Matching headings

Matching headings questions look like this

The reading passage has five sections, **A-E**.

*Choose the correct headings for sections **A-E** from the list below.*

*Write the correct number in boxes **1-5** on your answer sheet.*

List of Headings

- | | |
|------------|---------------------------------|
| i | The problems with health |
| ii | How do we start? |
| lii | The roots of the problem |
| iv | Where next? |
| v | Kenya |

Answering this kind of question

- Look at the text. Read each paragraph quickly to get a general idea of its meaning (this kind of reading is called skimming). Match each paragraph to a heading.
- If you have trouble with one heading, leave it and try the others first. You can eliminate the headings one by one and then it will be easier to find the difficult ones.
- This is generally one of the easier question types in the Reading test so it is a good opportunity to get some marks quickly.
