one's slow.

B: I know it's slow,
but it's strong. 

3 A: This one's good.

B: I know it's good, but
the other one's better. 

2 A: This one's ugly.

B: I know it's
ugly, but it's
comfortable. 

4 A: This one's fast.

B: I know it's fast,
but it's dangerous. 

- 57.2 The responses to the pairs of sentences a and b below are the same, but the speaker uses a different tone in each response. For example, in the response to Example a, the voice goes *up* at the end of the sentence, but in the response to Example b, the voice goes *down*. Draw lines to show if you think the voice will go up or down. Then listen and check.

C80

EXAMPLE

a - The train's cheap.

- The bus was cheaper.

1 a - Was the movie good?

- The book was better.

2 a - What time's lunch?

- Lunch is at two.

3 a - I'd like a leather one.

- They're all leather.

4 a - Let's go tomorrow.

- It's closed tomorrow.

5 a - Where's menswear?

- Menswear is upstairs.

6 a - The fish is expensive.

- The steak's more expensive.

7 a - What happens if one of them breaks?

- They all have a guarantee.

b - Why did you take the bus?

- The bus was cheaper.

1 b - Why did you read the book?

- The book was better.

2 b - Let's go swimming at two.

- Lunch is at two.

3 b - Why are they so expensive?

- They're all leather.

4 b - When is it closed?

- It's closed tomorrow.

5 b - What's upstairs?

- Menswear is upstairs.

6 b - Why didn't you have steak?

- The steak's more expensive.

7 b - This one has a guarantee.

- They all have a guarantee.

Now go to Unit 18

Oh, really?

Continuing or finishing tones

A

C81

Important
for listening

When we are telling someone a piece of news, we often check that they know the background to the story first. When we do this, the voice goes up at the end. Then, when we finally tell the news, the voice goes down at the end. This shows that we have finished the story.

Listen and compare A's first question in these two conversations. In 1, he is checking that B knows about Max's grandfather's death, so the voice goes up. In 2, he is telling B the news that Max's grandfather died, so the voice goes down.

- 1 A: You know Max's grandfather died? 
 B: Yes. 
 A: Well, he's left all his money to charity. 
 2 A: You know Max's grandfather died? 
 B: Oh. 
 A: Yeah, terrible, isn't it? 

B

C82

Important
for listening

Listeners also signal if they expect the story to continue or not. In conversation 1 above, B's voice goes up at the end when she says Yes. This shows that she expects A to continue. In conversation 2, B's voice goes down at the end when she says Oh. This shows that she knows A has finished telling her the news. There are more examples in the conversation below. Listen.

- A: You know Angela?
 B: Yes. 
 A: And you know her brother David?
 B: Uh huh. 
 A: Well, you know he lives in Southside?
 B: Mmm ... 
 A: Well, somebody broke into his house last night!
 B: Oh, really!? 

Note: In B's last line, her voice goes down, but it starts from very high. This shows that she did not expect this news; she is surprised.

C

C83

Important
for listening

If we are saying a list of things, our voice goes down at the end of the last thing to show we have finished. On the other things, the voice goes up to show the list is *not* finished. Listen to the continuation of the conversation from B above, and notice A's pronunciation of the list of things stolen.

- B: Did they steal anything?
 A: Yes, they took his computer, television,
 video, CD player and all his CDs.
 B: Oh, that's terrible!

Exercises

- 58.1 Listen to these sentences. If they are said as news (☒), write *Oh*. If they are said as check questions (☑), write *Yes*.

C84

EXAMPLES You know Bradford won? *Oh*
 You know Sylvia's had a baby? *Yes*

- 1 You know I'm a photographer? 4 You know he broke his arm?
 2 You know Danny's got flu? 5 You know the war's finished?
 3 You know she's gone? 6 You know the meeting is cancelled?

- 58.2 You will hear a story. The speaker on the recording will ask questions to check that you know some background information, which is in the text below. Say *Yes*, *Uh huh* or *Mmm ...* with your voice going up at the end. Then, when finally you hear the news, respond with one of these sentences:

C85

How fantastic!
That's great!
Oh, that's terrible!
Brilliant!

Background information

You and the speaker on the recording have a friend called Colin. Colin has a sister called Linda. Linda is an actress in the movies. She was making a movie in Australia recently.

- 58.3 Read these conversations. Write (!) after *really* if you think B would be surprised at A's news, and just write (.) if you think B would not be surprised. Then listen and check. You know if B is surprised because the voice starts very high.

C86

EXAMPLE

A: There's a lot of water in the sea.

B: Oh, really

1 A: My husband is an astronaut.

B: Oh, really

2 A: My bike has two wheels.

B: Oh, really

3 A: My grandmother is 130.

B: Oh, really

4 A: There's a programme on TV tonight.

B: Oh, really

- 58.4 What did you do yesterday? Answer this question by giving a list of your actions. Make sure your voice goes up at the end of each action until the last one, then your voice goes down. Record yourself if possible.

EXAMPLE

Well, I got up, had breakfast, went to work ... and finally, I went to bed.

Now go to Unit 19

A

C87

Important
for listening

When we agree with the other person, our voice often goes down at the end. We tell the other person our opinion, confident they will not be upset.

Listen to this conversation. Notice that the voices go down at the end of each line.

- A: Football's so boring, isn't it?
 B: Yeah, I know. I hate it.
 A: I mean, it's just 22 people running after a ball.
 B: Yeah, how can that be interesting?
 A: No, golf's much more fun, isn't it?

Note: The expression *isn't it?* is called a question tag. When we use question tags to tell someone our opinion, the voice goes down at the end.

B

C88

Important
for listening

But when we disagree, our voice often goes up at the end, so our opinion sounds unfinished and less strong, because we do not want to upset the other person.

Listen to the rest of the conversation from A. Notice how the voices go up at the end of each line.

- B: Well ...
 A: You like golf, don't you?
 B: It's alright I suppose ...
 A: You don't sound very sure.
 B: Well, I guess I'm not really a sporting person, you know.

Note: The expression *don't you?* is a question tag. When we use question tags to check information, the voice goes up at the end.

C

C89

Important
for listening

We can say the same sentence, but change the meaning by changing how we say it.

Listen to these two examples. The speaker in 1 is telling his opinion clearly. The speaker in 2 is leaving something unsaid. You feel he is going to continue with *but*..

- 1 I think they're good. (That is my opinion.)
 2 I think they're good ... (They're not too bad, *but* there's a reason why I don't like them.)

D

C90

Important
for listening

We can also change the meaning of a question tag by changing how we say it. Listen to these conversations.

- | | |
|--------------------------------------|---|
| A: It's too hot, isn't it? (opinion) | A: We sometimes have snow in Morocco. |
| B: Yeah, let's open the window! | B: But it's too hot, isn't it? (check question) |
| | A: No, not in the mountains. |

Exercises

59.1 Listen. Are these the speakers' real opinions, or can you 'hear' a *but*? Write a (.) or (, but...) after each line.

C91

EXAMPLE I like tennis *but*

1 It's nice

2 We're quite good

3 Yes, it is

4 I don't know

5 Yes

6 He does

7 She likes you

8 They're friendly

9 Not bad

Follow up: Record yourself saying these sentences. Use your recording to do this exercise again in about two weeks.

59.2 Listen to the four short conversations about the things in the pictures. Are the speakers agreeing or disagreeing? Write *agreeing* or *disagreeing* under each picture.

C92

EXAMPLE

1

2

3

agreeing

59.3 Complete each sentence with an ending from the box. Then decide if they are opinions or check questions and draw lines in the boxes. Then listen and check.

C93

is it? isn't it? is she? isn't he? are you? aren't they? was it?
wasn't he? don't you? doesn't it? have you?

EXAMPLE You aren't hungry, *are you?*

1 How's your headache? It isn't getting worse,

2 Those flowers are lovely,

3 You haven't seen my glasses anywhere,

4 Torsen's a great player,

5 I'm not sure. He was from Brazil,

6 I can't quite remember. You need 40 points to win,

7 Tennis is so boring,

8 She isn't a very good swimmer,

9 I'm not sure. It starts at nine,

10 It wasn't a very interesting game,

Now go to Unit 20

It was brilliant!

High tones

A

C94

Important
for listening

Listen to these three people saying *thank you*. Notice that the woman who forgot her bag makes her voice go very high. This shows that she really means what she is saying. The other two people do not really mean it, and so their voices do not go high.

Note: Sometimes the ticket collector's voice goes up at the end when he says *thank you*, which makes it sound like a routine habit: he doesn't really mean it. And of course the woman in picture 3 doesn't really mean *thank you*. She means the opposite!

B

C95

Important
for listening

When we give an opinion about something with a very strong adjective like *excellent*, our voice usually goes high to show our strong feeling. If we use weaker adjectives like *nice*, our voice does not usually go high. Listen and compare the voices of the man and woman telling their friend about their holiday.

Liz: So, how was your trip?
 Claire: Oh, it was quite nice.
 Paul: What do you mean, nice? It was brilliant!
 Liz: Good hotel?
 Claire: Quite pleasant, yes.
 Paul: Pleasant? It was excellent! Superb!
 Liz: How about the food?
 Claire: It was OK.
 Paul: OK? It was absolutely delicious!
 Liz: And the scenery?
 Claire: Quite pretty.
 Paul: It was amazing! Beautiful!

C

C96

Important
for listening

People often say a strong adjective like *brilliant* with a flat voice, to mean the opposite. For example, you could say *brilliant* with a flat voice after something bad happens. Listen and compare the pronunciation of this word in these two conversations. In the first one, the person really means it, and in the second she doesn't.

1 A: We've won a holiday for two in Jamaica!
 B: Brilliant! 
 2 A: Our flight has been cancelled!
 B: Brilliant! 

Note: If you use strong adjectives, make your voice go high or people may think you do not mean it!

Exercises

- 60.1 Listen. What do Sue and Jim think about the people they are speaking about? Write the names in the correct column.

C97

people they like	people they don't like
	Jeremy

SUE: Jeremy is going to stay at the same hotel as us.
 JIM: Oh great!
 JIM: Anne's invited us to a party.
 SUE: Fantastic!
 JIM: Kathleen's coming to stay with us for a few days.
 SUE: That'll be fun!
 SUE: Gail and Tim want to come on holiday with us.
 JIM: That'll be nice!

- 60.2 You will hear Claire (from part B on the opposite page) giving her opinion about these things on their holiday. Imagine you are Paul. Listen and say stronger opinions. There are gaps on the recording for you to speak. Don't forget to make your voice high.

C98

EXAMPLE:

You hear Claire say *The beach was quite nice.* You say *Nice? It was absolutely fantastic!*

- 60.3 The responses to the pairs of sentences a and b below are the same, but the speaker pronounces them differently. For example, in the response to Example a, the voice is flat, but in the response to Example b, the voice goes high. Draw lines to show if you think the voice will be flat or go high. Then listen and check.

C99

EXAMPLE

- | | |
|--|---|
| a – We had to stay in a five-star hotel.
– How awful for you! → | b – We had to spend two days in the airport.
– How awful for you! ↗ |
| 1 a – Forget the beach; it's raining again!
– Brilliant! | 1 b – They say we don't have to pay; it's free.
– Brilliant! |
| 2 a – I got an A in the exam!
– Well done! | 2 b – I've crashed the car again!
– Well done! |
| 3 a – I can count to three in German.
– Amazing! | 3 b – I learnt how to fly a plane while we were on holiday.
– Amazing! |
| 4 a – We could pick fresh fruit off the trees in the garden.

You will speak more fluently if you say some very common expressions with a fixed pronunciation, like a single word. The expressions below are grouped according to their stress pattern.

Listen and repeat.

D57

oOo

Good morning.
Good evening.
Excuse me!
How are you?
You're welcome.
I'd love to.

D58

OoO

What's your name?
What's the time?
Thanks a lot.
Close the door.
Yes, of course.
Come and see!
Don't forget.

D59

oOoO

A piece of cake.
The shop was closed.
It's time to go.
I spoke to John.
A cup of tea.

D60

OoOo

See you later!
Just a moment.
Pleased to meet you.
Where's the station?

D61

OOo

No problem!
Don't worry.
Keep quiet!
Please help us.
Who told you?

D62

OOoo

How much is it?
How far is it?
What time is it?
What day was it?

D63

OooO

What do you do?
Where are you from?
Where do you live?
Where were you born?
When does it leave?
How do you do?
What do you want?

D64

ooOo

Can you help me?
Do you like it?
Are you coming?
Was it raining?
There's a problem.

D65

ooOoO

Would you like a drink?
Do you want to come?
Is it time to go?
Is it far from home?

accent An accent is the way the people of a place pronounce their language. For example, people in London and Sydney both speak English, but they have different accents.

auxiliary verb An auxiliary verb is a verb which does not have a meaning by itself; it helps the grammar of the sentence. For example, in *Do you like music?*, *do* is an auxiliary verb.

C In this book, the symbol C means consonant sound.

careful speech / fast speech People pronounce sentences differently when they speak carefully. For example, you may use careful speech when you are talking in public or reading aloud. But in normal conversation you would use fast speech.

consonant sound A consonant sound is a sound we make by obstructing the flow of air from the mouth.

contraction A contraction is a short form of an auxiliary verb in writing. For example, *are* is contracted to *re* in *they're*.

emphasising Emphasising in speech is like underlining in writing; we use it to make one word stand out as more important than the others. We can emphasise words by pronouncing them louder, longer and/or higher.

minimal pair If two words are pronounced nearly the same, but they have just one sound different, they are a minimal pair. For example, in the pair *ship* /ʃɪp/ and *sheep* /ʃi:p/, only the second sound is different.

native speaker If you are a native speaker of a language, that language is your first language, the language which you learnt as a young child.

phonemic symbol A phonemic symbol is a letter which represents a sound. For example, the first sound in *shoe* is represented by the phonemic symbol /ʃ/.

rhyme Two words rhyme if they have the same final vowel or vowel and consonant sounds. For example, *go* rhymes with *show* and *hat* rhymes with *cat*.

sentence stress Sentence stress is the pattern of strong and weak syllables in a sentence. For example, the sentence *How do you do?* is normally said with this sentence stress pattern: OooO (the first and last syllables strong, the second and third syllables weak).

sound A sound is the minimum segment of the pronunciation of a word. For example, the word *this* has three sounds: /θ/, /ɪ/ and /s/.

stress pattern The pattern of strong and weak syllables in a word or sentence is its stress pattern. In this book, stress patterns are represented by big and small circles. For example, the stress pattern of the word *pronunciation* is oooOo.

syllable A syllable is a word or part of a word that has one vowel sound. It may also have one or more consonant sounds. For example, *ago* has two syllables. The first syllable is just one vowel sound. The second syllable is a consonant sound followed by a vowel sound.

tone A tone is the way your voice goes up or down when you say a sentence. This can change the meaning of the sentence.

unstressed An unstressed syllable is one which is not pronounced strongly.

V In this book, the symbol V means vowel sound.

voice Many pairs of consonant sounds are similar, but one of them is voiced and the other is not. For example, /d/ is similar to /t/, but /d/ is voiced and /t/ is not. A consonant is voiced when there is vibration in the throat.

vowel sound A vowel sound is a sound we make when we don't obstruct the air flow from the mouth in speaking.

weak vowels Unstressed syllables often contain a weak vowel. The most common weak vowel is /ə/. This is the first vowel sound in *about*, for example. The vowel /ɪ/ is also sometimes weak, in the second syllable of *orange*, for example.

word stress Word stress is the pattern of strong and weak syllables in a word. For example, the word *decided* has three syllables and the second one is pronounced more strongly. So *decided* has this word stress pattern: oOo.
